Studying at UNSW is an investment in your future. We’re committed to developing you personally and professionally. The combination of your ambition and our expertise will set you up for a future where you will feel empowered to enact a positive impact and make a difference. The world needs dreamers, explorers, researchers, leaders and thinkers.

The world needs U

Throughout this guide you will find QR codes that unlock more information and reveal extra inspiration. Scan the QR code to see why the world needs you.
Become an employable graduate

UNSW is career-focused education. We equip you with the skills, opportunities and support that will ensure you excel well into your future. That’s why our graduates now work with some of the most enviable employers and global organisations, such as Google, Unilever, Ernst & Young, Microsoft, Rio Tinto, HSBC, Slater & Gordon, NASA, UNESCO and Oxfam.

We prepare you for lifelong career success

Develop your flexible, lifelong career plan
From day one, you can turn to our experts for professional advice and learn how to seize opportunities throughout your career. We’ll help you:
• Recognise and build on your professional strengths.
• Identify your opportunities and plan a career path.
• Think critically and creatively for lifelong career success.

Make an impact with employers
Your knowledge, skills and experience combine to demonstrate why a company should hire you. You will learn how to express your professional best with:
• Internships and practical experiences integrated into your studies.
• Strong online presence, résumé and cover letter writing skills.
• The ability to understand and respond to complex interview questions.

Connect with mentors to support your success
With professional development woven into your studies, you will be inspired by influential people and build networks with future employers. Take advantage of:
• Personalised career mentoring that offers connections, support and insights.
• Introductions to exciting companies at industry networking events.
• Internships and experiences that build your confidence and reputation.

You can make this happen
UNSW Careers supports you with expert personalised career planning, mentoring, and job-seeking skill development. Visit careers.unsw.edu.au
Work Integrated Learning at UNSW builds practical work experience opportunities like internships into your degree. Visit wil.unsw.edu.au

“Coming out of uni there was so many transferrable skills like being a good communicator, a team member, presenting well, these kind of skills that you’ve built up over the years studying here [UNSW] are so easily transferrable into the workforce.”

Catherine Hu,
UNSW Business School Alumna and Customer Solutions Manager for TikTok

Transform ideas into reality

Grow your ideas with leading entrepreneurial support

If you’re passionate about starting your own business, UNSW is the university for you. We have one of the biggest student and alumni start-up programs in Australia, the UNSW Founders Program. You can turn your ideas into a reality with:
- One-on-one mentoring with expert start-up coaches
- Interactive workshops in cutting-edge facilities
- Accelerator programs to help you gain investment and launch your own business
- Networking events where you meet business founders, leaders and entrepreneurs

UNSW Founders
Australia’s most comprehensive university entrepreneurship program. Visit founders.unsw.edu.au

“Vanessa and three of her classmates launched Yellowbox as a part of the UNSW Founders 10x Accelerator program. Yellowbox is a technology start-up specialising in smart-lock systems and since its launch with UNSW it has now expanded internationally.”

Vanessa Zhao,
UNSW Founders alumna

Change the world with bold ideas and quality research

We’re passionate about research, changing lives and making real-world impact. That is why UNSW is ranked number one in Australia for research quality and impact*. It can start with just one bold idea and result in outcomes that positively impact societies, economies and the environment.

Solar power (photovoltaics): We broke the record for the conversion efficiency of a silicon solar cell. We’re home to the world’s fastest solar-powered car. Our campuses are now powered by 100% solar electricity.

The world’s first quantum computer: Using silicon, UNSW is one of the global leaders in the race to build a quantum computer. We’ve also established the world’s first undergraduate degree in quantum engineering.

COVID-19: Our researchers are tackling the COVID-19 pandemic through social policy, public health, immunology, biosecurity and infectious disease intelligence. We have established a Rapid Response Research Fund to aid numerous projects, while a leading team of UNSW researchers are currently working on the frontline with the state’s health department.

Climate Change: Among several world-first climate research projects, we have established the Climate Change Research Centre with one to the largest research facilities of its kind in Australia. We are proudly the #1 university for meeting the UN’s Sustainable Development Goal for Responsible Consumption and Production.6

• AUD$5,000 for one year

For all eligibility requirements, instructions on how to apply, or to explore all the scholarships available, visit scholarships.unsw.edu.au.

“...The scholarship has enabled me to focus on my studies plus freedom to enjoy life as a student and discover my interests through various student societies. It’s encouraged me to go beyond my limits and to become a person I would like to be.”

Weiss Li, Bachelor of Commerce (Accounting & Finance)
Feel safe and welcome

G’day. Hello. Hi. How’s it going? Aussies are known for being friendly and you will find a smile wherever you go. Feel safe and welcome as you join our vibrant and multicultural communities all over Sydney that span social, religious and cultural collectives.

Sydney has been ranked one of safest cities in the world* Additionally, our public health response to COVID-19 is considered one of the most effective, worldwide. You can feel secure and safe about your choice to live here. It will feel like a home away from home, no matter where you’re from. The best bit about our multicultural city? The food. Explore Chinatown, Spice Alley, Little Italy and an array of fresh food markets all within easy reach. Who knows what new treats you could discover?

Jumpstart your career connections in the business capital of Australia

Sydney is home to more global firms than any other Australian city. As a gateway to Asian economies, you’ll find many valuable networking opportunities to help you stand out in the global job market. With UNSW’s career support services, you’ll feel confident about establishing new professional networks.

Sydney on a budget

On a budget? No worries. There are lots of affordable indoor and outdoor activities to enjoy in Sydney. Pop into a free art gallery, catch a movie at the local cinema, try a coastal walk, snorkel or surf at the beach, or enjoy a budget-friendly lunch or dinner in one of our neighbouring suburbs. Feel confident to try new hobbies with lots of UNSW student social clubs to join.

Explore Sydney’s surroundings

Sydney is all about the outdoors. And it’s more than just beaches. Head to one of our beautiful parks for an outdoor picnic with friends. If you want to go further afield, the Blue Mountains to the west of Sydney, the Royal National Park to the south or stunning Palm Beach in the north are great for a getaway. Don’t forget our beautiful beaches minutes from the UNSW Sydney campus. Fall in love with Sydney when you study in the heart of it.

Come join us.

Take a quick tour

Top student city
We’re in the top 10 Best Student Cities* based on safety, welcoming international students as well as cost of living.

A swimmer’s paradise
There are over 100 beaches in Sydney spanning from harbourside alcoves filled with rockpools to the calm waters at Balmoral and Camp Cove. Or give surfing a go at the famous Bondi and Coogee beaches.

Cultural melting pot
Almost a third of our population were born overseas making us a truly multicultural city. Immerse yourself in community cultural or religious events throughout the year – including student events on campus.

Enjoy our style
Sydneysiders like to shop – particularly with local Australian designers. Head to nearby Paddington to discover boutique shops. Wander over to Surry Hills to find one-of-a-kind streetwear or visit the Sydney CBD for all the top labels and luxury brands.

Experience the Australian bush
There is a lot of green space in Sydney to enjoy. In the south of the city you can find one of Australia’s first national parks, the Royal National Park, home to unique Australian plants, jaw-dropping coastal views and ancient Aboriginal art dating back thousands and thousands of years.

Art meets nature
Australia’s largest outdoor sculpture exhibit, Sculpture by the Sea, is held at Bondi Beach every year with large sculptures set against the backdrop of the cliffs and sea. Often featuring UNSW Art & Design Students’ work. Get the selfie stick out for this. You won’t want to miss a photo opportunity.

*QS Best Student Cities, 2019
UNSW has the best of Sydney right at its doorstep. The bubbling food and retail hub in the city centre is just a short trip on the light rail. For fresh ocean breezes, head to Bondi and Coogee, which are only a short bus trip from campus. Up for some sightseeing? The famous Sydney Opera House and Sydney Harbour Bridge are so close, you can visit them any time you want.

Take advantage of the public transport system. There’s trains, buses, ferries and light rail options at all hours of the day. Getting to the main campus is easy with a new Light Rail network that will drop you at our doorstep. Or if you want to make the most of beautiful Sydney, jump on a bike or choose to walk. Take it all in at your own pace.

Make it your home
Join the student community living on or nearby campus. Not only will you have this easy access to Sydney city and beaches, you will be in walking distance to your lecture halls, meet people from around the world and make lifelong friends. For information on university accommodation, please see pages 24 – 25 or visit accommodation.unsw.edu.au.
Get the full experience

University is about discovering the best version of yourself. At UNSW, there’s so many opportunities for you to explore and grow, and with each new experience, you will discover new things about yourself and what motivates you to succeed. You will make friends in clubs and societies and enjoy fun events on and off campus.

Scan the QR code to see where UNSW can take you.

Make your studies work for you
The innovative UNSW+ academic calendar gives you the flexibility to choose your own study path. There are three 10-week teaching terms, plus an optional five-week summer term. You can choose to schedule terms with a lighter study load or pick up an additional course to fast-track your graduation or make room for an extended internship. Plus, UNSW+ gives you the opportunity to join UNSW at one of the three intakes throughout the year (February, June or September), depending on your degree. For more information, visit student.unsw.edu.au/calendar.

