Turn your ambition into a career.

UNSW Student Academic and Career Success
Employers seek well-rounded graduates who can demonstrate relevant studies, work experience and extra-curricular involvement. UNSW’s dedicated Student Academic and Career Success (SACS) team helps students gain practical workplace skills, connect with industry and develop a plan for global career success. Career Development Learning Facilitators along with Academic Language Learning Facilitators and English language support are available to you throughout your degree to help you become career ready. You can attend free seminars, access online resources or book a one-on-one careers appointment. You’ll also have access to career support up to 18 months after completing your degree. For more information, visit careers.unsw.edu.au

International Students Careers Week
A week of seminars, panels and online events highlights the global opportunities available to international students. You can meet with international employers, create beneficial networks, and learn valuable recruitment tips from employers and alumni. For more information, visit student.unsw.edu.au/careers-week

Internships
UNSW offers internships through Work Integrated Learning (WIL) opportunities as part of many of our degrees. These opportunities can be credited towards your degree, giving you valuable insights into your industry’s workplace culture. WIL provides you with specific work experience as part of your degree. Check with your Faculty Student Centre for full details of what is available, or visit wil.unsw.edu.au

Careers Expo
Held twice a year, the UNSW Careers Expo is a chance for students to meet and discuss potential employment and internship opportunities with over 100 participating employers, including BHP Billiton, Shell, Commonwealth Bank of Australia, Deloitte, HSBC, Microsoft, IBM Australia, and many more. For more information, visit student.unsw.edu.au/expos

Career-focused learning
Taking a professional practice course will show employers that you are career focused. It will also enhance your competitiveness in the graduate recruitment process.

CDEV1112: Creating Your Career; Employability for the Future
Develop the skills you need to be successful in the job market and to manage your ongoing career through this online course supported by interactive face-to-face seminars. For more information, visit student.unsw.edu.au/employability

International Student Employability Guide
This employability guide is designed specifically for UNSW international students. It provides tips on how you can become more employable and includes the resources and programs available to you as a UNSW student. For more information, visit student.unsw.edu.au/international-student-careers

Professional skills programs
Employers expect graduates to have strong analytical and problem-solving skills, which are vital in many industries. Gathering information, analysing it, communicating with others, utilising logic and imagination and working well in a team are all skills that help solve problems. UNSW will help you enhance your skills thanks to programs such as Interchange and the UNSW Hero Program, which require students to consider and address real world business issues. For more information, visit student.unsw.edu.au/programs

Offshore networks
UNSW maintains offices in China, India and Indonesia as well as staff posted around the world in North America, Europe, Africa, and South East Asia. Our overseas staff have relationships with leading industry partners to promote the UNSW brand and ensure insights from companies around the world inform our programs. For more information, visit international.unsw.edu.au

UNSW’s extensive career and academic development services can help you gain practical workplace skills, obtain professional experience and develop a plan for global career success.
**Sydney, one of the world’s best cities.**

Sydney. It’s one of the best. And that’s not just according to us. It’s rated as the third most liveable city in the world.*

What makes it so great? Well, take a look. With a stunning harbour and year-round amazing weather, it’s easy to see why people fall in love with it. But Sydney is more than just a pretty face. It offers countless business and career opportunities, it’s Australia’s financial and economic powerhouse, plus it’s a multicultural, global city.

There’s always something to do in Sydney, and UNSW is right in the heart of it all. Come join in.

---

**Feel safe and welcome.**

G’day. Hello. Hi. How’s it going? Get used to Australians greeting you like this. It’s how we do it here. Aussies are known for being friendly and you’ll find a smile wherever you go. Plus, Sydney was ranked fifth safest city in the world in 2019**.

It’s a multicultural city full of people from all over the world. So, it will feel like a home away from home, no matter where you’re from. And the best bit about living in a multicultural city? The food. You can find any food you want here. There’s Chinatown, Spice Alley, Little Italy and an array of fresh food markets all within easy reach.

Bring your appetite. You’ll need it.

---

**Jumpstart your career connections in the business capital of Australia.**

Sydney is home to more global firms than any other Australian city. And as a gateway to Asian economies, you’ll find many valuable networking opportunities to help you stand out in the global job market.

---

**Take a break from the books.**

There’s always something fun and exciting happening in Sydney to take your mind off your studies - from concerts in the Opera House, to free events including Vivid light and musical festival, Chinese New Year celebrations and the multicultural Parramasala.

Or if you’re more into sport, there are top class sporting events including cricket, soccer, and rugby. We even have our own football here called Aussie Rules.

For the more artistic visitors, there are eclectic theatre productions, local and international music acts, and arts and culture exhibitions to keep you entertained and inspired all year round.

And if you just want a cup of coffee and a quiet place to sit, Sydney’s café culture is hard to beat.

Get amongst the fun in Sydney

---

**Sydney on a budget.**

On a budget? No worries. There are lots of affordable indoor and outdoor activities to enjoy in Sydney.

Pop into a free art gallery, catch a movie at the local cinema, set off on a coastal walk, snorkel or surf at the beach, or enjoy a budget-friendly lunch or dinner in one of our neighbouring suburbs.

---

**Explore Sydney’s surroundings.**

Sydney is all about the outdoors. And it’s more than just beaches.

Grab a picnic and head to one of the beautiful public parks for a barbecue with friends. Or if you’re up for a daytrip or weekend adventure, the Blue Mountains to the west of Sydney, the Royal National Park to the south or stunning Palm Beach in the north are great for a getaway. And of course, there are those beautiful beaches to the east.

Fall in love with Sydney

*Sunny Harbour Bridge during Vivid Sydney light festival

Bondi Beach, Sydney
Here's a little taste of what you'll find in Sydney.

The best bits.

- Sydney is the 9th best student city in the world. (QS Best Student Cities, 2019)
- Sydney has an average of 236 days a year with sun.
- 31.7% of Sydney's population is born overseas.
- There are over 100 beaches in Sydney.
- There are over 250 languages spoken in Sydney.
- The Sydney Harbour Bridge is also called "the coat hanger".
- The Sydney Opera House hosts 40 events a week.
UNSW has the best of Sydney right at its doorstep. The city centre and its global businesses are just a short light rail trip away. Or if you need a break from the books, the beaches at Bondi and Coogee are not far from campus. Up for some sightseeing? The famous Sydney Opera House and Sydney Harbour Bridge are so close you can see them as many times as you like.

Plus, there are plenty of food options off-campus with China Town, Thai Town, Spice Alley and more only a bus ride away.

All this and more is easy to get to thanks to Sydney’s public transport system. There are trains, buses, ferries and light rail options at all hours of the day. And if you want to make the most of this beautiful city, jumping on a bike or walking will help you take it all in at your own pace.

But what about getting to the main campus? Easy. There’s a new Light Rail network that’s making it even easier to get to UNSW. Plus, there are 1,700 buses to and from Central station every week.

Make the most of your time in Sydney.

Students who successfully complete a UNSW Global Foundation Studies program and intend to progress to a UNSW bachelor degree are eligible for the UNSW Global Academic Award.

Non-financial benefits
Recipients of the Award may also be offered the following:
- Invitation to UNSW networking events
- Invitation to attend the Award Ceremony

Selection criteria
Each applicant will be assessed on their ability to demonstrate academic merit

Find a scholarship that supports and recognises your potential!
Visit scholarships.unsw.edu.au to see the full range of scholarships available.
For more information on eligibility and how to apply refer to page 107 or scholarships.unsw.edu.au

My scholarship has given me a platform to focus more on my studies and obtain a marketing internship which is relevant to my course and thus adds significant value to my overall profile.

– Saurabh Kaura,
  Master of Commerce – International Business, Economics & Finance
We transform clever ideas and research discoveries into successful innovations to benefit society, the economy and future generations. We conduct research across a wide range of areas, investing where we believe we can make the biggest difference, such as:

- **Solar power (photovoltaics):** We broke the record for the conversion efficiency of a silicon solar cell, and we are home to one of the world’s fastest solar-powered cars.
- **Clean drinking water:** We created membrane filtration technology to filter water that is now used in taps around the world.
- **Recycling:** We have revolutionised recycling by delivering critically needed innovations to help manage the world’s waste.
- **Population Ageing:** We are developing economic and health policy frameworks for government and industry to sustainably manage this global challenge.
- **HIV/AIDS:** Since diagnosing Australia’s first case of HIV, we have been involved in the development of every existing antiretroviral HIV drug.
- **The world’s first quantum computer:** Using silicon, we are one of the global leaders in the race to build a quantum computer.

The Torch Innovation Precinct brings together industry, entrepreneurs, investors, and policy makers from around the world. These networks allow us to facilitate the transition from innovation to research and development to realisation.

**12 Australian Research Council Centres of Excellence.**

UNSW offers Australia’s most comprehensive university entrepreneurship program graduating the highest number of Australian startup founders. You will be primed for future success by developing entrepreneurial confidence throughout your student experience – both within your studies and through involvement with the specialist UNSW Founders Program.

UNSW Founders is a university-wide program available to students, staff and alumni. It is designed to embed entrepreneurial skills and knowledge into your university experience, while also supporting exceptional entrepreneurial talent.

An inclusive mindset underpins the development and delivery of UNSW Founders wide-ranging initiatives which aim to inspire, nurture and educate everyone, whether you’re completely new to entrepreneurship, or an experienced founder. With one-on-one coaching, interactive workshops, pre-accelerator and accelerator programs, and access to cutting-edge facilities, UNSW Founders clearly signposted journey can take you from foundational classes in entrepreneurial mindset right through to launching your startup into the global marketplace.

The Founders Program fast-tracked our growth by putting us in touch with industry experts and mentors that have been crucial to our product development and business strategy. We’ve gained not only exposure to the startup industry as a whole, but it has made us think more globally and aspire to expand into the larger US market in the future. The funding, office space and resources provided have been invaluable to us succeeding on our journey.

Vanessa Zhao
Co-Founder, Yellowbox
UNSW Founders 10x Accelerator, Cohort 4, 2019

- **20,000+ individuals have participated in entrepreneurial activities and events organised by the Founders Program team**
- **400+ startups and teams supported**
- **230+ mentors engaged as advisors to startup entrepreneurs**
- **20+ Hackathons with industry partners and faculty**
- **43% of our startups have female co-founders compared to the industry average of 23%**

WHERE GREAT MINDS COME TOGETHER

Established in 2018, the Founders Program has seen some outstanding results.
Experience a taste of UNSW Sydney.

Young Entrepreneurs & Leaders Program

UNSW is a leading entrepreneurial university, with one of the biggest student start-up programs in Australia. Whether you’re completely new to entrepreneurship, or already experienced, you can take advantage of a range of initiatives including the Founders Program, the 10x Accelerator and the Centre for Innovation and Entrepreneurship.

Within UNSW Global, the Young Entrepreneurs & Leaders Program is designed to instill you with key leadership and entrepreneurial skills, including innovation, creativity, and persuasiveness.

The 10-day program will help you to get a head-start in developing global entrepreneurial and leadership solutions, while experiencing first-hand the teaching approach at UNSW and the culture in Sydney.

Your pathway options for success.

Why study at UNSW Global?

If you do not meet the entry requirements for UNSW, you can choose from multiple pathway options that will help you get into a bachelor’s degree at UNSW Sydney - one of the world’s top 50 universities.

QS World University Rankings, 2020

What is a pathway?
Pathway programs are tailored for international students and prepare you for success at University.* UNSW Global pathways include Foundation Studies Programs, Diploma Programs and English Language Courses. These programs and courses are designed to give you the academic knowledge and English language skills needed to meet the entry requirements to a university degree, while making your transition into UNSW Sydney as smooth as possible.

Who is it for?
Students who want to study a bachelor’s degree but have missed out on direct entry because they haven’t finished high school, their qualifications are not recognised, they have not met the entry criteria, or they need some additional English tuition.

Progression to UNSW
When you successfully complete your pathway program, and meet the grade point average (GPA) and English language requirements, you will gain entry to your chosen UNSW bachelor’s degree. If you are studying Foundation Studies and do not meet the GPA required to enter first year, you may have the option to complete a Diploma Program before progressing to second year at UNSW.

UNSW Foundation Studies will help me gain direct entry into the bachelor’s degree in Commerce & Information Systems, which will help start my career.

- Sahel Mohammed
  India
  Foundation Studies

Pathway 1

High school
Year: 11/12

Foundation Studies

UNSW Sydney
Undergraduate degree, Year 1

Pathway 2*

High school
Year: 12

Diploma

UNSW Sydney
Undergraduate degree, Year 2

*An English pathway may be required prior to commencing your program. For more information, see page 108. On completion of a Foundation Studies Program, if the GPA requirements are not met, students may be eligible to study a Diploma Program and then progress to second year of their chosen UNSW degree.

UNSW Global pathways

Foundation Studies Programs
- Prepare for life at university in Australia
- Build your proficiency in English and academic subjects
- Create your pathway to a successful career through a UNSW bachelor’s degree

Diploma Programs
- Fast-track to Second Year of your UNSW bachelor’s degree
- Receive two qualifications: a Diploma and a Degree
- Study Business, Computer Science, Engineering or Science

English Language Courses
- Prepare for academic excellence
- Get a head start on your global career
- Build your English skills for entry into Diploma and Foundation Studies Programs, and UNSW bachelor’s and masters degrees

The Foundation Studies Standard, Standard Plus and Extended programs meet the requirements for Foundation Programs which have been registered on CRICOS for delivery in Australia to overseas students providing an academic preparation for seeking entry to first year undergraduate study or its equivalent. UNSW Global (CRICOS Provider Code:10120K), Foundation Studies Programs (CRICOS Provider Code:00098G), Transition Program (CRICOS Course Code 060623E), Standard Foundation Studies Program (CRICOS Course Code 000725G), Standard Plus Foundation Studies Program (CRICOS Course Code 019277D), Extended Foundation Studies Program (CRICOS Course Code 095626B)
A UNSW Diploma in Business, Computer Science, Engineering or Science provides you with a fast track to success. A Diploma is equivalent to the first year of a UNSW bachelors degree. The programs have been designed as an alternative path for international students who have just missed out on direct entry to a UNSW degree. Successfully completing the 12-month program will allow you to progress into second year of a UNSW bachelors degree in Business, Computer Science, Engineering or Science.

