EAP Program length and multiple enrolments

IMPORTANT: Due to the current CRICOS registration allowing Federation University to deliver a maximum of 20 weeks for ELICOS programs, International Students **will NOT be able to apply to change from one EAP stream to another once they have arrived in Australia**. For example, a student who originally enrols in EAP Intermediate will not be able to change to EAP Advanced if they decide they wish to enter a Higher Ed program that requires a higher IELTS entry level. **It is therefore very important that students choose the correct EAP stream for their destination program before they are issued with a CoE.**