Open doors with a double degree
Get more choice, more career options and more knowledge with a double degree. Despite the name, it doesn’t mean double the time or workload. Combine your passions to stand out when you graduate. Explore the different combinations of programs in this guide or at degrees.unsw.edu.au.

A place to make new friends
Students from all backgrounds are what makes our campus so rich and diverse. There’s plenty of activities and opportunities to find your place in the community. With over 300 clubs and societies for everything from sport to religion, everyone is welcome. Arc, UNSW’s student-led organisation and home to many of our student clubs, hosts year-round parties and events (in person and online), sporting competitions and practice, volunteering opportunities, health and wellness sessions... the list goes on. Find your friends at arc.unsw.edu.au.

Discover your favourite places
UNSW’s campus has everything you could need all in one place. You’ll find dozens of cafes and restaurants, banks, ATMs, a post office, supermarket, medical facilities, libraries, sporting facilities and more! When it’s time to hit the books, there are indoor computer labs and outdoor study areas, so you can find the right vibe to suit your study style – all with free and fast Wi-Fi.
We're here for you – every step of the way

We’re known as one of the friendliest universities in Australia according to students and parents alike. We have a range of support and development services to guide you from your first day through to graduation.

Feel safe and welcome
The health and safety of our students is our number one priority. We have strict cleaning protocols in line with health authority guidelines. There is an on-campus health clinic, support for mental health, and wellbeing services designed specifically for students. We also provide 24/7 security services and have an app to help: StaySafe@UNSW.

Arriving in Sydney
With new-arrival workshops, campus tours, and even meeting you at the airport, our dedicated International Student Welcome Centre will make you feel at home with UNSW.

Help from a mate
Before you arrive, be matched with a Cultural Mentor, who is your new senior student ‘buddy’ and will answer all your questions on UNSW and Sydney. After you arrive your mentor can help you learn about Australian culture, customs and settling into student life at UNSW.

Our International Student Advisors provide personalised advice and information on university life, student visas, wellbeing and academic performance. They’re ready to chat online now or meet you in person.

We have peer support mentors, special support programs for young students under 18 years of age and Arc, our student-led organisation, runs the ‘Great Mates’ program where you can chat with experienced, senior international students. Plus, there is lots of helpful information online, visit student.unsw.edu.au/international

Academic skills support
UNSW students have access to free online resources, academic skills workshops, individual consultations with Academic Language & Learning Facilitators, exam preparation advice, and more. We also offer a dedicated Learning and Careers Support Hub for your academic support needs. For more information, visit student.unsw.edu.au/skills
Feel at home with a range of award-winning accommodation on and off campus at UNSW. Live within walking distance of your lecture halls, meet people from around the world, and make lifelong friends.

Accommodation at UNSW
Make friends from around the world and take comfort in the same extensive cleaning protocols that keep you safe on campus when you choose to live at UNSW. Save the commute, go home for lunch – there’s so much to love about living at UNSW.

Colleges
Live among students from all over the world including your fellow Aussies. Choose from full board, partially catered, and self-catered accommodation and options including male only, female only, and mixed male and female accommodation. Most colleges cater for dietary requirements like halal, kosher and vegetarian.

Apartments
Apartments offer independent-style living for students from all walks of life. There are apartments on and off campus and costs vary depending on the number of rooms and the location.

Private accommodation options

Rental property
Choose from numerous private rental properties located in the surrounding suburbs of UNSW. You can rent a furnished or unfurnished property. Be sure to consider additional expenses such as electricity, gas, telephone and Wi-Fi. Costs vary but usually range from AUD$250 – AUD$350 per student per week in a shared house or apartment.

Homestay
Homestay options include full board and single room-only accommodation. Full board usually includes a furnished room, use of facilities in a private home plus breakfast and dinner. Single room-only homestays include a furnished room, and gas and electricity expenses in the rent. You’ll need to arrange your own food, cooking, cleaning, laundry and telephone costs. Costs vary but usually range from AUD$250 – AUD$350 per student per week. Search our database of local private properties at studystays.unsw.edu.au.

Temporary accommodation
We recommend having three to four weeks before classes begin to arrange private housing. Be sure to book short-term accommodation first, then look for long-term options in person. Short-term accommodation can include private hotels, motels, hostels, lodges or furnished apartments ranging from AUD$45 – AUD$300 per day.

Private student housing assistance
UNSW’s International Student Housing Assistance (ISHA) team can help you look for temporary or private accommodation if UNSW accommodation isn’t available when you apply. For more information, visit student.unsw.edu.au/housing-assistance

Living on campus compared to living off campus
We’ve compiled indicative costs of living on campus compared to living independently factoring in everything you need to consider from food to transport, so you can make an informed choice about where you’ll live when you study with UNSW.

Career success
UNSW graduates succeed. They’re earning the highest median salaries of graduates from Sydney-based and Go8 universities*. Many are making contributions to the world’s most admired enterprises and organisations. Others are disrupting the status quo, launching brands and start-up businesses that make a real difference. That’s because we support your career success from day-one.

Work Integrated Learning
Get real-world experience and industry connections as part of your degree. Our dedicated Work Integrated Learning team will work with you to find the right professional placements and internships.

Build professional networks
Whichever sector you want to move into, you will be able to take advantage of our faculty’s connections to thousands of industry partners. You will work with and learn from staff who are not only practicing in your field, but who are also leading and shaping the future of your industry.

Career Ready Mentoring Program
In your final year, this program will connect you with leading professionals in your field who will support your career development as you transition into work.

Gain a global mindset
As part of our diverse community of students, staff, alumni and industry partners from around the world, you will build a global network. Studying at an internationally renowned university, you will learn the communication and professional skills to move into global careers and drive solutions to challenges that go beyond borders.

*QILT Graduate Outcomes Survey 2020

Experiences to shape your future
We’re dedicated to helping you create a university experience that aligns with your ambitions and values. We will listen to and work with you to understand your goals and support you to pursue those through industry connections, social networks, hands-on experiences and world-class campus facilities.

Our campuses and facilities

Kensington Campus
Located between the global metropolis of Sydney’s CBD and its world-famous beaches, UNSW’s Kensington campus hosts hundreds of clubs, societies and networking events. It’s home to Australia’s most comprehensive entrepreneurship program – UNSW-Founders.

Paddington Campus
Our Art & Design campus in inner city Sydney is a renowned creative hub. Studying here, you will have access to an unmatched array of studio, workshop and gallery spaces, as well as state-of-the-art digital production technology.

Design Futures Lab
Purpose-built to inspire exploration and innovation in architecture, design and the built environment using emerging technologies.

Esme Timbery Creative Practice Lab
Our multi-arts production and performance hub contains the latest digital production technology to facilitate creative collaboration across media and the arts.
Shape your degree around your interests and gain in-depth knowledge in the fields you’re passionate about with our flexible Bachelor of Arts degree. With over 35 subject areas to choose from, you will unravel the complexities facing today’s world and be equipped with a career-ready skill set so you can channel your passion into action and make a genuine impact on society.

**Majors**

The following subject areas are also available as Minors:
- Asian Studies
- Creative Writing
- Criminology (Law)
- Economics (Business)
- English
- Environmental Humanities
- European Studies
- Film Studies
- French Studies
- Geographical Studies
- German Studies
- Global Development
- History
- Human Resource Management
- Indigenous Studies
- International Business (Business)
- Japanese Studies
- Korean Studies
- Linguistics
- Media, Culture and Technology
- Philosophy
- Politics and International Relations
- Spanish and Latin American Studies
- Sociology and Anthropology
- Sociology and Media (Screen & Sound Production)
- Studies in Psychology (Science)
- Theatre and Performance Studies

**Minors**

The following subject areas are only available as Minors:
- Art History and Theory
- Australian Studies
- Indonesian Studies
- Italian Studies
- Modern Greek Studies
- Psychology (Science)
- Gender Studies

**Career opportunities**

You will gain sought after skills that ensure your adaptability in today’s fast-paced world. Our graduates can be found all over the globe in a range of industries including diplomacy, social justice, publishing, international affairs, media, politics, business and entrepreneurship, the arts and creative industries, education, journalism, university and public administration, advocacy and campaign strategy, research and academia.

**Double degree options**

- Advanced Mathematics (Hons)
- Advanced Science (Hons)
- Commerce
- Computer Science
- Economics
- Education (Secondary)
- Engineering (Hons)
- Environmental Management
- Fine Arts
- Law
- Media

**Structure**

Major (10 courses) + Business Component (8 courses) + Minor (4 courses) + Electives (2 courses)

**Bachelor of Arts and Business**

**Program code** 3444

**CRICOS code** 07758M

**Duration** 3 years (+ 1 year Honours option)

**Entry** February, June and September

**Estimated first year tuition** AS50,928

**Units of credit (per year/total)** 48/144

**Assumed knowledge** None

**Minors**

The following subject areas are only available as Minors:
- Art History and Theory

Bachelor of Social Science

Gain the skills you need to affect policy, drive social change and make a real difference in the world.