As a Diploma student you will:
• Graduate at the same time as your friends at UNSW
• Take equivalent courses and assessments as first year students so you are ready for success in the degree program
• Enjoy smaller tutorial classes and have access to additional free tutoring and consultation
• Access the same facilities and resources as first year undergraduate students
• Earn two UNSW Sydney qualifications by the time you complete your degree - a Diploma and a Bachelors Degree.

Scholarships of up to A$7,500 are available for Diploma Programs for high achieving students.

For more information, visit unswglobal.unsw.edu.au/scholarships

Note: Diploma in Business students must achieve an average of 60% across all Diploma academic courses to be guaranteed entry into the Second Year of the Bachelor of Commerce. Students studying a Diploma in Computer Science, Engineering or Science must achieve a pass across all Diploma courses to be guaranteed entry in the Second Year at UNSW.

For a full list of specialisations and for more information visit unswglobal.unsw.edu.au/diplomas

UNSW Diploma Programs

Successfully complete a Diploma and progress to second year of a Bachelor Degree in:
• Bachelor of Commerce
• Bachelor of Economics
• Bachelor of Engineering (Honours)
• Bachelor of Science (Computer Science)
• Bachelor of Science

For more information, visit unswglobal.unsw.edu.au/diplomas
UNSW has among the largest student housing capacity in Sydney with award-winning accommodation on and off campus. Live within walking distance of your lecture halls, meet people from around the world, and make lifelong friends. Alternatively, find your own home in the neighbouring Eastern Suburbs or by the beach.

Accommodation at UNSW

Colleges
Colleges provide a choice of full board, partially catered, and self-catered accommodation. There is also a range of gender-specific options including male only, female only, and mixed male and female accommodation. Most colleges cater for dietary requirements like halal, kosher and vegetarian.

Apartments
Apartments offer independent-style living for undergraduates, postgraduates, couples, and families with children. There are apartments on and off campus and costs vary depending on the number of rooms and the location.

You should organise your university accommodation early as places book up quickly. Go to accommodation.unsw.edu.au for information about accommodation on the UNSW Campus.

Private accommodation options

Rental property
There are many private rental properties in the suburbs surrounding UNSW. Costs vary according to the number of bedrooms, the condition and location. When renting, you usually sign a six or 12 month lease and pay rent in advance plus a security deposit called a bond. You can rent a furnished or unfurnished property and generally there will be additional expenses such as electricity, gas, telephone and Wi-Fi. Costs vary but usually range from A$250 – A$350 per student per week.

Homestay (full board and room-only)
Homestay options include full board and single room-only accommodation. Full board usually includes a furnished room, use of facilities in the private home of a family or single person, plus breakfast and dinner. Some also include bed linen, a laundry service and weekly room cleaning. Single room-only homestays include a furnished room, and gas and electricity expenses in the rent. You will be responsible for buying your own food, cooking, cleaning, laundry and telephone costs. Costs vary but usually range from A$250 - A$350 per student per week. Search our database of locally listed private properties at studystays.unsw.edu.au

Temporary accommodation
If you haven’t confirmed your university accommodation before you arrive, we recommend you allow three to four weeks before classes begin to look for private housing, settle in, and attend orientation sessions. Be sure to book short-term accommodation first, then look for long-term options in person. Short-term accommodation can include private hotels, motels, hostels, lodges or furnished apartments ranging from A$45 to A$300 per day.

Private student housing assistance
UNSW’s International Student Housing Assistance (ISHA) team can help you look for temporary or private accommodation if UNSW accommodation isn’t available when you apply. The service is available at the start of each term. For more information, visit student.unsw.edu.au/housing-assistance

Under 18s
Arrangements must be made for students under 18 years of age. These requirements are in line with Australian Government regulations for the care and welfare of international students under 18. For more information, visit student.unsw.edu.au/visa18

A place to make new friends.

UNSW has a village atmosphere that will make you feel at home.

CAMPUS LIFE

Walk to the beach. Tram to the city. Hang out on campus.

Campus facilities

You’ll find dozens of cafes and restaurants, banks, ATMs, a post office, supermarket, food cooperative, pharmacy, medical centre, dentist, libraries, a fitness and aquatic centre, sports fields and courts!

Study areas

We’ve got indoor computer labs and outdoor study areas so you can find the right vibe to suit your study style. Our outdoor areas have power outlets to charge your devices, and our whole campus has free Wi-Fi.

Student Association, Clubs and Societies

Arc is our student association run by students for students. With over 300 clubs and societies, you’ll find a group that’s right for you! Get amongst it. Visit arc.unsw.edu.au

Social activities

Make the most of your time here and see some of Australia’s natural wonders, take a weekend trip to the Blue Mountains, the Royal National Park or Hunter Valley, go whale-watching, surfing and more.

Religious centre

We welcome students from all religious backgrounds to our interfaith religious centre. Chaplains conduct services and studies and offer spiritual counselling.

Staying safe

Student safety is our number one priority. We provide 24/7 security services and have an app to help: StaySafeUNSW. Get the details at international.unsw.edu.au/life-at-unsw
We're here for you - every step of the way.

Our students tell us we are one of the friendliest universities in Australia with many support services you can rely on. We have a range of support and development services to assist you from the time you arrive through to your graduation.

Arrival support
From picking you up at the airport, running new arrival workshops, and taking you on campus tours, our dedicated International Student Welcome Centre will make sure you feel welcome, safe and well connected.

Making friends and settling in
New students can apply to be matched with a Cultural Mentor before they arrive in Australia. Your Cultural Mentor could be an international or Australian student. The program introduces new international students to a senior student 'buddy' who will answer questions about UNSW and Sydney before you arrive. After you arrive, you can meet up with your mentor to learn about Australian culture, customs, and being a student at UNSW.

UNSW has many other mentoring programs in faculties and the wider university community. There are also a number of Cultural Transition programs including Culture of Oz, the Language Exchange Program, the Discussion Group and more.

International Student Advisors
UNSW’s International Student Advisors are always here to help you with personalised advice and information about all aspects of your university life, your student visa, your wellbeing, and your academic performance. Advisors also run our Under-18 Care Program, supporting younger students throughout their study.

For more information, visit student.unsw.edu.au/international

Academic Support
As a UNSW Sydney student, you will have access to free online resources, academic skills workshops, individual consultations with Academic Language & Learning Facilitators, exam preparation advice, and more. UNSW has a dedicated Learning and Careers Support Hub, located right in the middle of campus, which caters to all students’ academic support needs.

For more information, visit student.unsw.edu.au/skills
Gain an international perspective as part of your degree.

Studying abroad as part of your UNSW degree will not only enhance your time here but will give you invaluable life experience. Go immerse yourself in another culture, expose yourself to new and different perspectives, build connections with people on the other side of the world. Just go. We promise it will be nothing short of life changing.

300+ exchange partners
UNSW offers many opportunities for overseas study, short programs and interning through hundreds of leading universities and companies across Asia, North America, Europe and South America. You may be taken out of your comfort zone, but the challenges will empower you to develop greater self-awareness and cross-cultural competencies, establish global professional networks and make lasting international friendships.

Every student should apply
Experiences are as brief as a two-week study tour or as long as a year of exchange. There are even scholarships to help you get there. One of the benefits of the UNSW academic calendar is the flexibility to choose a program that is right for you. Credit is available for many of our overseas programs.

Start planning your experience at unsw.edu.au/exchange

Exchange gave me the opportunity to study, explore and live overseas. I knew that by going on exchange I would have to learn to be independent, flexible and open minded. It definitely lived up to everything I thought it would be. UNSW was an easy choice for me because initially I didn’t really know what to study, but the broad double degree options available made it easier to find my degree and combine it with an overseas exchange.

– Linda Truong, Bachelor of Science
Make your studies work for you.

The innovative UNSW3+ academic calendar gives you the flexibility to choose your own study plan.

UNSW3+ features three standard 10-week teaching terms plus an optional five-week summer term. You only need to enrol once annually which allows you to fully plan your entire academic year.

A standard study load is 8 courses (48 Units of Credit) per year spread over three terms.

With UNSW3+ you can schedule a lighter study load of just two courses during the term to suit your needs or undertake a Work Integrated Learning (WIL) Experience Term for credit as part of your degree. You can also complete nine courses per year to free up time for an extracurricular internship or pick up an additional course in the summer term if you just want to get ahead.

The innovative UNSW3+ academic calendar gives you the flexibility to choose your own study plan.

The major benefits of the UNSW 3+ academic calendar are:

- Studying a maximum of three courses per term ensures you have time to gain deeper knowledge of each subject.
- Flexibility to get involved in activities outside of your studies, to undertake a Work Integrated Learning (WIL) Experience Term, or build your networks through an extracurricular internship to enhance your employability.
- Better alignment with international university calendars so you can add global experiences into your studies more easily.

In 2021, a number of degrees will have three intakes - Term 1 (February), Term 2 (June) and Term 3 (September).

Check the UNSW Degree Finder at degrees.unsw.edu.au for up-to-date information on UNSW Degrees and their term intake.

The UNSW3+ calendar dates for 2021 and beyond can be found at student.unsw.edu.au/calendar.

Planning your study.

The UNSW Academic Calendar allows you to shape your study to suit your needs, giving you the opportunity to pursue the experiences you want to have both in and outside the classroom.

Standard load option

The standard study load is eight courses per year spread over three terms.

<td>3 courses</td>
</tr>
</tbody>
</table>

The 3+ Academic Calendar enables international students to have more time and flexibility to focus on other commitments, such as job hunting, internships and volunteering. It’s not as overwhelming as other calendars where you might need to take five courses in one semester.

- Jackie Wu, Bachelor of Computer Science

The above examples are based on a standard 3 year degree. Study options available may vary depending on your specific degree requirements.

*To maintain full time status at UNSW while on exchange, you need to transfer back 24 Units of Credit per half year.

^The Work Integrated Learning (WIL) Experience Term enables you to undertake a real-world placement or project for credit toward your degree.

Bachelor of Design

Program code: 4822
CRICOS code: 09749G
Duration: 3 years (+1 year honours option)
Entry: February and September
Estimated first year tuition: $37,440
Units of credit (per year/total): 46/144
Assumed knowledge: None

Structure

Core Studio
(6 courses)

Studio Specialisation
(8 courses)

History & Theory
(4 courses)

Professional Practice/Experience
(2 courses)

Elective & General Education
(4 courses)

With a future-focused, studio-based and research-led approach, the Bachelor of Design will equip you with the knowledge and skills to understand how design-led solutions enable people to perform at their best. In this degree you will integrate digital and physical production, critical thinking, emerging technologies, design research, and entrepreneurship.

Studio specialisations

Choose two of the following disciplines to specialise in:

- 3D Visualisation
- Object
- Experience
- Graphics
- Interaction
- Textile

Career opportunities

Graphic, media, interaction and digital design, communications, branding and advertising, user experience design, design management, consulting and strategy, social innovation and entrepreneurship, design-driven innovation, data visualisation and immersive design, design and media studios, object, furniture and lighting design, film, television, and digital production, design for exhibitions, stage and events, design teaching and academia, jewellery design, packaging, illustration and publishing, textile, fashion and accessories design.

Double degree options:

- Commerce
- Education (Secondary)
- Media (9.4 & Advertising)

I chose my degree because it gave me the chance to combine multiple areas of design and explore the exciting spaces in between. It's given me so much confidence as a professional designer.

Forough Najarbehbahani,
Bachelor of Design

Bachelor of Fine Arts

Program code: 4821
CRICOS code: 09749H
Duration: 3 years (+1 year honours option)
Entry: February, June and September

Forough Najarbehbahani,
Bachelor of Design

3D Visualisation

Delve into the computer-generated world learning key technologies such as virtual reality systems.

Object

Bring together ceramic, furniture and jewelry design to explore materiality, form and practice.

Experience

Explore the way people experience and interact with space and design for fields such as exhibitions, events and performing arts.

Graphics

Engage with the manipulation of image and type for applications including publications, visual identity and digital spaces.

Interaction

Learn to design interactive experiences for digital systems, products, websites, environments and services preparing for a career in User Experience (UX).

Textile

Advance the rich histories of textiles to form an experimental practice in textile design, wearable art, costume and fashion design.

Career opportunities

With a future-focused, studio-based and research-led approach, the Bachelor of Design will equip you with the knowledge and skills to understand how design-led solutions enable people to perform at their best. In this degree you will integrate digital and physical production, critical thinking, emerging technologies, design research, and entrepreneurship.

Welcome to a supportive, diverse community where you can follow your passion and build the future career you want. The knowledge, innovative spirit and hands-on experiences of an Arts & Social Sciences education at UNSW is a distinct combination that will set you up for life. You’ll learn to navigate the complexities of today’s world and be adequately equipped to find solutions to problems – even those we don’t yet know exist.

Top 50 in the world
Your learning will be influenced by educators who are professionals in their field, including skilled researchers, journalists, teachers, policy makers, musicians, social workers and more. This enriching teaching experience is reflected in the 2020 QS World University Rankings by Subject – 34th in the world for Social Sciences and 42nd in the world for Arts & Humanities.

Be equipped for tomorrow’s workforce
We all know that workplaces are changing. At UNSW Arts & Social Sciences, you’ll gain the vital communication, problem solving and leadership skills needed to solve tomorrow’s big challenges and thrive in the jobs of the future. You’ll put these skills into practice during your studies with access to the latest technologies and state-of-the-art equipment, as well as work integrated learning experiences.

Work Integrated Learning
Take a hands-on approach to learning and gain industry experience while studying. All our students are encouraged to undertake Work Integrated Learning as part of their degree. From Media internships to Social Work practicums to Education placements; there is a dedicated Work Integrated Learning team who can help you get the most out of your industry experience.

