Student, Sunway University, Malaysia

A Summer at Lancaster

Join us on our beautiful campus and experience a summer school at a highly ranked global university. You will spend time connecting with students from around the world through a varied programme of

There will be free time to explore the UK and see major cities, and we have an extensive social programme to ensure you have the opportunity to make some life-long friendships along the way!

Lancaster University is among the best in the UK. Top 10 in all three major national league tables, we have been awarded the highest possible score in the UK government's 2017 Teaching Excellence Framework, and named International University of the Year by The Times and Sunday Times Good University Guide 2020. Our accommodation has also taken the title of 'Best University Halls' for the eighth time since 2010.

Leadership & Sustainability Innovation

Week 1

You'll explore theoretical practices and responsibilities of leadership through lectures and workshops. Field trips will help you make sense of the theories and learning from the classroom and you will begin to work in a team on a live project to explore the scope for sustainability innovation within an organisation.

Week 2

There will be lectures, workshops, field trips and project sponsor visits covering sustainability innovation and integrated sustainable development goals. You'll also present your recommendations to your clients on the final day in a project showcase event.

Assessment

This summer school will be assessed through three methods:

- + 50%: Individual reflective assignment (2,500 words) completed after the programme
- + 40%: Group client report (4,000 words)
- + 10%: Peer assessments of project showcase event

20 June – 4 July 15 LU / 4 US / 8 ECTS credits

Develop your leadership, entrepreneurship, and business consultancy skills as you work to fix real issues with local businesses and Non-Governmental Organisations.

You'll work in small teams to develop an appreciation of sustainability and innovation, as well as engage with entrepreneurs and businesses on this highly interactive programme.

'I really enjoyed the summer school, made some amazing friends and learnt a great deal regarding team work, business report writing and environmental responsibility. Being able to work closely with a client, gave me an industry perspective that I wouldn't have been able to gain in a lecture theatre.'

Student, Swinburne University of Technology, Australia

International Cultural Experience

18 July - 9 August 10 LU / 3 US / 6 ECTS credits

Develop an understanding of current issues and potential difficulties facing different communities in Britain. As well as class lectures and seminars, you'll have the chance to experience Lancaster life through activities related to business, culture, social issues and political matters. Build international friendships on team-building social activities: deliver a talent show, visit London and other cities and compete in the competitive College Cup Day!

Week 1

Learn about British culture and society, and how these factors contribute to a diverse range of experiences in the workplace. You'll visit a local business in the region and learn about the associated social and economic impact of small to medium enterprises. You will take part in community experiences and also engage in problem-solving team challenges, where you will consider the importance of language and communication, especially in intercultural contexts.

Week 2

This week you will learn how recent political changes have affected Britain. You will meet a local politician and debate key issues surrounding social change and the challenges facing the North West of England. You'll engage with local community organisations and take part in volunteering in support of social and environmental initiatives in the local area.

Week 3

In the final week, a trip to London will inspire you to think about the diversity of British culture and differences between regions in England and urban/rural environments. You'll also have the opportunity to reflect on your experiences and present your work to your tutors and peers.

Assessment

This summer school will be assessed through three methods:

- + 30%: Presentation
- + 40%: Reflective report
- + 30%: Written assessment

International Commercial Law

18 July - 9 August
15 LU / 4 US / 8 ECTS credits

Explore current issues in international commercial law and develop your understanding and knowledge of the underpinning methods, processes and concepts on this summer school. Primarily aimed at undergraduate law students you'll experience legal studies with both a basis in English law and legal methods, and a focus on international perspectives and issues.

In addition to the seminars, lectures and group work on campus, you'll also spend two nights in London, exploring and experiencing law in one of the global hubs of international commercial law.

Week 1 Formation of Business

This topic introduces international commercial law by highlighting the concept of risk in business/commercial activities, providing a brief history of commercial law, discussing various business vehicles as well as the concepts and implications of separate legal personality and limited liability.

Week 2 Management of Business

Exploring key issues in the trading phase of a commercial enterprise, you'll

capital to commercial activities and how

key concepts like security, guarantees, retention of title and receivables

for resolving international commercial disputes, with the focus on globally-used measures of arbitration.

Week 3 Insolvency and Commercial Transactions

You'll explore the notion of insolvency as a pervasive issue in international commercial law. It will highlight the impact of insolvency on commercial activity as well as the twin ideals of insolvency regimes to facilitate the restructuring / rescue of an insolvent entity or to procure a sensible distribution of available assets to creditors. Finally, the future of insolvency and other commercial law regimes in light of Brexit will be considered.