Career opportunities
Social science skills can be applied in a range of settings: government, non-government, not-for-profit, social enterprise and collectives.

Structure
Core (9 courses)
+ Major (10 courses)
+ Electives & General Education (5 courses)

Creative Arts and Media

Bachelor of Fine Arts

Develop your creative skills and knowledge with the Bachelor of Fine Arts. Taught by our internationally-recognised staff of artists and scholars, you’ll develop your independent artistic practice in a rigorous and supportive community of artists and thinkers.

Double degree options
- Art
- Advanced Science (Hons)
- Commerce
- Education (Secondary)
- Law
- Science

Art Theory Major

Structure
Core (6 courses)
+ Art Theory Major (10 courses)
+ Electives & General Education (8 courses)

Study themes
- Art and Embodiment
- Art and Institutions
- Art, Science, and Technology
- Local and Global Art

Career opportunities
You’ll have the flexibility to work in a broad range of creative industry roles including arts and cultural management, policymaking and administration, galleries, libraries, archives and museums, creative direction, planning and production, art and design criticism, communications and journalism, cultural and creative research and scholarship, multi-platform publishing and distribution, curatorship, festival and event management, design thinking and management, public programming and engagement, entrepreneurship, strategy, creative social enterprise and startups.

+ Electives & General Education (8 courses)

Studio Practice Major

Structure
Core Studio (6 courses)
+ Studio Specialisation (6 courses)
+ Electives & General Education (8 courses)

Studio specialisations
Choose two of the following disciplines to specialise in:
- Drawing
- Painting
- Printmaking
- Photography
- Sculpture
- Moving Image

Career opportunities
Gain specialist skills to work in contemporary art practice including commercial gallery representation, public funding and commissioned work, art direction and advertising, arts and cultural administration and policymaking, arts education and training, arts writing and publishing, commercial and news photography, curating and artistic program management, exhibition planning, design and installation, entertainment, digital media and technology industries, film and television production, site activation and public art.
## Bachelor of Media Arts

**Program code**: 4013  
**CRICOS code**: 897694G  
**Duration**: 3 years (+ 1 year Honours option)  
**Entry**: February, June and September  
**Estimated first year tuition**: AU$144  
**Units of credit (per year/total)**: 48/144  
**Assumed knowledge**: None

This ground-breaking degree responds to an industry demand for creative practitioners who can work across a range of emerging media technologies. You will be taught by accomplished, active media artists, producers and theorists, creating your work in some of the world’s best labs and studios.

### Visual Effects
- Develop skills and knowledge across contemporary animation processes.
- Visual Effects: Explore contemporary potentials of visual effects from compositing to CG integration.
- Moving Image: Explore contemporary approaches to video art, short film, audio-visual composition and installations.
- 3D Visualisations: Delve into the computer-generated world learning key technologies such as virtual reality systems.
- Sound: Create media artworks using sound-based techniques and processes in studio and acoustic environments.

### Double degree options
- Computer Science
- Education (Secondary)

### Structure
- Core Studio (4 courses)
- Studio Specialisation (6 courses)
- History & Theory (4 courses)
- Professional Practice/Experience (2 courses)
- Effective & General Education (8 courses)

## Communication and Journalism

**Program code**: 3454  
**CRICOS code**: 86436G  
**Duration**: 3 years (+ 1 year Honours option)  
**Entry**: February, June and September  
**Estimated first year tuition**: AU$144  
**Units of credit (per year/total)**: 48/144  
**Assumed knowledge**: None

Reimagine the contemporary media landscape and learn to find and write news stories across digital media, print, news, public relations and marketing platforms. Our strong industry links mean you will have the opportunity to gain real-world experience throughout your degree and a competitive edge in a fast-evolving industry. You will learn how to work quickly and intelligently, without sacrificing integrity.

### Career opportunities
- Our graduates have been highly successful in forging careers in major media institutions as well as with emerging media innovators in both Australia and overseas. They can be found working in journalism, publishing, public relations and advertising, corporate, organisational and public sector communications, internal communications, media relations and social media strategy, digital media, digital marketing and website content management.

### Double degree options
- Arts
- International Studies
- Law
- Music

### Structure
- Media Core (6 courses)
- Specialist Curic (12 courses)
- Optional Minor (4 courses)
- Electives (4 courses)
- Internship/Portfolio *depending on which media degree you study*

## Public Relations and Advertising

**Program code**: 3453  
**CRICOS code**: 072288K  
**Duration**: 3 years (+ 1 year Honours option)  
**Entry**: February, June and September  
**Estimated first year tuition**: AU$144  
**Units of credit (per year/total)**: 48/144  
**Assumed knowledge**: None

Gain detailed knowledge of public relations and advertising practices and get the skills you need to reimagine and direct the future of the media industry. You’ll develop practical and strategic communication skills including creativity, analytics and client management, and build industry connections that will give you a professional advantage in the complex media environment. Our graduates have the skills and knowledge required to represent and support the interests of companies (for profit or not-for-profit), government agencies, individual clients and brands.

### Career opportunities
- Our graduates have advanced skills and knowledge relevant to public relations, advertising, media relations and organisational communication in corporate, political and non-profit organisations, corporate affairs and social media strategy. They can be found working in a variety of PR, advertising and media industries across the globe.

### Double degree options
- Arts
- Commerce
- Design
- International Studies
- Law
- Music

### Structure
- Law Core (6 courses)
- Specialist Curic (12 courses)
- Optional Minor (4 courses)
- Electives (4 courses)
- Internship/Portfolio *depending on which media degree you study*

## Screen and Sound Production

**Program code**: 3438  
**CRICOS code**: 88084K  
**Duration**: 3 years (+ 1 year Honours option)  
**Entry**: February, June and September  
**Estimated first year tuition**: AU$144  
**Units of credit (per year/total)**: 48/144  
**Assumed knowledge**: None

Develop your conceptual and practical production skills so you can creatively and effectively harness technology to shape the world you want to see. Work with a variety of media forms, and gain core knowledge in film and media history and theory, as well as applied skills in interactive design, animation, video and sound production. You will be taught by industry experienced animators, filmmakers, script writers, sound artists and games researchers as you prepare for your career in digital production, animation, film or online gaming.

### Career opportunities
- With their practical, creative and conceptual skills in screen and sound-based media, and a sophisticated understanding of the contemporary industry environment, our graduates have pursued successful careers in television and film production, sound and music design, editing, screenwriting, film criticism and research.

### Double degree options
- Arts
- International Studies
- Law
- Music

### Structure
- Core Studio (6 courses)
- Specialist Curic (12 courses)
- Optional Minor (4 courses)
- Electives (4 courses)
- Internship/Portfolio *depending on which media degree you study*

---

*“Before starting uni I was looking at future careers and the world of media seemed the right choice for me. The Bachelor of Media in Communication and Journalism allowed me to study what I’m passionate about—engaging, observing and writing about events and people’s experiences. The internship I completed during my degree gave me the confidence and connections I needed to secure my first job in the industry.”*

- Claire Keenan, Bachelor of Media (Communication and Journalism)
Bachelor of Music

Program code: 3436
CRICOS code: 88081G
Duration: 4 years (embedded Honours option)
Entry February
Estimated first year tuition: AU$8,440
Units of credit (per year/total): 48/144
Assumed knowledge: None

Develop your talents in a diverse range of musical genres, as a solo performer, teacher, composer or electronic artist. Ensure your future in the changing world of music by exploring music in interdisciplinary contexts including ethnomusicology, film, production, teaching, gaming and immersive media. Experience a supportive and inspiring environment in which your talent and passion for music will reach their full potential including our state-of-the-art Esma Timbery Creative Practice Lab which has been purpose built to provide a creative and contemporary space in which to hone your talents.

Music streams
Choose one of the following streams to specialise in:
- Music Creative Practice | Intensive pre-professional training in performance or composition.
- Musicology | Studies in historical musicology, ethnomusicology and the psychology of music.
- Sonic Arts | Develop foundational technical, aesthetic and theoretical skills in sound.
- Music Pedagogy | Specialist study in studio music teaching and preparation for further music education studies.

Career opportunities
Become a highly skilled musician with specialist knowledge in music history, culture and analysis, as well as practical skills in arrangement, composition, performance and production. Our graduates can be found working in performance, private teaching, recording, arts administration, music journalism, arranging and composing.

Double degree options
- Advanced Science (Honours)
- Arts
- Commerce
- Education (Secondary)
- Engineering (Honours)
- Law
- Media (Communication & Journalism)
- Media (PR & Advertising)
- Media (Screen & Sound Production)
- Science

Admission
All applicants must complete an audition to gain entry to the Bachelor of Music. Audition information and the online application form can be found on the School of the Arts and Media website at arts.unsw.edu.au/sam.

If you are a student of exceptional musical ability, you may be able to enter directly into Year 2 of the Bachelor of Music. The admission process for the Advanced Entry Scheme is conducted by the School of the Arts and Media and involves the submission of additional documentation and a live audition.