• Physics

Bachelor of International Studies

Critically examine how the world is changing around you with a focus on exploring contemporary global issues from a variety of different perspectives including international relations, foreign affairs, human rights and foreign policy. Our program responds to a growing demand for graduates who are equipped to meet the challenges of a rapidly changing global environment including language proficiency, intellectual flexibility and interpersonal skills. You will also learn through experience by undertaking a year-long Overseas Study Program in your third year.

Program code 3447
CRICOS code 085888A
Duration 4 years
Entry February, June and September
Estimated first year tuition AS$3,075
Units of credit (per year/total) 48/144
Assumed knowledge None

Structure
International Studies Core
• Electives
• Language Studies Core
• Major
• Overseas Study Program

Minors
Your choice of minor:
• Asian Studies
• Chinese Studies
• Economics
• Environmental Humanities
• European Studies
• Foreign Languages
• German Studies
• Global Development
• International Relations
• Policy Science
• Sociology
• Spanish
• Latin American Studies

Career opportunities
Be challenged by the dynamics of global and regional change, explore key developments in international politics and economics and evaluate why the world is changing around us. You will develop the skills you need for a career in today’s global market including working in international business, government agencies (including foreign affairs), investment banks and other financial institutions, United Nations agencies, journalism and media, tourism and trade, humanitarian aid and human rights organisations and international development agencies.

Double degree options:
• Law
• Media (Communication & Journalism)
• Media (PR & Advertising)
• Media (Screen & Sound Production)
Bachelor of Media

Program code 3454
CRI205 code 64436G
Duration 3 years (+ 1 year honours option)
Entry February, June and September
Estimated first year tuition A$37,230
Units of credit (per year/total) 48/144
Assumed knowledge None

Gain detailed knowledge of public relations and advertising practices and get the skills you need to reimage and direct the future of the media industry. You will develop practical and strategic communication skills, and build industry connections that will give you a professional advantage in the complex media environment. Our graduates have the skills and knowledge required to represent and support the interests of companies (for profit or not-for-profit), government agencies, individual clients and brands.

Career opportunities
Our graduates have been highly successful in forging careers in major media institutions as well as with cutting-edge innovators in both Australia and overseas. They can be found working in journalism, publishing, public relations and advertising, corporate, organisational and public sector communications, internal communications, media relations and social media strategy, digital media, digital marketing and website content management.

Double degree options:
- Arts
- International Studies
- Law
- Music

Bachelor of Music

Program code 3436
CRI205 code 008120
Duration 4 years (embedded Honours option)
Entry February
Estimated first year tuition A$39,640
Units of credit (per year/total) 48/144
Assumed knowledge None

Double degree options:
- Advanced Science (Hons)
- Arts
- Commerce
- Education (Secondary)
- Engineering (Honours)
- Law
- Media (Communication & Journalism)
- Media (Film & Advertising)
- Music (Screen & Sound Production)
- Science

Admission
All applicants must complete an audition to gain entry to the Bachelor of Music program. Audition information and the online application form can be found on the School of the Arts and Media website at arts.unsw.edu.au/sam

If you are a student of exceptional musical ability, you may be able to enter directly into Year 2 of the Bachelor of Music. The audition process for the Advanced Entry Scheme builds on top of the existing audition process for the degree and involves the submission of additional documentation and a live audition.

Bachelor of Politics, Philosophy and Economics

Program code 3478
CRI205 code 0983768
Duration 3 years (+ 1 year honours option)
Entry February and September
Estimated first year tuition A$39,150
Units of credit (per year/total) 48/144
Assumed knowledge None

Double degree options:
- Economics
- Philosophy
- Politics and International Relations
- Politics, Philosophy and Economics

Career opportunities
Graduates are globally recognised leaders and commentators in all aspects of public life. They can be found in industries worldwide including government agencies (including foreign affairs), political parties and lobby groups, public services, NGOs and social activist organisations. The Bachelor of Politics, Philosophy and Economics is a world-renowned degree that carries a considerable recognition among various organisations and potential employers.

Double degree options:
- Law
Bachelor of Social Science

Program code 3321
CRICOS code 000831E
Duration 4 years
Entry February and June
Estimated first year tuition A$38,310
Units of credit (per year/total) 48/192
Assumed knowledge: None

Gain the skills you need to impact policy, drive social change and make a real difference in the world. As a social scientist, you will learn and develop the knowledge and skills to analyse, challenge and gain insight into complex social, environmental and political problems. As part of your degree you will apply your knowledge of social theory and research to a practical Work Integrated Learning experience, become work ready and discover firsthand what it is like working in the field of social science.

Majors
- Economics (Business)
- Environmental Humanities
- Global Development
- Human Resource Management (Business)
- Indigenous Studies
- International Business (Business)
- Marketing (Business)
- Media, Culture and Technology
- Politics and International Relations
- Sociology and Anthropology

Career opportunities
Social science skills can be applied in a range of settings – government, non-government, not-for-profit, social enterprise and collectives. Our graduates are highly successful in gaining employment in diverse roles and areas such as community development, health, the environment, research and policy analysis, political advising, organisational management, marketing and market research, corporate affairs management and private consulting.

Double degree options:
- Advanced Science (Hons)
- Law
- Science
- Social Work (Hons)

Structure
Major
- Social Science
- Electives

Bachelor of Social Work (Honours)

Program code 4033
CRICOS code 000831E
Duration 4 years
Entry February and June
Estimated first year tuition A$38,310
Units of credit (per year/total) 48/192
Assumed knowledge: None

Help change lives by solving problems in human relationships, promoting social change and enhancing the wellbeing of others. Our Social Work degree has a strong emphasis on practical skills and you will be guided by social workers and industry professionals throughout the program. Digital Fabrication Lab, Square House
Bachelor of Architectural Studies

Program code: 5261
CRICOS code: 06780B
Duration: 3 years (+ 1 year Honours option)
Entry: February and September
Estimated first year tuition: $45,178
Units of credit: (per year/total): 48/144
Assumed knowledge: None

Structure:
- Core Courses: 16
- Practice Courses: 5
- Interdisciplinary Courses - (Work Integrated Learning): 2
- Elective Courses: 3
- General Education Courses (from other faculties at UNSW): 1
- Thesis Course

This degree prepares you for a professional career in architecture and other design-based industries. You will learn to design buildings and other settings to meet individual and community needs, taking sustainability, culture and economy into account. Together with the Master of Architecture, this is your launchpad into contemporary architectural design practice.

Career opportunities:
This degree will lead to a range of architecture and design career opportunities. Upon completion of an accredited Masters degree, career opportunities include Consulting Architect in private practice, Specialist Architect in areas such as heritage, Building Scientist, Environmental Consultant, Architect in multidisciplinary design practice, Architect in a government department or large commercial architectural firm, Architectural Critic, Academic and Researcher.

Professional accreditation:
The Bachelor of Architectural Studies is the undergraduate pathway to the professionally accredited postgraduate Master of Architecture degree which has professional recognition from the NSW Architects Registration Board.

Study areas:
- Communications
- Computer Modelling
- Design Studio
- History and Theory
- Materials
- Professional Practice
- Structure and Construction
- Technical Drawing and Model Making
- Technology and Environment

Bachelor of City Planning (Honours)

Program code: 3362
CRICOS code: 088837E
Duration: 4 years (includes practice year)
Entry: February
Estimated first year tuition: $51,840
Units of credit: (per year/total): 48/144
Assumed knowledge: None

Structure:
- Core Courses: 16
- Practice Courses (Work Integrated Learning): 5
- Interdisciplinary Courses - working with students from other disciplines: 2
- Elective Courses (from within the degree): 3
- General Education Courses (from other faculties at UNSW): 2
- Thesis Course

Learn to shape sustainable, equitable, healthy and inspiring built environments with the Bachelor of City Planning (Honours). From theoretical work around contemporary planning issues to Work Integrated Learning with many city, state and international partners, this program provides you with the necessary foundations for a career as a City Planner.

Career opportunities:
You could pursue a career as a City Planner, Strategic Planner, Environmental Planner, Land use Planner, Urban Policy and Research Consultant, Urban Consultant or Development Assessment Planner. You may also become a specialist in planning law if you study City Planning (Honours). Laws degree.

Study areas:
- City Economics
- Environmental Science
- Heritage Studies
- Planning History
- Planning Law
- Planning Theory and Methodology
- Sociology
- Transport Planning
- Urban Design

Professional accreditation:
The Bachelor of City Planning (Honours) is accredited by the Planning Institute of Australia (PIA). Double degree options: 1. Law

Bachelor of Computational Design

Program code: 3268
CRICOS code: 069585J
Duration: 3 years (+ 1 year Honours option)
Entry: February and September
Estimated first year tuition: $54,678
Units of credit: (per year/total): 48/144
Assumed knowledge: None

Structure:
- Core Courses: 16
- Prescribed Elective: 1
- Interdisciplinary Courses - working with students from other disciplines on real projects: 2
- General Education Courses (from other faculties at UNSW): 2
- 1 Open Elective Course (from within UNSW Built Environment Or other faculties at UNSW)

This Bachelor of Computational Design gives you an understanding of digital technologies and their use in the built environment. You’ll learn how to design responsive, interactive spaces and develop skills in computer design, 3D modelling, robotic and digital fabrication. You will be able to apply these skills in industrial/urban design and architectural contexts.

Career opportunities:
Architectural & Urban Design Specialist, Digital Optimisation Consultant (architect/ engineering firms), Software Solutions Developer (Design/ Production Manager (construction firms), Smart Cities Consultant (planning offices & Councils), Urban Data Analyst (business consultancy firms), Design Technology Manager (architecture design firms), Digital Fabrication and Smart Manufacturing Specialist, Animation Professional, Gaming Environment Developer, Building Information Model Implementer (BIM).

Study areas:
- Animation
- Building Modelling
- Computer Aided Design (CAD)
- Design Studio
- Information Technology in Design
- Multimedia
- Rendering

UNSW-Tongji Double Degree in Architecture

Program code: 5264
CRICOS code: 88390F
Duration: 4 years
Entry: February
Estimated first year tuition: $45,178
Units of credit: (per year/total): 48/144
Assumed knowledge: None

Structure:
- Semesters at Tongji University: 2
- Terms at UNSW Sydney: 3
- Semester at Tongji University: 1

Progress your architectural career at the global level. This unique double degree, taught in English at both UNSW and Shanghai’s Tongji University, prepares you for professional practice in both Australia and China. Upon completion of an accredited Masters degree, you will be career-ready to pursue careers as a Consulting Architect in private practice, Specialist architect, Building Scientists, Architect in a government department or a large commercial architectural firm.

Career opportunities:
This degree prepares you for work in both China and Australia. Upon completion of an accredited Masters degree, you will be career-ready to pursue careers as a Consulting Architect in private practice, Specialist architect, Building Scientists, Architect in a government department or a large commercial architectural firm.

Professional accreditation:
The UNSW-Tongji Double Degree in Architecture is an undergraduate pathway to the professionally accredited postgraduate Master of Architecture degree which has professional recognition from the NSW Architects Registration Board.

Entry:
Students commence this double degree at Tongji University. The Tongji academic year commences in September. For more information on Tongji Double Degree entry see: be.unsw.edu.au/tongji

Study areas:
- Communications
- Computer Modelling
- Design Studio
- History and Theory
- Materials
- Practice
- Structure and Construction
- Technical Drawing and Model Making
- Technology

City Planning (Honours)

This program is an undergraduate pathway to the professionally accredited postgraduate Master of City Planning which has professional recognition from the NSW Planning Association (NSWPA).

Study areas:
- City Economics
- Environmental Science
- Heritage Studies
- Planning History
- Planning Law
- Planning Theory and Methodology
- Sociology
- Transport Planning
- Urban Design

Professional accreditation:
The Bachelor of City Planning (Honours) is accredited by the Planning Institute of Australia (PIA). Double degree options: 1. Law
Bachelor of Construction Management and Property

Program code: 3332
CRIOS code: 988764F
Duration: 3 years
Entry: February and September
Estimated first year tuition: AU$41,840
Units of credit (per year/total): 48/144
Assumed knowledge: None

In this degree you’ll develop broad knowledge and skills across the management of property development, construction and design work, construction site operation and project management as well as quantity surveying.

Career opportunities
Construction Manager, Project Manager, Site Manager, Property Developer, Property Valuation, Property and Asset Manager or Analyst, Quantity Surveyor, Estimator, Construction Planner, Construction Consultant, Solicitor/Legal Advisor, Corporate Real Estate Advisor.

Study areas
- Building Construction
- Building Science Materials and Structure
- Construction Technology
- Economics and Law
- FacEx Management
- Management
- Property Development
- Quantity Surveying

Professional accreditation
The Bachelor of Construction Management and Property is accredited by the Australian Institute of Building (AIB), The Australian Institute of Quantity Surveyors (AIQSC) and The Royal Institution of Chartered Surveyors (RICS).

I chose the Bachelor of Construction Management and Property program as it balances a mix of project management, business and engineering. I wanted to study at UNSW because of its positive learning environment, reputation within the construction industry, and motivated educators who bring their unique experiences in the classroom to support our learning. The BCM program is tailored to meet the market need and my subjects have catered to current industry developments. While studying I attended a cadetship in the construction industry, it was a real light bulb moment when I was able to bring classroom concepts to work, and use them to make sense of real life situations.

- Hanza Arshi
Bachelor of Construction Management and Property

Bachelor of Industrial Design

Program code: 3387
CRIOS code: 988445E
Duration: 3 years
Entry: February and September
Estimated first year tuition: AU$41,840
Units of credit (per year/total): 48/144
Assumed knowledge: None

Structure
- 18 Core Courses
- 8 Design studio Courses
- 2 Interdisciplinary Courses - working with students from other disciplines
- 2 Open Elective Courses (from within UNSW Built Environment OR other faculties at UNSW)
- 2 General Education Courses (from other faculties at UNSW)
- 2 Elective Courses (from UNSW Built Environment)

This degree will equip you to influence the way we live by designing what we use every day. You’ll learn about design process, technology and materials, visual communication and more, taking the technical aspects of design in tandem with user experience.