Assessment

This summer school will be assessed through two methods:

- + 75%: Essay (2,000 words)
- + 25%: Presentations which will be delivered across the three weeks

Exploring the Law

18 July - 9 August
15 LU / 4 US / 8 ECTS credits

This summer school will provide you with an opportunity to explore current legal issues and develop your awareness and understanding of the methods, processes and concepts that underpin University-level legal studies. This programme is aimed at providing undergraduates

studying law at postgraduate level.

the issues and concepts to the practice and operation of law, plus travel to London to make

Week 1

You will explore issues and concepts that are fundamental to our understanding of law and legal processes. Lectures will introduce the issues and concepts, explain their

they operate and develop. You will then have an opportunity to discuss and explore the issues further in seminars as well as develop your analytical and legal reasoning skills in masterclasses. You will also begin to work in a team, engaging in group exercises during the workshops.

Week 2 & 3

You will explore contemporary issues and themes concerning the role and impact of law in selected key areas of law – criminal law, human rights law and civil law.

Skills masterclasses will give you a grounding in legal research and writing skills. In the workshops, you will work more independently in teams on exercises arising out of the lectures and seminars.

A trip to London, including visits to leading legal institutions and international legal experts, will help to reinforce the excitement, challenges and importance of law in the modern world. You will also start to prepare for your essay assignments and carry out the last of the group exercises, as we pull together the insights, implications and issues that have emerged during the summer school.

Assessment

This summer school will be assessed through two methods:

- + 60%: Essay (1,500 words) exploring one designated theme in depth
- + 40%: Presentations which will be delivered across the three weeks on

Science of the Environment

18 July - 9 August

15 LU / 4 US / 8 ECTS credits

You will explore the mountains, lakes, countryside and coasts in our beautiful region of the UK, to better understand the natural environment and human impacts on it.

Through interactive classroom and lab sessions, field excursions and special site visits, you will explore the processes that shape the Earth, natural systems and human impacts.

Week 1 & 2

You'll be introduced to the culture, lifestyle and landscapes of the UK and explore:

- + The Earth (earth sciences; hydrological and ice processes; volcanoes; atmospheric sciences and climate)
- + Biological processes (ecology; conservation)
- + Human impacts (pollution control)

You'll go on field excursions and support lab sessions as well as attend introductory lectures and seminars. Science days will cover:

- + Introduction to Geology and Rocks
- + Fire and Ice: Volcanoes and Ice Sheets shaping the Earth
- + Catchments, water and soils
- + Where land meets sea – our coastal zone
- + Atmosphere and Climate
- + GIS, big data and other tools for environmental scientists
- + Ecology and Conservation in our local environment
- + Pollution – sources, effects and control
- + Feeding the world using crop science

Week 3

There will be a two night trip to London to explore the capital and you will also be preparing assessment materials and working on a team project under the theme of 'Understanding, Respecting and Managing the Earth System' where you will develop a scientific approach to the study of environmental problems.

Assessment

This summer school will be assessed through three methods:

- + 30%: Group project
- + 10%: Group presentation on your environmental project
- + 60%: Individual reflective essay (2,000 words plus figures, tables, references and appendices) submitted post programme

'I learned various fields related to the environment through the summer school, my way of thinking for my research was changed.'

Student, Nagasaki University, Japan

Culture, Literature & Society in England (1800-present)

12 August - 12 September

15 LU / 4 US / 8 ECTS credits

British history and society from 1800 onwards was a time of immense change and development. Learn how this period shaped England and especially the North West where Lancaster is located.

Week 1

You'll focus on romantic literature and how it changed perceptions of nature, particularly with regard to the English Lake District, where you will visit the homes of the famous writers William Wordsworth and John Ruskin.

Week 2

In this week, you'll study the emergence of the North West of Britain as an industrial powerhouse, including a visit to a textile mill. You'll consider how scholars, political thinkers, writers and artists of the time perceived these changes.

Week 3

During this time, you'll look at different experiences of World War I, both at home and on the front, and the lasting effects of the war on British culture and memory. Visits to interactive Manchester museums offer a chance to explore world-famous collections.

Week 4

For the final week, the programme will look at the transformation of Britain since the 1950s, the legacy of its colonial past, with a visit to the Albert Docks in Liverpool, and the rise of new multicultural communities.

Assessment

This summer school will be assessed through three methods:

- + 25%: Exam
- + 50%: Essay
- + 25%: Presentation

Social Programme

As well as academic content, you will have opportunities to make friends, try new skills and travel the UK with optional social activities in the evenings and