Bachelor of Design

Program code: 4822
CRICOS code: 007069F
Duration: 3 years (+ 1 year Honours option)
Entry February, June and September
Estimated first year tuition: AU$7,440
Units of credit (per year/total): 48/144
Assumed knowledge: Visual Arts

Structure
- Core Studio (6 courses)
- Studio Specialisation (8 courses)
- History & Theory (4 courses)
- Professional Practice/Experience (2 courses)
- Electives & General Education (4 courses)

Design and Built Environment

Bachelor of Design

Program code: 4822
CRICOS code: 007069F
Duration: 3 years (+ 1 year Honours option)
Entry February, June and September
Estimated first year tuition: AU$7,440
Units of credit (per year/total): 48/144
Assumed knowledge: None

With a future-focused, studio-based and research-led approach, the Bachelor of Design will equip you with the knowledge and skills to understand how design-led solutions enable people to perform at their best. In this degree you will integrate digital and physical production, critical thinking, emerging technologies, design research and entrepreneurship.

Double degree options
- Commerce
- Education (Secondary)
- Media (PA & Advertising)

Admission
Choose two of the following disciplines to specialise in:
- Graphics | Engage with the manipulation of image and type for applications including publications, visual identity and digital spaces.
- Textiles | Advance the rich histories of textiles to form an experimental practice in textile design, wearable art, costume and fashion design.
- Object | Bring together ceramics, furniture and jewellery design to explore materiality, form and practice.
- Interaction | Learn to design interactive experiences for digital systems, products, websites, environments and services preparing for a career in User Experience (UX).
- 3D Visualisation | Deliver into the computer generated world learning key technologies such as virtual reality systems.
- Experience | Explore the way people experience and interact with space and design for fields such as exhibitions, events and performing arts.

Career opportunities
Depending on your chosen specialisation, you’ll be able to work in a range of fields including architecture, branding and advertising, user experience design, app development, data visualisation and immersive design, furniture and lighting design, film and television production, design for stage and events, design teaching and academia, jewellery design, packaging, illustration and publishing, fashion and costume design.

Bachelor of Architectural Studies

Program code: 3261
CRICOS code: 061903M
Duration: 3 years
Entry February and September
Estimated first year tuition: AU$8,280
Units of credit (per year/total): 48/144
Assumed knowledge: None

This degree prepares you for a professional career in architecture and other design-based industries. You will learn to design buildings that meet the needs of communities and individuals, while considering the physical environment, materials and technologies, sustainability, culture and the human experience. This is your launchpad into designing and creating the built environment.

Career opportunities
This degree is the first step to becoming an architect. Following this, you can complete the Master of Architecture and continue the pathway towards becoming a registered Architect. Career opportunities include professional architect or architectural technologist in government, private or commercial practice and multidisciplinary design, architectural consulting, heritage architectural services, spatial design, environmental consultancy, architectural critique, and academic research.

Career opportunities
This degree is the first step to becoming an architect. Following this, you can complete the Master of Architecture and continue the pathway towards becoming a registered Architect.

Study areas
- Architecture Design Studio
- Climate and Environmental Design
- Communications
- Computer Modelling and Building Information Modelling
- Drawing and Model Making
- History of Architecture
- Materials and Technologies
- Structures and Construction

Professional accreditation
The Bachelor of Architectural Studies is the undergraduate pathway to the accredited postgraduate Master of Architecture degree which has professional recognition from the NSW Architects Registration Board.
UNSW-Tongji Double Degree in Architecture

Program code 3264
CRICOS code 48983J
Duration 4 years
Entry February
Estimated first year tuition 4541.988
Units of credit (per year/total) 48/192
Assumed knowledge None

Structure
Semester 1 at UNSW
• Architecture Design Studio
• Environmental Design
• Communications
• Computer Modelling and BIM
• Drawing and Model Making

Career opportunities
This degree prepares you for a rewarding career in interior architecture and design practices, private or commercial design and architectural or environmental consultancy.

Study areas
• Architecture Design Studio
• Environmental Design
• Communications
• Computer Modelling and BIM
• Drawing and Model Making

Bachelor of Construction Management and Property

Program code 3332
CRICOS code 088764F
Duration 3 years
Entry February and September
Estimated first year tuition 5441.984
Units of credit (per year/total) 48/192
Assumed knowledge None

Structure
Core (20 courses)
• Interdisciplinary Learning (2 courses, with students from other disciplines)
• Electives (General Education) (5 courses)

Study areas
• Communications
• Computer Modelling
• Design Studio
• History and Theory
• Materials
• Professional Practice
• Technical Drawing and Model Making
• Technology

Professional accreditation
The Bachelor of Construction Management and Property is accredited by The Australian Institute of Quantity Surveyors (AIQS) and The Royal Institution of Chartered Surveyors (RICS). Students completing the additional one-year Honours program will also receive accreditation from The Australian Institute of Building (AIB).

Career opportunities
In this degree you will develop broad knowledge and skills across the management of property development, construction and design work, construction site operation and project management as well as quantity surveying.

In this professional accredited degree, through coursework and work experience, you’ll study both building and natural urban systems as the basis for designing liveable, healthy, sustainable and resilient cities.

Career opportunities
Landscape architects transform the world around us, planning and designing the shared environments in which we live, work, travel and play. In this professionally accredited degree, through coursework and work experience, you’ll study both building and natural urban systems as the basis for designing liveable, healthy, sustainable and resilient cities.

Career opportunities
This degree will give you the knowledge and practical skills to create sustainable and beautiful environments in urban and rural settings. Our graduates can be found working across the globe in landscape architecture in private practice, government, and commercial firms, landscape planning and management, designing in construction, or in project management and strategic planning.

Study areas
• Communication
• Design Studio
• Ecological Processes
• Environmental Technology and Practice
• History and Theory
• Landscape Engineering Principles
• Plants and Design

Professional accreditation
The Bachelor of Landscape Architecture is accredited by the Australian Institute of Landscape Architects (AILA).

Career opportunities
Our graduates can be found working across the globe in landscape architecture in private practice, government, and commercial firms, landscape planning and management, designing in construction, or in project management and strategic planning.

Study areas
• Landscape Design
• Environmental Design
• Professional Practice
• History and Theory
• Environmental Technology and Practice
• Ecological Processes
• Landscape Engineering Principles
• Plants and Design

Professional accreditation
The Bachelor of Architecture is accredited by the International Federation of Interior Architects/Designers/Builders (IFIB) and Design Institute of Canada (DIA).

Career opportunities
This degree trains you to develop creative solutions to aesthetic challenges in the built environment. You will learn about interior environments including all aspects of their structural, spatial, social and material assembly, then discover how to put your skills and knowledge into professional practice.

Career opportunities
This degree prepares you for a rewarding career in interior architecture in architecture and design firms, private or commercial design and architectural or environmental consultancy.

Study areas
• Computer Modelling
• Design Studio
• History and Theory
• Materials
• Professional Practice
• Technical Drawing and Model Making
• Technology

Minors (Optional)
• Computer Design
• Construction Management
• Industrial Design
• Landscape Architecture

Professional accreditation
The Bachelor of Interior Architecture is recognized by the Interior Designers/Interior Architecture Educators Association (IIDA). Graduates are eligible for membership to the International Federation of Interior Architects/Designers (IFI) and Design Institute of Australia (DIA).

Study areas
• History of Architecture
• Materials and Technologies
• Structures and Construction

Study areas
• Communications
• Computer Modelling
• Design Studio
• History and Theory
• Materials
• Professional Practice
• Technical Drawing and Model Making
• Technology

Minors (Optional)
• Computer Design
• Construction Management
• Industrial Design
• Landscape Architecture

Professional accreditation
The Bachelor of Construction Management and Property is accredited by The Australian Institute of Quantity Surveyors (AIQS) and The Royal Institution of Chartered Surveyors (RICS). Students completing the additional one-year Honours program will also receive accreditation from The Australian Institute of Building (AIB).
Bachelor of City Planning (Honours)

Program code: 3362
CRICOS code: 088387E
Duration: 4 years (including: practice year)
Entry: February
Estimated first year tuition: AS$41,788
Units of credit (per year/total): 48/192
Assumed knowledge: None

Structure
- Core (16 courses)
  - Work Integrated Learning (5 courses)
  - Interdisciplinary Learning (2 courses, with students from other disciplines)
  - Elective & General Education (4 courses)

Career opportunities
You can choose to work within a range of industries spanning urban planning, architecture, engineering, manufacturing and construction, and also animation and gaming environments. The profession you choose can include design specialist, digital optimisation consultation, software solutions development, digital production management, and data analysis.

Professional accreditation
The Bachelor of City Planning (Honours) is accredited by the Planning Institute of Australia (PIA).