Career opportunities
Product Designer within a multi-disciplinary design team (architectural and engineering consultations), Product Designer within the manufacturing sector (consumer and public access products electrical, transport, scientific, medical, retail, furniture, telecommunications), Digital Multimedia Designer, Product Branding Marketer, Packaging Designer, Exhibition Designer, Graphic Designer, Service and Strategic Designer.

Study areas
- 3D Digital Modelling
- Commercials and Marketing
- Computer Aided Design (CAD)
- Design Studio
- Materials and Manufacturing
- Science and Engineering

Professional accreditation
Graduates of the Bachelor of Industrial Design are eligible for membership of the Design Institute of Australia (DIA).

Bachelor of Interior Architecture (Honours)

Program code: 3256
CRIOS code: 088833J
Duration: 4 years
Entry: February and September
Estimated first year tuition: AU$41,840
Units of credit (per year/total): 48/192
Assumed knowledge: None

From the scale of rooms to cities, this degree trains you to develop creative solutions to societal, functional and aesthetic challenges in the built environment. You’ll learn about interior environments including all aspects of their structural, spatial, social and material assembly, then discover how to put your skills and knowledge into professional practice.

Career opportunities
Professional Designer in architecture and design practices, Private Consultant, specialising in residential, retail, workplace, commercial or hospitality, Corporate Interior Designer specialising in multi-storey residential, retail, hospitality, medical, hotel or exhibition design, your own interior architecture or design practice, Project Manager, Construction Manager.

Professional accreditation
The Bachelor of Interior Architecture is recognised by the Interior Designer/Interior Architecture Educators Association (IDEA). Graduates are eligible for membership to the International Federation of Interior Architects/Designers (IFI) and Design Institute of Australia (DIA).

Study areas
- Communications
- Computer Modelling
- Design Studio
- History and Theory
- Materials
- Practice
- Technical Drawing and Model Making
- Technology

Bachelor of Landscape Architecture (Honours)

Program code: 3381
CRIOS code: 089383D
Duration: 4 years
Entry: February
Estimated first year tuition: AU$41,840
Units of credit (per year/total): 48/192
Assumed knowledge: None

Landscape architects transform the world around us, planning and designing the shared environments in which we live, work, travel and play. In this professionally accredited degree, through coursework and work experience, you will study built and natural urban systems as the basis for designing liveable, healthy, sustainable and resilient cities.

Career opportunities
Landscape Architect in private practice, Landscape Technical Officer, Project Manager or Strategic Planner in local or state government, Landscape Planning and Management Specialist, Designer with a landscape construction company.

Study areas
- Communications
- Design Studio
- Ecological Processes
- Environmental Technology and Practice
- History and Theory
- Landscape Engineering Principles
- Plants and Design

Professional accreditation
The Bachelor of Landscape Architecture is accredited by the Australian Institute of Landscape Architects (AILA).

Financial Technology | FinTech is used to create innovation and disrupt financial services from peer-to-peer lending and robo-advice to decentralised finance, such as Bitcoin, identifying the demands of industry. FinTech sits at the forefront of industry needs, developing highly employable graduates.

Human Resource Management | Develop strategic thinking in employee engagement, employment relations, organisational change, staff learning and development, health and safety, organisational behaviour and performance management.

Information Systems | Information Systems helps businesses launch and thrive in the digital age. As a student, you will learn to develop, implement and manage information technology solutions for business including databases, enterprise systems, business intelligence systems, social media, networks and infrastructure to support business operations.

International Business | In today’s global business, highly competitive business ecosystems operate in markets across cultures and countries. Master the art of managing multinationalities as you craft strategies that consider the economic, social, legal, political and cultural contexts of global business.

Marketing | Marketing is essential to every business in today’s highly competitive marketplace. Marketers work within organisations or in agency and aim to create differentiation and competitive advantage to grow an organisation/market share. They work in all stages of the product life cycle including innovation and new product development, campaign planning and execution through to digital and marketing analytics as well as the interpretation of marketing data to inform campaign and product choices.

Taxation | Every individual, private enterprise and government agency interacts with the taxation system, making tax experts highly sought after in almost every aspect of our economy. Delve into the intricate system of legislation and policy to understand the implications and influence of taxation on organisations.

Bachelor of Actuarial Studies

Program code: 3586
CRICOS code: 077428C
Duration: 3 years
(3 + 1 year Honours option)

Be empowered at a globally renowned Engineering faculty, where passion, diverse perspectives and a hands-on approach create solutions for a better world.

**#1 Engineering faculty in Australia**

Make a positive difference in the world through world-class education and research at Australia’s #1 Engineering faculty, rated five-stars for employability, teaching and research.*

**Learn from the best**

Access the world’s best facilities coupled with an exciting education experience at UNSW Engineering, with four subjects ranked in the top global 50*: Minerals and Mining, 4th in the world; Civil Engineering, 11th in the world, and 1st in Australia; Electrical Engineering, 35th in the world, and 1st in Australia; Chemical Engineering, 40th in the world.

**Engage with industry**

Be equipped with the skills needed to succeed in the real world. Join industry and student networking events and gain hands-on practical learning experiences that will empower you with professional knowledge and networks to build a successful career.

*QS World University Rankings by Subject, 2020
Bachelor of Science (Computer Science)

Program code 3778
CRICOS code 015784F
Duration 3 years
Entry February, June and September
Estimated first year tuition A$47,760
Units of credit (per year/total) 48/144
Assumed knowledge Mathematics

Structure
16 Computer Science Courses
• 6 Electives + 2 General Education Electives
• Possible Minor in Accounting, Finance, Information Systems, Marketing, Math, Psychology

Career opportunities
Graduates are employed in fields such as software engineering and development, digital security, database development, game development and systems analysis.

Double degree options:
• Actuarial Studies
• Advanced Mathematics (Honours)
• Advanced Science (Honours)
• Arts
• Commerce
• Economics
• Engineering (Honours)
• Law
• Media Arts
• Science

Professional accreditation
This degree is accredited by the Australian Computer Society.

Bachelor of Engineering (Honours)

Program code 3707
CRICOS code 06835E
Duration 4 years
Entry February, June and September
Estimated first year tuition A$57,760
Units of credit (per year/total) 48/192
Assumed knowledge Mathematics and Physics (except where specified)

Structure
28 Courses in your chosen discipline
• 6 Electives
• 2 General Education Electives
• 60 days Industrial Training

Career opportunities
Graduates pursue careers in a number of fields such as the space industry, national security, transportation, airlines, maritime construction and consulting.

Double degree options:
• Advanced Mathematics (Honours)
• Advanced Science (Honours)
• Arts
• Commerce
• Computer Science
• Law
• Music
• Science

Chemical Engineering (Honours)

This broad degree covers the critical steps in a product’s creation, from the pure chemistry to the economics. You will discover how to design and develop chemical processes and equipment, optimise and control industrial operations, work with nanoparticles, determine environmental effects and pollution control – and much more.

Study areas
• Chemical Engineering
• Chemical Reaction Engineering
• Advanced Thermodynamics

Career opportunities
Chemical engineers work in a variety of fields including food and drink, development, environmental management, mining and minerals, oil and gas, paper and packaging, pharmaceuticals, water treatment and recycling.

Double degree options:
• Advanced Mathematics (Honours)
• Advanced Science (Honours)
• Arts
• Commerce
• Computer Science

Aerospace Engineering (Honours)

Immerse yourself in the science and practice of air and space flight with this exciting degree. You’ll cover design, development, testing and production of aerospace vehicles, maintenance and operation of aircraft, and aerospace research. In your final year you’ll execute a team project, applying your skills through internationally-acknowledged industry training.

Study areas
• Aerodynamics
• Systems
• Flight Mechanics
• Space Craft
• Propulsion
• Structures

Career opportunities
Graduates pursue careers in a number of fields such as the space industry, national security, transportation, airlines, maritime construction and consulting.

Double degree options:
• Advanced Mathematics (Honours)
• Advanced Science (Honours)
• Arts
• Commerce
• Computer Science
• Law
• Music
• Science

Bioinformatics Engineering (Honours)

Assumed knowledge
Mathematics and Chemistry

Master the foundational disciplines of bioinformatics, a field at the convergence of computing and life sciences. In this degree you will learn how to develop technologies for storing, extracting, organising and interpreting the tsunami of genetic information to which we now have access.

Study areas
• Computing
• Mathematics
• Biology
• Bioinformatics

Career opportunities
Bioinformatics graduates work in a variety of industries including bioinformatics, pharmaceutical, agritech, banking and finance, big data, consulting, development, digital services, education, health, IT, logistics, research, software engineering and computer security.

Double degree options:
• Advanced Mathematics (Honours)
• Advanced Science (Honours)
• Arts
• Commerce
• Computer Science
• Law
• Music
• Science

Civil Engineering (Honours)

Civil engineers are responsible for projects that enhance the overall quality of life. In this degree you’ll learn how to design, construct, manage, operate and maintain the infrastructure that supports modern society.

Study Areas
• Civil Engineering
• Engineering Construction and Management
• Geotechnical Engineering
• Structural Engineering
• Transport Engineering
• Water Engineering

Career opportunities
Graduates are employed by professional consulting firms, construction companies, large public companies, government organisations and financial and management consultancies.

Double degree options:
• Advanced Mathematics (Honours)
• Advanced Science (Honours)
• Arts
• Commerce
• Computer Science
• Engineering Science
• Law
• Music
• Science
• Surveying
Computer Engineering (Honours)

Computer Engineering will empower you to make a difference in today’s world, where the internet, cars and phones are a fundamental element of people’s lives. Your study combines computer science with engineering principles of electrical engineering, while designing and building hardware.

Study areas
- Advanced Computing
- Electronics
- Embedded Systems
- Systems and Control
- Telecommunications

Career opportunities
Computer Engineering graduates work in a variety of industries including technology manufacturing, research laboratories, T.I., digital consulting firms, ag tech, health, education, manufacturing, research laboratories, I.T., digital technology such as mobile phones, video game development, and more. You will be at the centre of an exciting multidisciplinary field including biologists, ecologists, geologists and engineers.

Double degree options:
- Advanced Mathematics (Hons)
- Advanced Science (Hons)
- Arts
- Commerce
- Computer Science
- Engineering Science
- Law
- Master of Biomedical Engineering
- Music
- Science

Mechanical Engineering (Honours)

Any design you could dream of can be brought to reality by a mechanical engineer. Mechanical engineers apply scientific and engineering knowledge to design, develop, manufacture and operate complex machinery and systems. You will be able to design and manage the construction, operation and maintenance of machines used in many industries.

Study areas
- Composite Structures
- Advanced Mathematics (Hons)
- Advanced Science (Hons)
- Arts
- Commerce
- Computer Science
- Engineering Science
- Law
- Master of Biomedical Engineering
- Music
- Science

Career opportunities
Mechanical Engineering graduates work in a variety of industries such as automotive, defence, aerospace, transport, defence, mining, cargo handling and agriculture. You may also work in companies that design and manufacture consumer devices and technology such as mobile phones, video-game consoles and biomedical devices.

Double degree options:
- Advanced Mathematics (Hons)
- Advanced Science (Hons)
- Arts
- Commerce
- Computer Science
- Engineering Science
- Law
- Master of Biomedical Engineering
- Music
- Science

Electrical Engineering (Honours)

This degree focuses on the design, development, manufacture and management of complex hardware and software systems. With courses in telecommunications, photonics, microelectronics and more.

Study areas
- Energy Systems
- Microsystems
- Photonics
- Systems and Control
- Signal Processing
- Wireless and Data Networks

Career opportunities
Electrical Engineering opens up a huge range of challenging and rewarding career paths in fields such as electronics, quantum computing, networking, power distribution and robotics and control.

Double degree options:
- Advanced Mathematics (Hons)
- Advanced Science (Hons)
- Arts
- Commerce
- Computer Science
- Engineering Science
- Law
- Music
- Science

Environmental Engineering (Honours)

Combine a broad knowledge of engineering and environmental processes in this unique degree. You’ll learn to identify environmental problems and impacts caused by engineering projects and to develop effective solutions. Your work will be at the centre of an exciting multidisciplinary field including biologists, ecologists, geologists and engineers.

Study areas
- Environmental Engineering
- Environmental Studies
- Geotechnical Engineering
- Transport Engineering
- Water and Waste Engineering

Career opportunities
There is a wide range of career opportunities available to Environmental Engineers across the spectrum of smart machine design.

Double degree options:
- Advanced Mathematics (Hons)
- Advanced Science (Hons)
- Arts
- Commerce
- Computer Science
- Engineering Science
- Law
- Music
- Science

Mechanical and Manufacturing Engineering (Honours)

Bridge the gap between new designs and their execution with Mechanical and Manufacturing Engineering. You’ll learn how to design and manage the construction, operation and maintenance of equipment used in many industries – nearly anything that people drive, play with or live in.

Study areas
- Computer Aided Manufacturing (CAM)
- Computer Aided Design (CAD)
- Fluid Dynamics
- Heat Transfer
- Materials Science
- Noise and Vibration
- Power Generation
- Thermodynamics

Career opportunities
Graduates work in a variety of industries such as automotive, defence, aerospace, transport, power generation, insurance, rail, telecommunications and management consultancy.

Double degree options:
- Advanced Mathematics (Hons)
- Advanced Science (Hons)
- Arts
- Commerce
- Computer Science
- Engineering Science
- Law
- Music
- Science

Mechatronic Engineering (Honours)

This degree teaches you the full spectrum of smart machine design. You’ll graduate with skills in the development of autonomous systems like self-operating robots and vehicles, and a thorough knowledge of industrial automation which can be applied throughout the evolving field of smart machines and systems.