Double degree options
- Law

Bachelor of Industrial Design

Program code: 3387
CRICOS code: 008445E
Duration: 3 years (+ 1 year Honours option)
Entry: February and September
Estimated first year tuition: AS$41,349
Units of credit (per year/total): 48/192
Assumed knowledge: None

Structure
- Core (10 courses)
  - Design Studio (8 courses)
  - Interdisciplinary Learning (2 courses, with students from other disciplines)
  - Electives & General Education (6 courses)

Career opportunities
Preparing for an exciting industrial design career including working in product design for multi-disciplinary design teams such as architectural and engineering consultancies, or within the manufacturing industry for consumer and public access products such as electrical, transport, scientific, medical, retail, furniture or telecommunications. You can also pursue a career in brand marketing or designing multimedia content, graphics, packaging and exhibitions or other strategies and services.

Professional accreditation
Bachelor of Industrial Design graduates are eligible for membership of the Design Institute of Australia (DIA).

Bachelor of Computational Design

Program code: 3268
CRICOS code: 08490E
Duration: 3 years (+ 1 year Honours option)
Entry: February, June, September
Estimated first year tuition: AS$40,072
Units of credit (per year/total): 48/192
Assumed knowledge: None

Structure
- Core (18 courses)
  - Interdisciplinary Learning (2 courses, with students from other disciplines)
  - Elective & General Education (4 courses)

Career opportunities
You can choose to work within a range of industries spanning urban planning, architecture, engineering, manufacturing and construction, and also animation and gaming environments. The profession you choose can include design specialist, digital optimisation consultation, software solutions development, digital production management, and data analysis.

Professional accreditation
Bachelor of Industrial Design graduates are eligible for membership of the Design Institute of Australia (DIA).

Bachelor of Education

Program code: 3462
CRICOS code: 079938K
Duration: 4 years (+ Honours options)
Entry: February and September
Estimated first year tuition: AS$43,320
Units of credit (per year/total): 48/192
Assumed knowledge: English

Teaching specialisations
- Business Studies
- Economics

Professional accreditation
This degree is professionally recognised by NSW Education Standards Authority (NESA).

Career opportunities
Teaching is a stable and rewarding career choice with ongoing demand for skilled educators. Our Bachelor of Education is nationally accredited by the NSW Education Standards Authority (NESA), which allows you to teach for both government and non-government secondary schools. Our graduates are widely accepted as exemplary teachers throughout Australia as well as internationally. Many of our graduates also pursue career opportunities outside secondary school teaching including working in community education, cultural institutions and tertiary education.

Bachelor of Arts/Bachelor of Education (Secondary)

Program code: 4853
CRICOS code: 075262B
Duration: 4 years (+ Honours options)
Entry: February and September
Estimated first year tuition: AS$47,986
Units of credit (per year/total): 48/192
Assumed knowledge: English

Teaching specialisations
- Aboriginal Studies (Indigenous Studies)
- Ancient History
- Drama
- English
- English as an Additional Language or Dialect (EAL/D)
- Geography
- Languages (Chinese, French, Japanese, Korean, Spanish)
- Legal Studies
- Modern History
- Music Studies (Instrumental)
- Society and Culture

Professional accreditation
This degree is professionally recognised by NSW Education Standards Authority (NESA).
Bachelor of Social Work (Honours)

Help change lives by solving problems in human relationships, promoting social change and enhancing the wellbeing of others. Our Social Work degree has a strong emphasis on practical skills with guidance from social workers and industry professionals. You’ll gain expertise in a wide variety of areas, including mental health, social work counselling, community work, sociology, psychology and working with Indigenous communities.

Teaching specialisations
• Social Work

Career opportunities
Social Workers operate in diverse areas, including hospitals, government departments, welfare agencies, industry/corporate, community organisations, and as independent consultants.

Professional recognition
This degree is professionally recognised. Upon graduation you’ll be eligible for membership of the Australian Association of Social Workers.

Double degree options
• Arts
• Criminology & Criminal Justice
• Law
• Social Science

Structured
Core (28 courses)
Electives & General Education (4 courses)
Field Placement
Honours Stream (8 courses)
UNSW Business School

Drive purposeful change to shape a better future. Build adaptive thinking to thrive in this fast-changing world and equip yourself with a career-focused education for professional success.

Broaden your expertise and join some of the most employable graduates. Get professional development with internships, global business and consultancy projects and social entrepreneurship opportunities built into your degree.

Become part of a connected group of students where you can expand your network both socially and professionally. Discover a rich, diverse student life that’s unique to UNSW, with faculty and campus-wide events and activities throughout the year.

Our career-focused degrees are informed by close industry connections and supported by flexible double degree options. Learn from leading academics and business experts at a business school ranked within the top 20 globally in Accounting & Finance, and top rankings in Australia in Actuarial Studies and Information Systems.*

For more information, visit business.unsw.edu.au

Career outcomes

Accountants
Actuarial Analysts
Auditors
Business Analysts
Entrepreneurs
Financial Analysts
Financial Planners
Funds Managers
Human Resources Officers
Investment Bankers
Management Accountants
Management Consultants
Marketing, Advertising and Brand Managers
Risk Managers
Social Entrepreneurs

System Analysts
Taxation Specialists
Join the club
Life at UNSW Business School is about more than lectures and tutorials. Our business clubs and societies introduce you to people who share your interests and passions. UNSW Business Society (BSOC) is the largest society at UNSW and hosts over 75 events a year, including first year camp and mentoring to help you settle in, progressing to career fairs with industry and a range of upskilling opportunities with your peers, designed to help you explore and design your future career path. With over 25 clubs and societies affiliated with the Business School, you’ll be able to join clubs aligned to your career aspirations from Economics Society to the Accounting Society, or the Marketing Analytics Society – and many more!

Career Accelerator
Our distinctive degrees bring the boardroom to the classroom with a range of hands-on professional learning opportunities, exclusive to UNSW Business School. Career Accelerator career development and experiences ensure you graduate career-ready, prepared to hit the ground running in the workplace.

Internships
Get real-world business experience while earning credit towards your studies with an internship. Career Accelerator unlocks exclusive experiences with our industry partners, while also giving you the option to find your own internship or take on a practical social entrepreneurship or strategic consulting project.

Professional Networking
Get personalised advice from experienced industry professionals as part of our ten-week, structured Career Mentoring Program with industry leaders. Hear challenges, trends and opportunities at our Business Insights events where experienced professionals share their thought leadership with our students. Grow your network of peers by participating in career development workshops, attending career showcases, or joining a Community Wednesday event. Our student clubs and societies hold regular industry events, upskilling workshops, lecture review sessions and social and professional networking events.

Global Opportunities
Experience business around the world with our range of global opportunities, including short overseas electives, practicums and international exchanges. Through our Global Business Practicum, you can do a practical consulting project in thriving international business hubs including Mumbai, Bangkok, Shanghai or Tel Aviv. (Note: Global Business Practicums are offered virtually while travel restrictions are in place).

For more information, visit business.unsw.edu.au/career-accelerator
Make big changes in the world with a career in business. Understand business essentials from day one with UNSW’s Bachelor of Commerce, an innovative three-year degree that has been co-designed with industry. With built-in professional development opportunities and the new MyBCom online portfolio, you’ll improve your employability and graduate ready to navigate tomorrow’s global business landscape.

Career opportunities
You’ll enjoy countless professional opportunities as a commerce graduate. You’ll be qualified to pursue a range of careers across local and international government and not-for-profit organisations. For example, work as an Auditor, Commercial Manager, Consultant, Customer Experience Specialist, Cyber Security Analyst, Data Analyst, Digital Innovation Specialist, Economist, Financial Adviser, Human Resource Consultant, ICT Business Systems Analyst, International Business Development Manager, Investment Banker, Insights and Reporting Manager, Marketing/Brand Manager, Property Business Analyst, Recruitment Officer, Strategist, Tax Advisor, Venture Capitalist.

Professional accreditation
You’ll be eligible for membership with various professional organisations depending on the major that you complete.

Double degree options
- Bachelor of Science
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Aviation (Management)
- Computer Science
- Design
- Economics
- Education (Secondary)
- Engineering (Honours)
- Fine Arts
- Information Systems
- Law
- Materials Science and Engineering (Honours)
- Media (PR & Advertising)
- Music
- Science

The main attractions of UNSW for me were it’s a Group of Eight university and its strong employability rate. To anyone thinking about starting at UNSW, I say, do it right away.

Mohona Chakraborty, India
Bachelor of Commerce
Bachelor of Engineering (Honours)
Bachelor of Economics

Economics is an influential social science which explores how society can best use finite resources - like time, money and effort. Economics is not just about money, but about improving wellbeing. Using powerful concepts, logic, data, and a rigorous mathematical and statistical toolkit, Economists study how people respond to various incentives when they decide how to allocate scarce resources. The outcomes of these studies impact life-changing policies, which means the skills and insights you’ll develop in this degree are prized by decision-makers in business and government worldwide.

Career opportunities
You will be highly sought after by policymakers in government at all levels, private sector employers in all industries, not-for-profits and international organisations to work as an analyst, researcher, forecaster, journalist, advisor, and many other roles. You can open up more career paths by completing the Bachelor of Economics (Honours) degree or combining economics with studies in business, banking, law, or science.