Study areas
- Computing
- Control Systems
- Electronics
- Mechanical Design
- Microprocessors
- Robotics

Career opportunities
Mechatronics engineers work in many industries such as manufacturing, automotive, aerospace, defence, mining, cargo handling and agriculture. You may also work in companies that design and manufacture consumer devices and technology such as mobile phones, video-game consoles and biomedical devices.

Double degree options:
- Advanced Mathematics (Hons)
- Advanced Science (Hons)
- Arts
- Commerce
- Computer Science
- Engineering Science
- Law
- Master of Biomedical Engineering
- Music
- Science

Photovoltaics and Solar Energy Engineering (Honours)

In this degree you’ll immerse yourself in the manufacture and use of solar cells, which capture and convert sunlight into electricity. Courses in technology development, manufacturing, quality control, reliability, policy, system design and more will prepare you for varied, high-level work in an industry that is vital for humanity’s future.

Study areas
- Cell Interconnection and Encapsulation
- Manufacturing
- Photovoltaics
- Policy Development
- Quality Control
- Reliability and Life-Cycle Analysis
- Renewable Energy Technologies
- Solar Cell Applications
- Solar Energy
- Technology Development

Career opportunities
Graduates work in fields such as manufacturing, quality control and reliability, computer-aided design of devices and systems, policy formation, programs for developing countries, solar cells and system design in organisations such as integration companies and research organisations.

Double degree options:
- Advanced Mathematics (Hons)
- Advanced Science (Hons)
- Arts
- Commerce
- Computer Science
- Engineering science
- Law
- Music
- Science
Mining Engineering (Honours)

This degree gives you a comprehensive understanding of how complex mining systems work together to service the global need for minerals. You will acquire a solid foundation of engineering principles and the essential elements of mining, including geomechanics, ventilation, mine planning and minerals processing.

Study areas
- Geotechnical Engineering
- Mine Design and Planning
- Mining Engineering
- Mining Management and Sustainability
- Mining Systems
- Mining Technologies
- Stock Breakage

Career opportunities
Graduates enjoy rewarding careers in
- Geotechnical Engineering
- Mine Design and Planning
- Mining Engineering
- Mining Management and Sustainability
- Mining Systems
- Mining Technologies
- Stock Breakage

Petroleum Engineering (Honours)

Double degree options:
- Geotechnical Engineering
- Mine Design and Planning
- Mining Engineering
- Mining Management and Sustainability
- Mining Systems
- Mining Technologies
- Stock Breakage

Career opportunities
Graduates enjoy rewarding careers in
- Geotechnical Engineering
- Mine Design and Planning
- Mining Engineering
- Mining Management and Sustainability
- Mining Systems
- Mining Technologies
- Stock Breakage

Renewable Energy Engineering (Honours)

• Explore the best ways to make use of renewable energy technologies in this cutting-edge degree. From solar thermal systems and photovoltaics to winds and biomass, you’ll draw resources from all around UNSW to prepare you for research and professional work in this ever-growing industry.

Study areas
- Biomass
- Energy Efficiency and Appliances
- Geothermal Systems
- Hydro Turbine
- Photovoltaics
- Renewable Energy
- Solar Architecture
- Solar Thermal Systems
- Tidal and Wave Energy
- Wind Power

Career opportunities
Graduates can work in a variety of fields including urban and rural development, oil and gas exploration, mining and engineering construction, site change monitoring, land management and planning, cadastral surveying, hydrographic surveying as well as aerial imaging and cartography.

Double degree options:
- Advanced Mathematics (Hons)
- Advanced Science (Hons)
- Arts
- Commerce
- Computer Science
- Engineering Science
- Law
- Music
- Science

Quantum Engineering

In this degree you'll develop the skillset required for the next generation of microelectronics, microwave and telecommunications engineers. You’ll learn how to work with a range of complex problems, from high-frequency signals to very small electronic circuits.

Study areas
- Programming Fundamentals
- Digital Circuit Design
- Electronics
- Quantum Physics of Solids and Devices
- Quantum Devices and Computers
- Quantum Communications and Photonic Networks

Career opportunities
With the rapid growth in Quantum Engineering across the world there are countless career and research opportunities. You’ll gain practical experience throughout your degree to prepare you for a successful career in the growing sector of next-generation electronic and communication devices, anywhere in the world.

Leading companies like Microsoft and IBM have large quantum engineering efforts internationally, including significant quantum activities in Australia. Local start-ups also offer a growing number of opportunities.

Double degree options:
- Advanced Mathematics (Hons)
- Advanced Science (Hons)
- Arts
- Commerce
- Computer Science
- Engineering Science
- Law
- Music
- Science

Quantum Engineering stream is not yet accredited; the faculty is applying for provisional accreditation.

Surveying (Honours)

Surveying a perfect combination of indoors and outdoors, from supporting construction and infrastructure engineering to mapping and monitoring to the landscape. In this degree you’ll learn how to use GPS, laser scanners, mapping drones and surveying robots to create high-definition 3D models of both the built and natural environments.

Study areas
- Engineering and Mining Surveying
- Cadastral Surveying and Land Law
- Modern Geodesy
- Navigation and Earth Observation
- Precise GPS/GNSS Positioning
- Satellite and Airborne Imaging
- Surveying Applications and Design
- Business Management
- Sustainable Land Development and Management
- Water and Soil Engineering

Career opportunities
Surveying graduates work in a variety of fields including urban and rural development, oil and gas exploration, mining and engineering construction, site change monitoring, land management and planning, cadastral surveying, hydrographic surveying as well as aerial imaging and cartography.

Double degree options:
- Advanced Mathematics (Hons)
- Advanced Science (Hons)
- Arts
- Commerce
- Computer Science
- Engineering Science
- Law
- Music
- Science

Software Engineering (Honours)

Assumed knowledge
- Mathematics

Become an expert in the processes, methods and tools for the design and development of high-quality, reliable software systems, from code writing to delivery. This degree involves the application of software specification, design, implementation, testing and more, including workshops for team-based projects that will give you hands-on experience.

Study areas
- Computing
- Software Engineering
- Software Development
- Software Process
- System Design

Career opportunities
As a Software engineer you can pursue a career in big data, logistics, security, defence, telecommunications, education, health, banking and finance.

Double degree options:
- Advanced Mathematics (Hons)
- Advanced Science (Hons)
- Arts
- Commerce
- Computer Science
- Law
- Master of Biomedical Engineering
- Music
- Science

Bachelor of Civil Engineering with Architecture (Honours)

Program code: 3635
CRICOS code: 09543D
Duration: 4 years
Entry February
Estimated first year tuition: $43,970
Units of credit (per year/total): 48/192
Assumed knowledge: Mathematics and Physics

Extend your civil engineering bachelor degree with this program’s courses in architecture. You’ll get a foundation in architectural principles and learn about the connection between architects and engineers, inspiring you to become a conceptual thinker with both aesthetic and structural expertise – and to challenge the traditional boundaries of structural design.

Study areas
- Architecture
- Civil Engineering

Career opportunities
Graduates are employed by specialist structural engineering consultants, construction and contracting companies, federal, state and local government organisations, airport and harbour authorities, project developers, financial organisations and management consultancies.

Professional accreditation
This degree is accredited by Engineers Australia.
Bachelor of Food Science (Honours)

Program code 3861
CRICOS code 00881J
Duration 4 years
Entry February, June and September
Estimated first year tuition A$47,760
Units of credit (per year/total) 48/192
Assumed knowledge Mathematics, Chemistry and Physics

Structure
28 courses in Food Science
+ 2 Electives
+ 2 General Education

Career opportunities
Graduates of Food Science pursue careers in food technology, product development, quality assurance, product testing, production and laboratory management, as dietitians or safety inspectors.

Professional accreditation
Curriculum approved by the Institute of Food Technologists.

Bachelor of Engineering (Honours)/Master of Biomedical Engineering

Program code 3768
CRICOS code 08591B
Duration 5 years
Entry February, June and September
Estimated first year tuition A$47,760
Units of credit (per year/total) 48/248
Assumed knowledge Mathematics and Physics; for Bioinformatics, Mathematics and Chemistry; for Software Engineering, Mathematics only

Structure
Bachelor degree
+ 12 Master of Biomedical Engineering courses
+ 1 General Education
+ 60 days Industrial Training

Career opportunities
Graduates pursue careers in medical device companies, hospitals, scientific research institutions in fields such as medical device manufacturing and biotechnology.

Professional accreditation
This degree is accredited by Engineers Australia.

Disciplines
- Bioinformatics Engineering
- Chemical Engineering
- Computer Engineering
- Electrical Engineering
- Mechanical Engineering
- Mechatronic Engineering
- Software Engineering
- Telecommunications

Broadening (minor) disciplines available
- Commerce
- Computing
- Languages
- Mathematics
- Mechatronics
- Music
- Photovoltaics
- Physics
- Psychology

Career opportunities
Graduates can work in a huge variety of fields such as electronics, quantum computing, networking, power distribution, and robotics and control. Potential employers include energy service industries, large private industrial companies such as transport manufacturers, aerospace companies, mining companies, infrastructure service companies, electronics, networking and computing companies and small, innovative private firms specialising in the application of new technologies, services or products.

Professional accreditation
This degree is accredited by Engineers Australia.

Bachelor of Engineering (Honours)/Master of Engineering (Electrical Engineering)

Program code 3816
CRICOS code 00884J
Duration 5 years
Entry February and September
Estimated first year tuition A$47,760
Units of credit (per year/total) 48/240
Assumed knowledge Mathematics and Physics

Structure
Integrative Electrical Engineering
Bachelor and Master degree, including two theses
+ Minor (4-6 courses)
+ General Education electives
+ 60 days Industrial Training

Career opportunities
Graduates of Electrical Engineering you will extend your knowledge whilst working on cutting edge projects. You can also take a broadening discipline (minor) in an area such as mechatronics, computing, commerce, photovoltaics, music, satellite systems, mathematics, psychology or nuclear engineering. With around 35 undergraduate and postgraduate electives to choose from, - the widest choice in Australia - you can tailor the program to suit your interests.

Study areas
- Energy Systems
- Microsystems
- Photonics
- Systems and Control
- Signal Processing
- Wireless and Data Networks

Broadening (minor) disciplines available
- Commerce
- Computing
- Languages
- Mathematics
- Mechatronics
- Music
- Photovoltaics
- Physics
- Psychology

Career opportunities
Graduates can work in a huge variety of fields such as electronics, quantum computing, networking, power distribution, and robotics and control. Potential employers include energy service industries, large private industrial companies such as transport manufacturers, aerospace companies, mining companies, infrastructure service companies, electronics, networking and computing companies and small, innovative private firms specialising in the application of new technologies, services or products.

Professional accreditation
This degree is accredited by Engineers Australia.
Law

Immerse yourself in the real-world practice of law and learn from a school that is underpinned by an ethos of justice for all.

Join a top global Law School
Ranked the 14th law school in the world and 15th for Employer Reputation*, UNSW Law has been setting the pace as Australia’s leader in progressive and rigorous legal education and research for almost 50 years.

*QS World University Rankings by Subject, 2020

Extensive global student opportunities
Build a global experience into your degree through exchange, by undertaking one of our overseas elective courses or an internship abroad. Choose from more than 80 exchange destinations at leading law schools around the world.

Interactive teaching environment
Seminar-style classes give you the chance to ask questions, develop your ideas, grow your critical and analytical mind, and get to know your peers and lecturers. Be part of the student-focused, interactive teaching environments that pioneered Australian legal education.

Career outcomes

- Attorneys
- Barristers
- Chartered legal executives
- Community legal support
- Corporate and commercial law experts
- Cyberspace lawyers
- Environmental lawyers
- Foreign affairs specialists
- Human rights lawyers
- In-house legal counsel
- Intellectual property and copyright lawyers
- International business and economic law specialists
- Judges
- Litigators
- Patent attorneys
- Policy analysts
- Political advisors
- Pro bono legal advisors
- Public sector managers
- Refugee and displacement advocates
- Technology lawyers
- White collar crime lawyers
Arts and Economics/Philosophy, Bachelor of degree so interesting. It means that no two academic terms are the intersection between the two degrees. I have made, there is such a strong way of teaching. Studying Law was an easy decision for me, it has such a dynamic environment and unique teaching. Choosing UNSW Law was an easy decision for me, it has such a focused, interactive teaching approach emphasises experiential learning, and will equip you with analytical and practical skills for a wide range of career opportunities.

Please note. While there is no assumed knowledge for the Bachelor of Laws component of your double degree, there may be some assumed knowledge for the non-law component. Please check with the relevant faculty for this detail.

Career opportunities

If you choose UNSW for your successful careers not only in the law but across a wide range of industries and professions including the arts, business, community service, diplomacy, education, engineering, financial services, media, science, urban planning, government and non-government organisations. Our graduates are highly sought after by major law firms, private and public-sector institutions in key areas of legal practice including banking and finance law, commercial law, communications, intellectual property law, international law, litigation, media law and public and administrative law.

Professional recognition

As a graduate of a top 15 global law school, the UNSW Bachelor of Laws (LLB) is key to your ability to seek admission to the legal profession. The UNSW LLB is accredited by the Australian Legal Profession Admission Board (ALPAB) and satisfies the academic component for admission to practice in the Supreme Court of NSW. In addition, in order to be admitted to practice you will also have to complete practical legal training (PLT) which you can do through UNSW’s Graduate Diploma in Legal Professional Practice (GDLP).

Certificates to practice as a solicitor or barrister are granted by the NSW Law Society and NSW Bar Association respectively. To practice law in other countries you must satisfy the academic and accreditation criteria in the particular jurisdiction. Always refer to the relevant authority or admitting body in your home country, or the country where you intend to practice regarding the recognition of the UNSW law degree for registration purposes.

The UNSW double degree program will provide you with a broader education to increase your understanding of the wider social implications of law. Our student-focused, interactive teaching approach emphasises experiential learning, and will equip you with analytical and practical skills for a wide range of career opportunities.

Choosing UNSW Law was an easy decision for me, it has such a dynamic environment and unique way of teaching. Studying Law was an easy decision for me, it has such a focused, interactive teaching approach emphasises experiential learning, and will equip you with analytical and practical skills for a wide range of career opportunities.

Research labs, Wallace Wurth Building
Bachelor of Medical Studies/Doctor of Medicine

We are ranked among the world’s top 50 universities for Medicine. (QS World University Rankings by Subject, 2020).

Our six-year integrated Medicine program, which leads to the awards of Bachelor of Medical Studies (BMed)/Doctor of Medicine (MD), includes a compulsory Independent Learning Project (ILP) to ensure that all graduates acquire in-depth knowledge of research principles and methods applicable to medicine and its professional practice, and to improve and diversify future career prospects.

From 2021, students may complete an Honours project in place of the ILP.

The program consists of:

Bachelor of Medical Studies (BMed)

Collaborative learning and teamwork is an important component of the Bachelor of Medical Studies. Phase 1 begins with the Foundations course, leading into basic medical and social sciences in relation to the human life cycle, social, ethical and legal issues. Clinical and communication skills training commences from Phase 1. Phase 2 provides increased clinical exposure in hospitals that combines with ongoing learning in biomedical sciences.

Doctor of Medicine (MD)

The MD includes the Independent Learning Project (ILP) followed by clinical courses in the disciplines of internal medicine, surgery, psychiatry, primary care, obstetrics, gynaecology and paediatrics. There is also an elective clinical course that could be undertaken interstate or overseas. Phase 3 consists of 10 eight-week courses with a clinical focus and includes relevant content from the biomedical sciences and the social sciences. Completion results in provisional registration, allowing commencement of a hospital internship before being recognised as a medical practitioner.

UNSW Medicine offers select students an opportunity to complete the Medicine program at our Port Macquarie campus.

Career opportunities

Graduates who obtain full registration from the Medical Board of Australia are able to work as medical practitioners in hospitals and private practices. Further study and experience enables graduates to specialise in a specific area of medicine, such as general practice, paediatrics, cardiology, oncology, general surgery, orthopaedics, pathology, radiology, or psychiatry. There are also opportunities in medical research, health policy and medical education.

Majors

• Medical Studies
• Doctor of Medicine

Professional recognition

After completing formal Medicine program requirements for the award of the BMed/MD degrees, you will be provisionally registered by the Medical Board of Australia to work for at least one year in selected hospitals (internship) before obtaining final registration as a medical practitioner. Please note that international students are not guaranteed an internship position.

For further information on medicine entry visit med.unsw.edu.au/med-how-to-apply.

Double degree options:
• Arts

Bachelor of Exercise Physiology

Exercise physiologists play a vital role in the prevention and management of chronic disease and injury. This degree provides you with a comprehensive education in health and exercise - from foundational courses in chemistry and molecular biology, to anatomy, physiology and pathology, then advanced clinical exercise physiology specialisations tailored to your preferred career.

Majors

• Exercise Physiology

Career opportunities

Exercise Physiologists work in private practice, hospitals, medical clinics, or research in the areas of exercise for the prevention and management of chronic disease such as musculoskeletal and neuromuscular disorders, and cardiopulmonary and metabolic conditions.

Professional recognition

The UNSW Bachelor of Exercise Physiology is accredited with Exercise and Sports Science Australia (ESSA). ESSA is the national governing body for the Exercise Physiology profession.

Bachelor of International Public Health

WANT TO ADDRESS GLOBAL HEALTH ISSUES AND JOIN A WORKFORCE THAT OPERATES ACROSS BORDERS? Unlike other Australian undergraduate public health programs, the Bachelor of International Public Health is internationally integrated with emphasis on courses aimed at improving the health of populations worldwide. Courses focus on infectious disease challenges, Indigenous and Environmental health, women and children’s health, and global chronic disease prevention. International Public Health students will also complete a capstone experience in the final year.

This may include the option of either an internship placement or research project.

The BIPH is a fully online program, which includes unique coursework from two of the world’s leading universities - UNSW Sydney and Arizona State University (ASU). Students can undertake this degree from anywhere around the world.

Career opportunities

Gradsuates will be equipped with core skills for a career in international public or population health: epidemiology, health promotion, surveillance and disease prevention. That career could involve contributing to population health programs in local or state health departments or designing and/or evaluating interventions to reduce the burden of disease while working in a multinational and development agency context. You may be interested in pursuing research career in public health or seek higher studies, such as a graduate medical program, Master’s program or PhD.

Majors

• International Public Health
Career outcomes

Analytical chemists
Anthropologists
Astronomers
Aviation consultants
Biochemists
Biomedical engineers
Biomedical technicians
Biotechnologists
Botanists
Cartographers
Climate scientists
Clinical psychologists
Data scientists
Materials scientists
Mathematicians
Medical scientists
Optometrists
Pathologists
Pharmacologists
Physicists
Pilots
Psychologists
Statisticians
Vision scientists
Wildlife biologists
Zoologists

Top 50 in the world
The brightest minds converge to learn, explore and discover at UNSW Science, with five subjects ranked in the global top 50* including Psychology, 22nd; Environmental Studies, 23rd; Earth & Marine Sciences, 31st; Mathematics, 36th; and Materials Science 42nd.

*QS World University Rankings by Subject, 2020

Research and teaching excellence
Driven by the ethos of collaboration, exploration and accomplishment, here you can access world-class laboratories, clinics and simulators that will equip you with the tools to explore new frontiers and make profound scientific discoveries to benefit society.

World-class education
Join a vibrant and welcoming community that prepares you for real-world challenges. Be taught by innovative, passionate and pioneering educators, and access high-profile industry partners. You will be equipped to achieve your career goals and make an impact.

Think big and form deeper connections with our world. Explore areas of science that prepare you with the skillsets needed for tomorrow’s workforce.
Bachelor of Advanced Science (Honours)

Program code 3062
CRICOS code 08884G
Duration: 3 years
Entry: February, June and September
Estimated first year tuition: AU$47,760
Units of credit (per year/total): 48/144
Assumed knowledge: Mathematics and Chemistry plus one or more of Biology, Earth & Environmental Science or Physics (depending on chosen area of study)

Structure
- Major (choose one or two)
  - SCIF1131
  - Science Electives
  - Free Electives (from any faculty at UNSW)
- General Education
- Non-Science Courses
- 1 year Honours

Innovative thinkers with exceptional scientific knowledge and skills will embrace this degree, which includes advanced level courses and an Honours year. The Advanced Science (Honours) program has 25 majors to choose from and an Honours year involving a supervised research project.

Career opportunities
Employment across a wide range of settings including public sector research in universities and government institutes such as CSIRO, private sector research in pharmaceuticals and biotechnology companies, public policy, health and environmental related non-profits, market research and product development, management, technical and environmental consulting, data analytics, medical sales or science communication.

Majors
- Advanced Physical Oceanography
- Advanced Physics
- Anatomy
- Bioinformatics
- Biology
- Biotechnology
- Chemistry
- Climate Dynamics
- Climate Systems Science
- Earth Science
- Ecology
- Genetics
- Geography
- Marine and Coastal Science
- Materials Science
- Mathematics
- Microbiology
- Molecular and Cell Biology
- Neuroscience
- Pathology
- Pharmacology
- Physiology
- Psychology
- Sociology
- Vision Science

Double degree options:
- Arts
- Commerce
- Computer Science
- Economics
- Engineering (Honors)
- Fine Arts
- Law
- Music
- Social Science

Bachelor of Aviation (Management)

Program code 3081
CRICOS code 08567B
Duration: 3 years
Entry: February, June and September
Estimated first year tuition: AU$47,760
Units of credit (per year/total): 48/144
Assumed knowledge: Mathematics

Structure
- Aviation Management Core Courses
- Aviation Elective Courses
- Free Electives (from any faculty at UNSW)
- General Education
- Non-Science Courses
- 1 year Honours

This degree is focused on aviation management, rather than pilot training. You will do a range of courses in management areas such as operations management, aviation economics, law and regulations, airline marketing and safety.

Career opportunities
Management in airlines, freight companies, regulatory authorities, defence forces or airports. Specific examples include Airfreight Manager, Airport Planner, Flight Crew Scheduler, Aviation Consultant, Flight Analyst, Flight Safety Investigator, Aviation Revenue Manager and Airport or Fleet Planner.

Double degree options:
- Commerce

Bachelor of Aviation (Flying)

Program code 3088
CRICOS code 017227G
Duration: 3 years
Entry: February and September
Estimated first year tuition: AU$47,760 (does not include flying fees)
Units of credit (per year/total): 48/144
Assumed knowledge: Mathematics

Structure
- Aviation Flying Core Courses
- General Education
- Non-Science Courses

Dreaming of becoming a pilot? You’ll learn the science behind aviation as well as gain your flying licences. In addition to theoretical studies, you will gain up to 200 hours of flight training and approximately 30 hours of simulator training. You will also take aviation management courses to prepare you for industry roles.

Career opportunities
Pilots for regional or major commercial airlines, training centres, charter flights, or as aerial surveyors.

Professional accreditation
This degree is professionally recognised.

Important information
You will need to pay for the flight training costs portion of this degree. In 2021, the anticipated standard cost of flight training to obtain the minimum of a Commercial Pilot License (CPL), Instrument Rating - Multi-Engine Aeroplanes, and ATPC (Frozen) is AS$135,750 (some elective fees and extra flying fees may apply). Additional flying costs will be incurred depending on a student’s choice of third year flying program and if more than the 200 flight hours are required to achieve proficiency in any aspect of the flight training.

Admission
In addition to your ATAR (or equivalent), Aviation (Flying) requires an internal application directly to the UNSW School of Aviation. Students will then be invited to undergo an interview and if successful, will need to obtain a Class 1 Civil Aviation Authority (CAA) medical examination before flying training commences in second year.

Bachelor of Biotechnology (Honours)

Program code 3063
CRICOS code 08887G
Duration: 3 years
Entry: February, June and September
Estimated first year tuition: AU$47,760
Units of credit (per year/total): 48/144
Assumed knowledge: Mathematics and Chemistry

Structure
- Biotechnology Core Courses
- Biotechnology Elective Courses
- Free Electives (from any faculty at UNSW)
- General Education
- Non-Science Courses
- 1 year Honours

Biotechnologists work at the forefront in pharmaceutically, food, industrial chemicals, crop and livestock farming, environmental clean-up and forensics. In this four-year degree, which includes an Honours year, you’ll learn the fundamentals of science before diving deeper into the multidisciplinary world of biotechnology, with courses including molecular biology, microbiology, chemistry and genetics.

Career opportunities
Become a scientist or researcher with medical, biological or pharmaceutical research organisations. Graduates are working as research and development managers, clinical trial associates, in government regulation and policy, industry regulatory affairs or intellectual property management. There are also career options in marketing, sales, biotech investment and finance, and business development.
Bachelor of Data Science and Decisions

As billions of devices feed data to central databases, businesses and governments require experts to interpret that data. In this degree, you will gain the theoretical and practical skills required to enter the lucrative field of data analysis through a blend of mathematical methods, statistics, computing, business decisions and communication.

Career opportunities
Graduates from this degree may pursue a career as a Business Analyst, Customer Success Manager, Data Scientist, Data Engineer, Data Analyst, Data Manager, Data Architect, Database Administrator, Digital Data Analyst, Environmental Data Analyst, Forecast Modeler, Reporting Analyst, Statistician or University Educator.

Career opportunities
• Arts

Majors
• Business Data Science
• Computational Data Science
• Quantitative Data Science

Double degree options:
• Law

Bachelor of Environmental Management

Environmental scientists help shape policy and regulations to create sustainable solutions. This degree will teach you the theory and practical skills you need to influence decisions by providing guidance on how to create a balance between economic, social and environmental concerns. Hands-on learning experience allows students to tackle real-world problems.

Career opportunities
Graduates pursue careers as Environmental Consultants, Policy Developers or Researchers within industry or with local, state or federal government. Employers may include National Parks and Wildlife Service or the Environmental Protection Authority.

Majors
• Biology
• Earth Science
• Ecology
• Environmental Chemistry
• Geography
• Marine and Coastal Science

Double degree options:
• Arts

Bachelor of Materials Science and Engineering (Honours)

To create high-performance materials such as metals, ceramics, polymers and composites, you need a solid background in Materials Science. This degree will put you at the forefront of innovation in developing materials that are lighter, greener and stronger.

Career opportunities
Graduates are equipped to work in areas such as fundamental scientific research, manufacturing and materials processing, quality control, safety, the environmental impact of materials and the commercialisation of materials technologies. Locally and around the world, graduates work in fields of nanotechnology, biomaterials and electronic materials.

Majors
• Ceramic Engineering
• Functional Materials
• Materials Engineering
• Physical Metallurgy
• Process Metallurgy

Double degree options:
• Commerce
• Engineering Science in Chemical Engineering
• Master of Biomedical Engineering

Professional Accreditation
This degree is accredited by Engineers Australia.

Bachelor of Life Sciences

Life Sciences brings together the biological, environmental and medical sciences. This degree will appeal to those curious about life, from the way things work at the molecular level to the study of entire ecosystems. It is a pathway to postgraduate study, especially in the health and medical fields.

Career opportunities
A wide range of career options is available, including in conservation and government organisations, and across commercial industry in medical, pharmaceutical, chemical, food and beverage companies.

Majors
• Anatomy
• Biology
• Biological Chemistry
• Biotechnology
• Ecology
• Genetics
• Marine and Coastal Science
• Microbiology
• Molecular and Cell Biology
• Pathology
• Pharmacology
• Physiology
• Psychology

Double degree options:
• Commerce
• Engineering Science in Chemical Engineering
• Master of Biomedical Engineering

Professional Accreditation
This degree is accredited by Engineers Australia.
Bachelor of Medical Science

Program code 3991
CRICOS code 088459E
Duration 3 years (+ 1 year honours option)
Entry February
Estimated first year tuition AS47,850
Units of credit (per year/total) 48/144
Assumed knowledge
Mathematics and Chemistry

Structure
Medical Science Core Courses
• Medical Science Electives
• General Science Elective
• Free Electives
(From any faculty at UNSW)
• General Education
Non-Science Courses

Underpinning the practice of medicine, Medical Science delves into how the body functions - reactions to disease, drugs, treatments, and the role of genetics. The degree provides the basis for a career in biomedical research and for a move on to graduate medical or paramedical studies.