Majors
In this degree you select at least one economics major:
• Economics
• Econometrics
• Financial Economics
And a second major from the economics majors OR the list of Business School majors OR a minor from the below:
• Accounting
• Business Analytics
• Finance
• Financial Technology
• Human Resource Management
• Information Systems
• International Business
• Languages
• Marketing
• Mathematics (Science)
• Psychology (Science)
• Statistics
• Taxation
(sample list)

Double degree options
• Actuarial Studies
• Advanced Mathematics (Honours)
• Advanced Science (Honours)
• Arts
• Commerce
• Computer Science
• Education (Secondary)
• Law
• Science

Professional accreditation
You will be eligible for membership to various professional organisations according to the major you complete.

Bachelor of Information Systems

Data and technology drive almost every aspect of organisations today. From goals to strategies to functions - information systems are crucial to business operations. The Bachelor of Information Systems will develop specialist skills, knowledge and experience in information systems. This degree gives you the foundation to develop and implement IT solutions for a range of businesses.

Career opportunities
You’ll be able to work as a Business Analyst, Business Intelligence Systems Developer, Cyber Security Specialist, e-Commerce Specialist, IS Development Specialist, IS/IT Architect, IS/IT Consultant, IT Infrastructure Developer, Network developer, Network and Systems Analyst, Management Consultant and Technical Manager.

Majors
• Information Systems

Double degree options
• Commerce
• Actuarial Studies

Professional accreditation
This degree is accredited by the Australian Computer Society (ACS) for provisional membership at the Professional Level. You’ll also be eligible for SAS accreditation after studying specific elective courses within the Bachelor of Information Systems.
Empower yourself at a globally renowned engineering faculty, where passion, diverse perspectives and a hands-on approach create solutions for a better world.

- Set yourself apart studying at the #1 Engineering Faculty in Australia* with the largest range of disciplines, including emerging areas like Quantum and Renewable Energy Engineering.

*QS Rankings by Subject 2020

- Improve lives with exciting, real-world projects in our unique ChalEng program. Connect with students, academics and companies to gain the technical and professional skills needed to thrive.

- Enrich your studies through our diverse and inclusive student community. Our clubs and societies brings students together for professional development programs and networking opportunities.

For more information, visit engineering.unsw.edu.au

Career outcomes

- Acoustic Engineer
- Chief Project Manager
- Drill & Blast Engineer
- Energy System Engineer
- Field Geotechnical Engineer
- Food Process Engineers
- Head Network & Security Engineer
- Lead Systems Engineer
- Mechanical Project Engineer
- Medical Devices Engineer
- Principal Avionics Engineer
- Quantum Control Specialist
- Renewable Energy Project Engineer
- Senior Project Engineer
- Senior Site Engineer
- IT Project Manager
- Transport Engineering Consultant
- Underground or Open Pit Mining Engineer
- Water and Waste Engineer
Real-world engineering
From day one, you will develop your abilities as an engineer, in the classroom and through hands-on practical experience. Build valuable industry networks and contacts with our unparalleled industry connections while you study. Learn from industry leaders, create and design projects in our Makerspaces and participate in student projects. You can attend industry recruitment events and go on international exchange, giving you valuable real-world experience to prepare you for a successful career.

Meeting global challenges
Make a positive difference in the world when you combine your passion and creativity to meet global challenges. You will have access to the world’s best facilities and research to help you reframe global problems and engineer innovative solutions for individuals and communities.

The ChallENG Program
The ChallENG Program connects you with academics and industry partners as part of exciting, real-world, project-based learning initiatives. ChallENG prepares you for your future career through practical learning experiences that are valued in the real-world. You will expand your professional expertise through a multidisciplinary learning approach that develops your technical and design skills. Many of the ChallENG projects earn academic credit (for-credit-elective) or are eligible for Industrial Training.

For more information, visit challenge.unsw.edu.au

Industrial Training
Industrial Training is a major component of your engineering education. It gives you real experience in an engineering environment and shows how your learning is applied in practice. For Industrial Training, you’ll undertake 60 days of work experience in your chosen field of study.

For more information, visit unsw.to/industrial-training

Student societies
Make friends with other students and expand your professional network. Join our flagship Engineering Society (EngSoc) and Women in Engineering Society (WIE Soc). Our full range of societies offer professional development programs and social activities throughout the year.
Bachelor of Science (Computer Science)

Program code 3778
CRICOS code 01578F
Duration 3 years
Entry February, June and September
Estimated first year tuition $4,515
Units of credit (per year/total) 48/144
Assumed knowledge Mathematics

You will study the design, construction and use of computer systems. Gain expertise in the basic principles behind computing tools, operating systems, compilers, translators and computer hardware, and learn about the design and development of hardware and software tools for developing computer applications.

Study areas
- Artificial Intelligence
- Computer Networks
- Computer Science
- Database Systems
- eBusiness Systems
- Embedded Systems
- Programming Languages
- Security Engineering

This degree is accredited by the Australian Computer Society.

Career opportunities
You can work in fields such as software engineering and development, digital security, database development, game development and systems analysis.

Double degree options
- Actuarial Studies
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Commerce
- Economics
- Engineering (Honours)
- Law
- Media Arts
- Science

Aerospace Engineering (Honours)

Immerse yourself in the science and practice of air and space flight with this exciting degree. Learn how to design, operate, and make advanced analyses of air and space vehicles in studies that draw on our strong research and industrial experience. In your final year you’ll work on aircraft design and research projects.

Study areas
- Aeroservoelasticity
- Aerodynamics
- Flight Mechanics
- Structures

Career opportunities
You’ll be able to work in a number of fields such as the space industry, national security, transportation, airlines, maritime construction and consulting.

Double degree options
- Advanced Mathematics
- Computer Science
- Advanced Science
- Music
- Science

Bioinformatics Engineering (Honours)

Master the foundations of bioinformatics, a field at the intersection of computing and life sciences. You’ll learn how to develop technologies for storing, extracting, organizing and interpreting genetic information.

Study areas
- Biology
- Computing
- Data Management
- DNA Data Analysis
- Genomics and Genetics
- Machine Learning
- Mathematics
- Web App Programming

Career opportunities
You can work in a variety of industries including bioinformatics, pharmaceutical, agritech, banking and finance, big data, consulting, development, digital services, education, health, information technology, logistics, research, software engineering and computer security.

Double degree options
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Commerce
- Law
- Master of Biomedical Engineering
- Music
- Science

Bachelor of Engineering (Honours)

Program code 3707
CRICOS code 06683E
Duration 4 years
Entry February, June and September
Estimated first year tuition $4,541
Units of credit (per year/total) 48/144
Assumed knowledge Mathematics and Physics (except specified)

Structure
- 28 Courses in your chosen discipline
- 2 Electives
- 2 General Education Electives
- 60 days Industrial Training

Combining mathematics, natural sciences and computing, this degree is the foundation for specialised pathways into different engineering disciplines. You’ll learn through engineering design and research projects as well as professional practice, management and research for your thesis. There’s flexibility in the first year if you haven’t decided on your desired engineering major.

Flexible first year stream
The Bachelor of Engineering (Honours) program includes a Flexible First Year Stream. If you want to study engineering but aren’t ready to choose what area of engineering you can wait until the end of your first year. The first year has common core courses, plus a choice of electives so you can study different areas that appeal to you without making a decision until the end of your first year. This is ideal if you want to be an engineer but aren’t sure which direction to take.

This degree is accredited by Engineers Australia.

I always had a keen interest in studying Engineering but was overwhelmed by how vast the field is. The Flexible First Year Program allowed me to have a little taste of different streams I was interested in without extending my degree by an extra year. One of my most exciting experiences so far has been taking part in the design and manufacturing process of a light installation that was displayed in Vivid 2019. It was amazing to see how the theory we learned could be applied to build something tangible!

Felicie Tan, Bachelor of Engineering (Honours) Electrical Engineering / Bachelor of Commerce

Chemical Engineering (Honours)

Assumed knowledge Mathematics, Physics and Chemistry

This broad degree covers the critical steps in a product’s creation, from the pure chemistry to the economics. You will discover how to design and develop chemical processes and equipment, optimise and control industrial operations, work with nanoparticles, determine environmental effects and pollution control.

Study areas
- Chemical Engineering
- Chemical Reaction Engineering
- Advanced Thermodynamics and Separation
- Process Dynamics and Control
- Process Design
- Polymer Science

Career opportunities
You can pursue a career as a Chemical and Materials Engineer, Chemist, Food and Wine Scientist, Production Manager (Manufacturing), Production or Plant Engineer, Product Tester, Research and Development Manager.

Double degree options
- Advanced Mathematics
- Advanced Science
- Arts
- Computer Science
- Engineering Science
- Music
- Science
- Surveying

Civil Engineering (Honours)

Civil engineers are responsible for projects that enhance the overall quality of life for individuals and communities. In this degree you will learn how to design, construct, manage, operate and maintain the infrastructure that supports modern society.

Study areas
- Civil Engineering
- Engineering Construction and Management
- Geotechnical Engineering
- Structural Engineering
- Transport Engineering
- Water Engineering

Career opportunities
You can work for professional consulting firms, construction companies, large public companies, government organisations and financial and management consultancies.