Career opportunities
Medical Science graduates work in fields such as medical research, paramedical professions, health policy, medical laboratory science, pathology and forensic science, patents and intellectual property, market research and product development, and in pharmaceutical and biotechnology industries.

Majors
• Human Anatomy
• Molecular Biology
• Molecular Genetics
• Medical Microbiology
• Neurobiology
• Human Pathology
• Medical Pharmacology
• Medical Physiology

Bachelor of Psychological Science

Program code 3435
CRICOS code 072286A
Duration 3 years (+ 1 year honours option)
Entry February, June and September
Estimated first year tuition AS47,760
Units of credit (per year/total) 48/144
Assumed knowledge
Mathematics

Structure
Psychology Core Courses
• Optional Complementary Major
• Free Electives
(from any faculty at UNSW)
• General Education
Non-Science Courses

This degree allows you to study for an accredited three-year degree in Psychology at the same time as undertaking a complementary major in related areas including marketing, human resource management, management, criminology, linguistics, philosophy, vision science and neuroscience.

Career opportunities
Psychologists are employed in a broad range of areas including advertising, counselling, developmental care, community and occupational health, management consultancy, human resources, recruitment, training and development, industrial relations, banking, journalism, marketing, business and retail management, statistical analysis and data analysis.

Majors
• Criminology
• Human Resource Management
• Linguistics
• Management
• Marketing
• Neuroscience
• Philosophy
• Vision Science

Double degree options:
• Law

Professional accreditation
This is an Australian Psychology Accreditation Council (APAC) accredited 3-year undergraduate sequence in Psychology. This program is the first step on the six-year pathway to becoming a registered professional psychologist.

Bachelor of Medicinal Chemistry (Honours)

Program code 3990
CRICOS code 088548B
Duration 4 years
Entry February
Estimated first year tuition AS47,760
Units of credit (per year/total) 48/192
Assumed knowledge
Mathematics and Chemistry

Structure
Medicinal Chemistry Core Courses
• Medicinal Chemistry Electives
• Free Electives
(From any faculty at UNSW)
• General Education Non-Science Courses
• 1 year Honours

Biology, biochemistry, pharmacology and essential chemistry techniques are among skills taught under this multidisciplinary degree, which encompasses all aspects of new drug design and development, from concept to clinic stages. In your Honours year, you will complete a supervised research project.

Career opportunities
Graduates are equipped with skills in modern molecular biology and pharmacology, underpinned with a comprehensive background in chemistry, with relevant synthetic skills necessary for synthesising complex drug candidates. Graduates are in high demand in local and global pharmaceutical companies involved in modern drug design, as well as in research, government and education sectors.

Double degree options:
• Law

Bachelor of Psychology (Honours)

Program code 3632
CRICOS code 088574M
Duration 4 years
Entry February
Estimated first year tuition AS47,760
Units of credit (per year/total) 48/192
Assumed knowledge
Mathematics

Structure
Psychology Core Courses
• Psychology Electives
• Free Electives
(from any faculty at UNSW)
• General Education
Non-Science Courses
• 1 year Honours

Psychology is the study of mind and behaviour. Topics of study include learning, memory, cognition, perception, neuroscience, and developmental, forensic, social, and abnormal psychology. Students gain an integrated and comprehensive knowledge in the main discipline areas of psychology and develop strong research, analytical and communication skills.

Career opportunities
Psychologists work in a range of organisations within both the public and private sector, such as counselling, developmental care, public, community and occupational health, management consultancy, human resources, recruitment, training and development, industrial relations, banking, journalism, marketing, business and retail management, statistical analysis and data analysis, and many other areas.

Majors
• Criminology
• Human Resource Management
• Linguistics
• Management
• Marketing
• Neuroscience
• Philosophy
• Vision Science

Double degree options:
• Law

Professional accreditation
This is an Australian Psychology Accreditation Council (APAC) accredited 4-year undergraduate sequence in Psychology. This program is the first step on the six-year pathway to becoming a registered professional psychologist.
Bachelor of Science (Advanced Mathematics) (Honours)

Program code 3956
CRICOS code 088843G
Duration 4 years
Entry February, June and September
Estimated first year tuition $547,760
Units of credit (per year/total) 48/144
Assumed knowledge Mathematics

Structure
Major + SCIF1131 + Science Electives + Free Electives (from any faculty at UNSW) + General Education
Non-Science Courses + 1 year Honours

Double degree options:
Major + Advanced Statistics + Applied Mathematics + Pure Mathematics

Career opportunities
Opportunities exist in banking, insurance and investment, environmental modelling, oceanography, meteorology, computing, information technology, government, education and research.

Majors
• Advanced Statistics
• Applied Mathematics
• Pure Mathematics

High-achieving students who want to specialise in mathematics as a basis for an increasing range of quantitative careers - in areas such as finance and environmental modelling - will be attracted to the Advanced Mathematics degree. The four year degree combines advanced coursework with an Honours-level research project.

Bachelor of Science

If you want to pursue a career in science but aren’t sure what field, this degree offers flexibility. You are encouraged to choose a broad range of courses in your first year, to expand your general understanding, then choose from a wide selection of major options in second and third year.

Career opportunities
Recent graduates work in business, industry, government and universities. They are employed in areas as diverse as pharmaceutical and medical research, public policy, occupational health and safety, environmental research and industry, manufacture of new products, forensic science, patent law, cognitive science, oceanography, food manufacture, science education and communication, meteorology, optics and applications of mathematics and statistics in the finance industry.

Structure
Major + Science Electives + Free Electives (from any faculty at UNSW) + General Education
Non-Science Courses

Double degree options:
• Actuarial Studies
• Arts
• Commerce
• Computer Science
• Economics
• Education (Secondary)
• Engineering (Honours)
• Fine Arts
• Law
• Music
• Social Science

Scientists increasingly need to be experts in their field and qualified to interact effectively with colleagues around the world. This degree focuses on a Science major as well as cross-cultural skills, knowledge and understanding. It includes subsidised study overseas at a UNSW partner university.

Majors
• Advanced Statistics
• Applied Mathematics
• Pure Mathematics

Double degree options:
• Actuarial Studies
• Arts
• Commerce
• Computer Science
• Economics
• Education (Secondary)
• Engineering (Honours)
• Fine Arts
• Law
• Music
• Social Science

Are you a future entrepreneur who wants to pursue a business career in a scientific industry? This degree is two-thirds Science and one-third Business. You will graduate with skills for working in the scientific industry as well as an understanding of the commercial environment in which you are employed.

Career opportunities
A variety of research, communication, leadership and management roles in science and technology-based public and private sectors. Graduates are skilled in the commercial applications of scientific research giving them a competitive edge in the graduate labour market. Examples include brand manager, product development manager, medical sales and technical specialist and marketing and communications specialist. Recent graduates have also started a variety of successful science-based commercial businesses.

Structure
Major + Science Electives + Foundation Business Courses + 4 Business Electives

Bachelor of Science and Business

Program code 3905
CRICOS code 077431G
Duration 3 years
Entry February, June and September
Estimated first year tuition $457,040
Units of credit (per year/total) 48/144
Assumed knowledge Mathematics and Chemistry plus one or more of Biology, Earth & Environmental Science or Physics (depending on chosen area of study)

Majors
• Anatomy
• Botany
• Biochemistry
• Biology
• Biotechnology
• Chemistry
• Earth Science
• Ecology
• Food Science
• Genetics
• Geology
• Geography
• Marine and Coastal Science
• Materials Science
• Mathematics

• Molecular and Cell Biology
• Neuroscience
• Pathology
• Pharmacology
• Physical Oceanography
• Physics
• Physiology
• Psychology
• Statistics
• Vision Science

Double degree options:
• Law

Students must complete one approved Bachelor of Science (International) major and one language minor. Science discipline areas refer to Bachelor of Science.

Language discipline areas
• Chinese Studies
• French Studies
• German Studies
• Indonesian Studies
• Japanese Studies
• Korean Studies
• Spanish and Latin American Studies

Note
Students must complete an international exchange of 24 - 48 units of credit (4 - 8 courses at an approved UNSW overseas partner university).

Bachelor of Science (International)

Program code 3987
CRICOS code 065780E
Duration 4 years
Entry February, June and September
Estimated first year tuition $547,760
Units of credit (per year/total) 48/192
Assumed knowledge Mathematics and Chemistry plus one or more of Biology, Earth & Environmental Science or Physics (depending on chosen area of study)

Majors
• Advanced Statistics
• Applied Mathematics
• Pure Mathematics

Double degree options:
Major + Advanced Statistics + Applied Mathematics + Pure Mathematics

Students are required to complete a degree of 48 units of credit in any discipline at the international partner university.

Structure
Major + Science Electives + Free Electives (from any faculty at UNSW) + Language Minor

At UNSW, I found that Science was more flexible with degree programs and offered other majors that complemented my interests. I was able to get involved with uni life and societies in my third year, which opened many doors for me. It was a big year and I felt privileged to be able to do outreach events like Girls in Science and Science Week for local high schools.

Karoleena Ivanov, Bachelor of Science
Bachelor of Vision Science

Program code 3181
CRICOS code 092962K
Duration 3 years
Entry February
Estimated first year tuition A$47,760
Units of credit (per year/total) 48/144
Assumed knowledge Mathematics, Chemistry, Physics and English

Vision Science is the study of the sensory processes that underlie vision and the development and use of vision-related technologies. This degree aims to develop scientists who understand how we see and interact with our world. Graduates will have a deep understanding of a broad range of areas including sensation and perception, psychophysics, optics, anatomy and functioning of the eye, oculo–visual disorders, introductory pharmacology, visual aids and dispensing, the consulting room interface, and research design, methods and experimentation.

Career opportunities
Employment opportunities exist in a wide range of optics, vision science and ophthalmology research laboratories which involve the development of vision correction devices such as contact lenses, spectacles, ocular implants, imaging, and drug development. Specific examples include work as an Ophthalmic Assistant, in ophthalmic industries and in eye and vision research.

Structure
Vision Science Core Courses + General Education
Non-Science Courses

Bachelor of Vision Science / Master of Clinical Optometry

Program code 3182
CRICOS code 092960A
Duration 5 years
Entry February
Estimated first year tuition A$47,760
Units of credit (per year/total) 48/240
Assumed knowledge Mathematics, Chemistry, Physics and English

This degree combines the theoretical discipline of vision science with the clinical art of primary eye care. Graduates of this program can register as an optometrist in Australia having studied the physiology of the eye, the diagnosis and management of people with ocular disease or with special needs (children, low vision, sports vision, workplace needs), the psychophysics of vision and the neuroscience of the brain.

Career opportunities
Graduates can pursue a career as an optometrist, and may specialise in clinical practice, paediatric optometry, contact lenses, public health, sports vision, low vision rehabilitation or behavioural optometry. Graduates may also seek careers in eye and vision research or as a consultant to ophthalmic industries.

Professional accreditation
Graduates of this program can register as an Optometrist in Australia.

Structure
Vision Science Core Courses + Clinical Optometry Masters Courses + General Education
Non-Science Courses

Optometry Clinic, Rupert Myers Building

## Undergraduate Direct Entry Table

This table is a guide only and actual entry requirements may be higher or lower than those indicated. In all cases, admission will be determined upon the receipt of an application. The university reserves the right to vary entry requirements to those published without further notice. For further explanations of this table refer to the key on the next page.
Entry requirements

To gain entry to UNSW, you'll need to meet both the academic entry requirements and the English language requirements.

Academic entry requirements

High school studies

Direct entry applicants to UNSW must hold acceptable high school qualifications for admission. At a minimum, you must have a qualification considered equivalent to a Year 12 qualification (completion of high school) in Australia. Some of the qualifications UNSW accepts are listed on pages 101 - 102. If your qualification is not listed, contact us to check whether it is recognised.

UNSW Diploma

UNSW Global offers the UNSW Diploma programs in Business, Computer Science, Engineering or Science which are a great option for students seeking entry into a degree program. After completing a 12-month diploma, you can enrol directly into the second year of the selected degree program in Business (Commerce or Economics), Computer Science, Engineering or Science. You will study equivalent courses to first year degree students with the support of additional tutorials and language studies. Students who complete the diploma as well as their high school qualifications will be considered for your admission to UNSW. To confirm the admission algorithm and whether your studies can be recognised, visit enquiry.unsw.edu.au.

University transfer

To transfer from your current university to UNSW you must have completed at least one year (full-time equivalent) of tertiary study at a recognised university. UNSW Foundation Studies can be completed by students who do not meet the entry requirements of a UNSW degree program or diploma, or whose high school qualifications are not recognised by UNSW. After completing Foundation Studies in the appropriate academic stream, if you achieve the Grade Point Average (GPA) and the English language result required for entry into the program, you will qualify for a place. For more information about UNSW Foundation Studies see page 26 or go to unswglobal.unsw.edu.au/foundation.

UNSW Foundation Studies

UNSW Foundation Studies can be completed by students who do not meet the entry requirements for a UNSW degree program or diploma, or whose high school qualifications are not recognised by UNSW. After completing Foundation Studies in the appropriate academic stream, if you achieve the Grade Point Average (GPA) and the English language result required for entry into the program, you will qualify for a place. For more information about UNSW Foundation Studies see page 26 or visit unswglobal.unsw.edu.au/foundation.

Recognised prior study

Prior study can be recognised for applicants with diplomas from recognised institutions. Entry is based on academic achievement during your studies. If you intend to use a diploma or equivalent as a pathway to UNSW, we recommend you confirm accreditation before committing to a program. To confirm whether your study can be recognised, visit enquiry.unsw.edu.au.

UNSW Foundation Studies can be completed by students who do not meet the entry requirements of a UNSW degree program or diploma, or whose high school qualifications are not recognised by UNSW. After completing Foundation Studies in the appropriate academic stream, if you achieve the Grade Point Average (GPA) and the English language result required for entry into the program, you will qualify for a place. For more information about UNSW Foundation Studies see page 26 or visit unswglobal.unsw.edu.au/foundation.

English language entry requirements

If English isn't your first language, you must provide evidence that your English language ability meets our requirements. You must submit results from an acceptable English language test taken in the last two years prior to starting study at UNSW.

The following table outlines some common English qualifications. UNSW also accepts a number of English language tests and English preparation courses which can be undertaken to meet the university’s English language requirements.

For information about UNSW's English language requirement policy visit English Language Requirements at UNSW.

Please refer to the English language requirements page at international.unsw.edu.au/english-language-requirements for further information on English Requirements at UNSW.
How to apply

Step 1
Choose your program
Choose your program at international.unsw.edu.au or from UNSW's International Student Guide and make a note of the program code.

Step 2
Check your entry requirements
You need to satisfy your chosen program's entry requirements (see page 100 for the requirements specific to your program). You also need to satisfy UNSW's English language requirements (see page 105 and visit unsw.edu.au/elpi).

Step 3
Submit your application online
Submit your application at UNSW Apply Online apply.unsw.edu.au. Click 'Register now' and fill out your details. Upload your supporting documents and pay your application fee.

Step 4
Track your application
Once you have submitted your application you will be able to easily track its progress via your Apply Online account. You will also be able to upload any additional documents we need. Once you have provided all the necessary documentation, it should take two to three weeks for UNSW to assess your application.

Step 5
We will send you a letter of offer
We will notify you of the outcome of your application via email. If your application is successful, you will receive a full offer, or a conditional offer if more steps are required. If you are receiving assistance with your application, your nominated agent will also receive a copy of the email.

Step 6
Accept your offer
If you receive a full offer, you will also receive an email with a link to your personalised offer page. Your page will guide you through the process of accepting or deferring your offer. Once you have accepted and paid your deposit, you will receive an electronic Confirmation of Enrolment (eCoE).

Step 7
Enrol online
Once enrolment for your degree is available, you can enrol in your degree and courses online at Accept Online acceptonline.unsw.edu.au.

Scholarships

A wide range of scholarships are available for international students.

UNSW undergraduate scholarships
UNSW scholarships for international students provide financial support to cover some of the costs associated with studying at Australia's global university. Scholarships recognise students who demonstrate academic achievement or other outstanding qualities such as leadership skills or contributions to the wider community.

To be considered for a scholarship, you must submit a separate application in addition to your admission application for UNSW.

Other scholarship providers
There are many scholarships offered by organisations other than UNSW including the Australian Government, industry partners and organisations in your home country.

Australian Government scholarships
Australia Awards are international scholarships and fellowships funded by the Australian Government offering the next generation of global leaders an opportunity to undertake study, research and professional development. For more information, go to australiaawards.gov.au.

Step 1
Search
Visit scholarships.unsw.edu.au. Make sure you select 'International' in the residency search box to see the list of scholarships available to you.

Step 2
Register
Before applying for your chosen scholarship, first register an account by following the instructions on the page. You need to have lodged an application for admission at UNSW to be able to register and apply for a scholarship.

Step 3
Apply
To apply, log in using your registered login and password. Double check the requirements as some scholarships may have specific questions or require supporting documentation.

Step 4
Submit
Submit your application by the due date. Don’t forget to check the website regularly for application deadlines and updates.

Please check our website regularly for any new scholarships that may become available.

For more information about UNSW Scholarships go to scholarships.unsw.edu.au.

Need help?
If you have any questions regarding your application, go to enquiry.unsw.edu.au.

Other ways to apply
You can also apply to UNSW at a conference or event where we are present, or through a UNSW agent located in your country. Find out more at international.unsw.edu.au.

Application deadline
We encourage you to submit your completed application as early as possible to ensure it will be processed in time for your preferred term. Some high-demand programs such as Engineering, and faculties with limited places such as Medicine, may have an earlier application deadline or may have an earlier commencement date.

For more information go to applyonline.unsw.edu.au.

English Language Courses

Improve your English language skills at UNSW Global.

UNSW Global English Language Courses offer:

• Flexibility with a range of courses available at different levels, lengths and for a variety of purposes.
• The very best preparation for academic success at UNSW, and your global career.
• Testing and teacher training.
• Foundation English Entrance Courses (FEEC), Essential Academic English (EAE), Career English (CE), Essential English (EE), and University English Entrance Courses (UEEC) are suitable for you if you haven’t met English entry requirements for our Foundation Studies Programs or simply want to improve your English to enter a diploma or degree program at UNSW.

For more information, visit unswglobal.unsw.edu.au/english-language-courses

What is an English pathway?
UNSW Global’s English pathway courses are designed to help you improve your skills so you can meet the UNSW English language entry requirements. They also prepare you for success at university and in your global career.

If you want to study an academic pathway program, or an undergraduate or postgraduate degree, there’s an English pathway for you.

Why study an English pathway at UNSW Global?

• Study at Australia’s first university languages centre.
• Learn from 50 years of experience in language teaching.
• Join over 4,000 students who study the courses each year.
• Access world-class university facilities and social surroundings and study at UNSW Sydney campuses.

English pathway options

University English Entrance Course (UEEC)
UNSW Global’s University English Entrance Course (UEEC) will help you meet the UNSW English language entry requirements. Depending on your current level of English, you may need to complete a 10, 15 or 20-week course.

For more information, visit unswglobal.unsw.edu.au/ueec

Tertiary Orientation Program (TOP)
UNSW Global’s Tertiary Orientation Program (TOP) is a 5-week course that will help you prepare for Australian university culture, understand university requirements and develop academic English skills for success at university.

You need to have achieved an IELTS 6.5 or equivalent, and have a full offer from UNSW to be eligible for this course.

For more information, visit unswglobal.unsw.edu.au/top

For more information on how to apply, visit unswglobal.unsw.edu.au/apply or contact UNSW Global’s admission office: admissions@unswglobal.unsw.edu.au

Because each student’s study choices are different, it is impossible to provide a definitive cost of studying at UNSW. Here are a few things to consider when calculating your expected fees.

**Fees are course-based**

Fees for international students are set according to the course (subject) and not the program. The fees reflect the relative cost of delivering the course and are calculated per unit of credit (UOC). For example, a science course is likely to cost more than an arts course. Therefore, your total tuition fees will vary depending on which courses you choose.

**Fees vary each year**

Fees for programs change from year to year. The tuition fees above are for students commencing in 2020 or 2021. For more information, visit student.unsw.edu.au/fees.

Fees are charged based on the year of commencement

For example, if you start in Term 3 (September) 2020, the fees for the first term will be calculated at 2020 rates. Your second term will be calculated at 2021 rates. If you are required to complete a course again, you will be charged at the rate applicable to the year you re-take the course.

**Estimating your tuition fees**

While it isn’t possible to give a fixed annual fee for each program, it is possible to provide an estimate. Estimates for each program are outlined in the undergraduate degrees section, starting on page 42. You can also calculate your own expected fees on the following page. Most programs will require 48 units of credit (UOC) per year. Most courses (subjects) are 6 UOC.

General Education course fees are charged at the rate set by the relevant faculty. As an example, GENT0803 – Introduction to Australian Cinema will be calculated using the Faculty of Arts & Social Sciences rate.

For more information about the UNSW fees policy, including refund of fees and overpayments, visit student.unsw.edu.au/fees-policy-international-students.
Other study-related costs
Some programs and courses have costs which are additional to the tuition fees, such as costs relating to laboratory kits, equipment, and field trips. Textbooks are not considered compulsory, but we recommend budgeting around A$1,000 per year for books.

An estimate of your total costs (tuition and other study-related costs) will be shown on your Confirmation of Enrolment Form (CoE) that will be issued on acceptance of an offer of admission to UNSW.

Living costs
Living costs vary depending on each student’s requirements. We estimate a single international student will need a minimum of A$22,000 per year to cover general living expenses. This does not include the costs of large non-essential items like electrical equipment or a car.

In addition, you will need at least A$2,000 when you arrive in Sydney to cover initial expenses such as a rental bond payment (security deposit), electricity, gas, and telephone connection fees, and basic furniture and household items.

For more information, visit studyin australia.gov.au/global/live-in-australia/living-costs

Overseas student health cover
If you are in Australia on a student visa you will need to pay for health insurance through the Overseas Student Health Cover (OSHC) scheme and maintain insurance for the duration of your visa.

All international students must be covered by health insurance from the date they arrive in Australia until the date they depart, regardless of when they start or complete their program. It is your responsibility to ensure your health insurance policy matches your arrival and departure dates.

The only exception is for students from Belgium, Norway, and Sweden who are covered by CSN or Kammarkollegiet. These students will need to provide proof of official health insurance cover from their home government provider.

There are five registered providers of OSHC
The five registered providers are Medibank Private (UNSW’s preferred overseas student health cover provider), Allianz Global Assistance, BUPA Australia, nib Health Funds Ltd and Australian Health Management.

Medibank OSHC will pay benefits towards your medical and hospital treatment, medically necessary ambulance transport and most prescription medicines. Be aware that there may be some exclusions for pre-existing conditions, and you may have to serve a waiting period to receive some services.

Some services are not covered by Medibank’s policies. These include optical, physiotherapy, dental and some pharmaceuticals. If you want to be covered for these expenses, you will need to take out additional insurance.

US financial aid
We are authorised by the US Department of Education to administer Federal Direct Loans for eligible US students studying at UNSW. If you are eligible for this support, the UNSW Financial Aid Office will be able to help you with your application.

For more information, visit international.unsw.edu.au/for-us-students

International student loans
If you are from Canada, Sweden, Norway, Denmark, or the UK and have applied for a student loan or grant from your home country, we can help you certify your enrolment at UNSW.

Please send the Certification Form to financialaid@unsw.edu.au

For more information, visit international.unsw.edu.au/financial-aid

Important information about
Online/Distance Learning for
Student Visa Holders & US Federal
Direct Loan recipients:
UNSW prides itself on being able to offer you flexible study options when planning your course enrolment. Typically your student visa, however, places certain
limitations on the number of Units of Credit (UOC) you can undertake online or by distance
during your program and during each compulsory study period:
- 67% or more of your total program must be completed in a face-to-face setting.
- You must enrol in at least one face-to-face course in each compulsory study period.

If you are a US Citizen or resident
and are planning on using US Federal Direct Loans, typically you cannot undertake any online
or distance courses to remain eligible for federal student aid.

Due to the COVID-19 situation the limitations on the total number of UOCs you can undertake online or by distance study have temporarily been relaxed
for Student Visa Holders and US Federal Direct Loan recipients. UNSW will provide further updates once these temporary measures are lifted. More
information on UNSW’s response to COVID-19 is provided in the COVID – 19 Related Information for Future Students section of this Guide.

Deferrals, suspensions and cancellations
If you have a UNSW offer in a certain term and wish to defer (i.e. delay commencing to a future term),
please visit gettingstarted.unsw.edu.au/accept
or-defer-your-offer/ site as soon as possible
and before the commencement date stated on
your offer. The University can suspend or cancel
your enrolment for a number of reasons including
misbehaviour and unsatisfactory academic
progress. For more information please visit
student.unsw.edu.au/academic-progression-
international-students
Please note that any
deferrals, suspensions or cancellations may affect a
student visa or visa application.

COVID – 19 Related Information for Future Students:
While this is an uncertain time for us all, UNSW
remains operational and dedicated to providing a
world-class education for all our students. We’ve
transitioned all courses to online teaching until
further notice and have migrated as many aspects
of our campus community as possible into the
virtual space.
As a potential applicant or offer holder, this means
you can commence your studies with us no matter
where you are in the world and then join us on
campus again when it is safe to do so.
For more information on the special arrangements
in place for students during COVID-19, including
our plans to re-open our campus activity please
visit covid-19.unsw.edu.au/information-
students#special-arrangements
and covid-19.unsw.edu.au/safe-return-campus

We UNSW programs include practical
placements and training which may be impacted
by the COVID-19 situation and, in some cases,
may not be able to be completed outside of Australia.
Practical or Work Integrated Learning requirements are identified in the International Student Guides.
If the degree program you are applying for has
practical placements and training, please do
contact futurestudents@unsw.edu.au
to get more information about how these are being managed
during COVID-19.
If you do commence your studies outside of
Australia, you must travel to Australia once travel
restrictions are lifted to complete the remainder
of your program. UNSW recommends that you
apply for a student visa as soon as possible. If
your application for a student visa is refused and you
are unable to complete your degree program you
will be granted a refund of a portion of
your deposit. Note that no refund can be granted for
tuition fees for courses already completed,
or for courses you remain enrolled in after the
census date.

Disclaimers:
UNSW programs, courses and any arrangements for programs and fees including staff allocated, as stated in the guide or any other University publication, are subject to the University altering or changing any policies, procedures or requirements at any time and are not necessarily in effect or binding.

Held just before the start of term, Orientation Week (or O-week as it is often known) is a great time to learn more about life on campus and make new friends. It’s jam packed with activities and workshops to get you ready for life at UNSW.

You can take a tour of the campus, get involved in clubs, register for social sport and find out all about the opportunities available to you as a UNSW student.

So make sure you get along to O-Week to get yourself set up and ready to go on the first day of term.

Find out what it’s all about at arc.unsw.edu.au/o-week

We look forward to welcoming you.

Campus tours
Run all year round, our campus tours are guided by experienced Student Ambassadors who will give you a first-hand insight into the student experience at UNSW. To view our upcoming tour dates and register your attendance, visit unsw.to/campus-tours