Double degree options
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Commerce
- Computer Science
- Engineering Science
- Law
- Music
- Science
- Surveying
Mechanical Engineering (Honours)

Mechanical engineers have the ability to conceptualise and actualise almost anything that moves, from the smallest biomedical sensor to giant wind turbines. Mechanical engineers apply scientific and engineering knowledge to design machines that solve society’s biggest problems.

Study areas
- Computer Structure
- Computer-Aided Design (CAD)
- Computer-Aided Manufacturing (CAM)
- Fluid Dynamics
- Heat Transfer
- Materials Science
- Noise and Vibration
- Power Generation
- Thermodynamics

Career opportunities
There is a high demand for Mechanical Engineering graduates in a wide range of industries. You can work in areas such as power generation, transport, construction, mining, manufacturing, insurance and appliances.

Double degree options
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Commerce
- Computer Science
- Law
- Master of Biomedical Engineering
- Music
- Science

Mechanical and Manufacturing Engineering (Honours)

Bridge the gap between innovative designs and their execution with Mechanical and Manufacturing Engineering. You will learn how to design and manage the construction, operation and maintenance of equipment used in many industries. As a mechanical engineer you’ll work across all aspects of daily life, from driving, to technology to housing.

Study areas
- Control Systems
- Electronics
- Geometrical Design
- Microprocessors
- Robotics

Career opportunities
As a mechatronic engineer you can work in industries such as automotive, aerospace, defence, mining, cargo-handling and agriculture. You can also work in designing and manufacturing consumer devices and technology such as mobile phones, video-game consoles and biomedical devices.

Double degree options
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Commerce
- Computer Science
- Law
- Music
- Science

Mechatronic Engineering (Honours)

You will learn the full spectrum of smart machine design in this degree. Graduate with skills in autonomous system development such as self-operating robots and vehicles, and a thorough knowledge of industrial automation. You can apply this knowledge across the evolving field of smart machines and systems.

Study areas
- Computer
- Control Systems
- Electronics
- Geometrical Design
- Microprocessors
- Robotics

Career opportunities
As a mechatronic engineer you can work in industries such as manufacturing, automotive, aerospace, defence, mining, cargo-handling and agriculture. You can also work in designing and manufacturing consumer devices and technology such as mobile phones, video-game consoles and biomedical devices.

Double degree options
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Commerce
- Computer Science
- Law
- Music
- Science

Photovoltaics and Solar Energy (Honours)

Immerse yourself in the manufacture and use of solar cells that capture and convert sunlight into electricity. Study technology development, manufacturing, quality control, reliability, policy and system design. This degree prepares you for varied work in an industry that’s creating a more sustainable future.

Study areas
- Building Integration and Encapsulation
- Manufacturing
- Photovoltaics
- Policy Development
- Quality Control
- Reliability and Life-Cycle Analysis
- Renewable Energy Technologies
- Solar Cell Applications
- Solar Energy
- Technology Development

Career opportunities
You can work in fields including manufacturing, quality control and reliability, computer-aided design of devices and systems, policy formulation, programs for developing countries, solar cells and system design.

Double degree options
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Commerce
- Computer Science
- Engineering Science
- Law
- Music
- Science
Mining Engineering (Honours)

Gain a comprehensive understanding of how complex mining systems work together and pursue a career that meets the global need for minerals. Build a solid foundation of engineering principles and the essential elements of mining, including geomechanics, ventilation, mine planning and minerals processing.

Study areas
- Geotechnical Engineering
- Mine Design and Planning
- Mining Engineering
- Mining Management and Sustainability
- Mining Systems
- Mining Technologies
- Rock Breakage

Career opportunities
You can work in areas such as drilling, project management, sustainability, quarry and tunneling, community relations and management consulting in mining companies, investment firms, finance, banking and government organisations.

Double degree options
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Commerce
- Computer Science
- Engineering Science
- Law
- Music
- Science

Petroleum Engineering (Honours)

Specialise in solving problems and designing technologies for use deep underground. In this degree you will learn to apply practical science to the challenges and problems associated with oil and gas exploration, drilling and production. You'll engage in the socio-political context of the industry throughout your study.

Study areas
- Computer Modelling and Simulation of Oil and Gas Resources
- Drilling Engineering
- Formation Evaluation
- Integrated Field Development
- Natural Gas Engineering
- Petroleum Geology and Geostatistics
- Petroleum Economics
- Reservoir Engineering

Career opportunities
You can gain employment in the oil and gas industry, oil service companies, resource development, computer-generated modelling, environmental organisations, as well as banking and finance.

Double degree options
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Commerce
- Computer Science
- Engineering Science
- Law
- Music
- Science

Renewable Energy Engineering (Honours)

Explore the best ways to use renewable energy technologies in this innovative degree. From solar thermal systems and photovoltaics to winds and biomass, draw on UNSW's extensive resources to prepare for work in this growing industry.

Study areas
- Biomass
- Energy Efficiency and Appliances
- Geothermal Systems
- Hydro Turbine
- Photovoltaics
- Renewable Energy
- Solar Architecture
- Solar Thermal Systems
- Tidal and Wave Energy
- Wind Power

Career opportunities
You can work in a wide range of fields and companies in designing, installing and operating renewable energy generating systems such as wind, solar, biomass or hydro systems. Other career paths include the construction of energy efficient technology or buildings, policy, programs for developing countries and research organisations.

Double degree options
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Commerce
- Computer Science
- Engineering Science
- Law
- Music
- Science

Software Engineering (Honours)

Assumed knowledge
- Mathematics

Become an expert in creating high-quality, reliable software systems. You will discover the processes, methods and tools for the design and development of these sophisticated systems, from code-writing to delivery. This degree will give you hands-on experience in software specification, design, implementation and testing with workshops for team-based projects.

Study areas
- Compiling
- Software Engineering
- Software Development
- Software Process
- System Design

Career opportunities
You can pursue a career with telecommunications service providers, major equipment and device manufacturers, large private industrial groups as well as small to medium service and technology providers or start-ups.

Double degree options
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Commerce
- Computer Science
- Engineering Science
- Law
- Music
- Science

Telecommunications (Honours)

In this degree you will learn about the theory and application of a broad range of telecommunications systems such as telephone and data networks, radio and TV, satellites and deep space applications. You will learn how to design, develop and maintain the transmission of information using different methods across the world.

Study areas
- Data Communications Systems
- Data Encoding
- Compression and Encryption
- Satellite and Optical Fibre Networks
- Voice Communication Systems

Career opportunities
You can pursue a career with telecommunications service providers, major equipment and device manufacturers, large private industrial groups as well as small to medium service and technology providers or start-ups.

Double degree options
- Advanced Mathematics (Honours)
- Advanced Science (Honours)
- Arts
- Commerce
- Computer Science
- Engineering Science
- Law
- Music
- Science

Bachelor of Civil Engineering with Architecture (Honours)

Program code: 3635
CRICOS code: 09549K
Duration: 4 years
Entry: February

Estimated first year tuition: $45,446, 026

Assumed knowledge
- Mathematics
- Physics

Build on your civil engineering bachelor’s degree with courses in the related field of architecture. Establish a foundation in architectural principles and learn about the connection between architects and engineers. Get inspiration to become a conceptual thinker with a hybrid of aesthetic and structural expertise.

Study areas
- Architecture
- Civil Engineering

Structure
- Civil Engineering discipline, including thesis project in final year
- Architecture subjects
- 68 day Industrial Training

Career opportunities
You will be well-prepared to join specialist structural engineering firms, construction and contracting companies, federal, state, and local government organisations, airport and harbour authorities, project developers, financial organisations and management consultancies.

This degree is accredited by Engineers Australia.
Bachelor of Food Science (Honours)

Program code 3661
CRICOS code 01388B
Duration 4 years
Entry February, June and September
Estimated first year tuition A$47,760
Units of credit (per year/total) 48/240
Assumed knowledge Mathematics, Chemistry and Physics

Structure
28 courses in Food Science
+ 2 Electives
+ 2 General Education

Build a solid background in mathematics, natural science and applied science to equip you for a career in a variety of food related professions. You will work on food product design, professional food practice and food systems management in addition to completing thesis research.

You will be able to use your skills as a Food Scientist to address humanitarian issues. The Humanitarian Science and Technology minor gives you the opportunity to apply your knowledge to real humanitarian issues, addressing challenges recognised by the UN Sustainable Development Goals and international humanitarian relief efforts.

Majors
- Food Science and Nutrition
- Food Science and Technology

Optional Minor
- Humanitarian Science and Technology

Career opportunities
You can pursue a career in food technology, product development, quality assurance, product testing, production and laboratory management, as dietitians or safety inspectors.

Degree curriculum is approved by the Institute of Food Technologists.

Bachelor of Engineering (Honours)/Master of Biomedical Engineering

Program code 3736
CRICOS code 085911B
Duration 5 years
Entry February and September
Estimated first year tuition A$47,760
Units of credit (per year/total) 48/240
Assumed knowledge Mathematics only and Physics; for Software: Product: Chemistry, Mathematics and Physics; for Bioinformatics: Mathematics, Chemistry and Physics; and Physics; for Chemical and Chemical Engineering you'll learn principles for the development of technologies and solutions in healthcare-related fields such as implantable bionics and robotic surgery.

Disciplines
- Bioinformatics Engineering
- Chemical Engineering

Career opportunities
You can pursue careers with pharmaceutical companies, hospitals, scientific research institutions in fields such as medical device manufacturing and biotechnology.

This degree is accredited by Engineers Australia.

Structure
Bachelor degree
+ 12 Master of Biomedical Engineering courses
+ 1 Free Elective
+ 60 days Industrial Training
Law & Justice

Tackle tomorrow’s big challenges by immersing yourself in the real-world application of law and justice. Sharpen your mind by exploring complex ideas and learn from a faculty that’s driven by an ethos of justice for all.

Study at a Law faculty ranked 13th in the world and 1st in Sydney.*

*QS World University Rankings by Subject 2021.

Graduate job-ready and navigate your career opportunities with dedicated support from a careers service that is exclusively for Law & Justice students.

Embody our ethos of justice for all and gain insight into the criminal justice system through real world experience.

For more information, visit law.unsw.edu.au

Career outcomes

- Barristers
- Criminologists
- Community Legal Practitioners
- Corporate and Commercial Lawyers
- Cyberspace and Security Specialists
- Environmental Lawyers
- Finance and Banking
- Foreign Affairs and Diplomatic Relations
- Global Financial and Development Advisors
- Human Rights Lawyers
- In-house Legal Counsel
- Intellectual Property and Copyright Lawyers
- International Business and Economic Law Specialists
- Prosecution and Corrections
- Policy Analysts and Political Advisors
- Pro Bono Legal Advisors
- Public Sector Managers
- Refugee and Immigration Advocates
- Solicitors
- Technology Lawyers
Join a top global law faculty
Ranked 13th in the world*, UNSW Law & Justice has been a leader in progressive and rigorous legal education and research for 50 years. We are also home to the highest-ranking Criminology program in NSW** with an above world standard rating.

*QS World University Rankings by Subject 2020
**Excellence in Research for Australia 2018

Benefit from interactive classes
Build confidence in your ideas and develop strong relationships with your teachers and peers in our small interactive classes. Our student-focused, interactive teaching environments give you the chance to ask questions, expand your ideas and sharpen your critical and analytical mind. Be part of an innovative learning environment that pioneered Australian legal education.

Join our societies
Form new friendships, excel in your studies and develop your professional skills and passion for social justice. UNSW Law Society is one of Australia’s most respected student-run law organisations while UNSW Criminology Society has a strong history advocating for social justice.

Extensive clinics and internships
Apply what you learn in the classroom to real life practice with the wide range of practical experiences available. From helping members of the local community at our on-campus community legal centre to undertaking a credit-based work placement at a criminal justice agency, our students put theory into practice.

Global opportunities
Add a global experience into your degree. You can do an exchange, an overseas elective course or an internship abroad. Overseas electives and exchange can take you to places like Brazil, China, India, Switzerland, USA or Vanuatu. There are more than 80 exchange destinations at leading law schools around the world.

Exclusive careers service
Secure a rewarding job at the end of your degree with support from our dedicated careers service. With extensive experience working as lawyers and criminologists in Australia and overseas, our careers team collaborates with employers, recruitment agencies and UNSW alumni to source and promote opportunities for students.

End-to-end legal education
Completing a Bachelor of Laws is your first step towards becoming a lawyer, followed by Practical Legal Training (PLT). All law graduates in Australia must complete PLT to practise as a lawyer. UNSW’s PLT is the Graduate Diploma in Legal Professional Practice (GDLPP), so you can graduate with all the qualifications you need to launch your legal career.

Step 1 – Complete your Bachelor of Laws (LLB).
Step 2 – Complete your GDLPP at UNSW*.
Step 3 – Apply to the Supreme Court for admission to practice.

For more information, visit law.unsw.edu.au/plt

*Important note for international students: This program is not CRICOS registered. International students will require a valid visa other than a student visa (e.g. a temporary graduate visa) to be eligible to apply to this program.
The Bachelor of Laws (LLB) is a double degree program, which means you pair your legal studies with a bachelor’s degree in a non-law field of study. This increases your understanding of the wider social implications of law. Our student-focused, interactive teaching approach emphasizes experiential learning to teach you analytical and practical skills needed in a wide range of careers.

Please note while there is no assumed knowledge for the Bachelor of Laws component of your double degree, there may be assumed knowledge for the non-law component. Please check with the relevant faculty for this detail.

Career opportunities
We prepare our students for successful careers not only in law but across a wide range of industries and professions including the arts, business, community service, diplomacy, education, engineering, financial services, media, science, urban planning, government and non-government organisations. Our graduates are highly sought after by major law firms, private and public sector institutions in key areas of legal practice including banking and finance law, commercial law, criminal law, intellectual property law, international law, litigation, media law and public and administrative law.

Professional recognition
As a graduate of a top 15 global law faculty, the UNSW Bachelor of Laws (LLB) gives you key to seeking admission to the legal profession. The UNSW LLB is accredited by the Legal Profession Admission Board (LPAB) and satisfies the academic component for admission to practice in the Supreme Court of NSW. In addition, in order to be admitted to practice you will also have to complete practical legal training (PLT) which you can do through UNSW’s Graduate Diploma in Legal Professional Practice (GDLP).

Certificates to practice as a solicitor or barrister are granted by the NSW Law Society and NSW Bar Association respectively.

To practice law in other countries you must satisfy the academic and accreditation criteria in the particular jurisdiction. Always refer to the relevant authority or admitting body in your home country, or the country where you intend to practise, regarding the recognition of the UNSW law degree for registration purposes.

Bachelor of Actuarial Studies/Bachelor of Laws

Program code 4737

Prepare yourself for the future of health and join a community focused on improving life for all.

You will research and make discoveries, build analytical and communication skills and develop a creative, open-minded approach to medicine and health.

Experience hands-on clinical training, interacting with patients and health professionals in some of Australia’s largest hospitals and health organisations, from the first year in many of our degrees.

Make a difference as you apply your skills to real patients and global health problems. Join a supportive community focused on improving health outcomes for everyone.

*Our Medicine students graduate with a Bachelor of Medical Studies and a Doctor of Medicine, launching them into their first year of on-the-job training. With further study and training, graduates can pursue careers in areas including general practice, surgery, endocrinology, paediatrics, obstetrics and gynaecology, pathology, ophthalmology, medical research and non-medical roles such as consulting.
Study the most in-demand degree

The Bachelor of Medical Studies/Doctor of Medicine is our most popular degree for aspiring medical professionals due to the quality of training by accomplished researchers, teaching staff and clinicians. Secure a place in this highly sought-after program to stand out from the pack and set yourself up for an exciting career in medicine.

Learn from leaders in the field

We’re driven by innovation and excellence in health and medicine. UNSW ranks 45th in the world for Medicine* and is among Australia’s leaders in medical education and research. Learn from world leaders in the fields of cancer, neuroscience, mental health, addiction, infectious disease, immunity and inflammation, and non-communicable disease including cardiovascular disease.

Access world class biomedical and clinical training facilities

Experience clinical training in some of Australia’s largest metropolitan and rural hospitals. You will benefit from UNSW’s leadership role in the Sydney Health Randwick Precinct. You will have access to cutting-edge learning environments, which use research to create positive impacts in the community.

Hands-on learning

Immerse yourself in hands-on learning with patient interactions from year one in many of our degrees. Your practical study will help you develop as a skilled health professional and innovative clinician with strong research and teamwork skills.
Bachelor of Medical Studies/Doctor of Medicine

This award-winning double degree is the most in-demand undergraduate degree for high school leavers in NSW. Starting with your first course, you’ll be learning in real hospitals* and within our state-of-the-art Clinical Skills Centre, gaining hands-on experience and vital clinical skills to tackle the constantly evolving and complex issues in the medical industry. You’ll become a life-long learner with a high level of professionalism and an outcomes-based approach to your practice.

Although the entire program needs to be completed, it can be broken down into two parts - the BMed and the MD components. The program consists of:

- Bachelor of Medical Studies (BMed)
  Collaborative learning and teamwork are cornerstones of the Bachelor of Medical Studies. Phase 1 begins with the Foundations course, which includes basic medical and social sciences examining the human life cycle, social, ethical and legal issues. You’ll also sharpen your clinical and communication skills from Phase 1. In Phase 2 you’ll have increased clinical exposure through hospital placements combined as well as ongoing learning in biomedical sciences.

- Doctor of Medicine (MD)
The MD includes the Independent Learning Project (ILP) or Honours followed by clinical courses with a clinical focus and includes relevant content from the biomedical sciences and the social sciences. When you complete these phases, you’ll receive a provisional registration so you can begin a hospital internship before obtaining final registration as a medical practitioner. Please note that international students are not guaranteed an internship position.

For further information on medicine entry visit med.unsw.edu.au/med-how-to-apply

Double degree options
- Arts

“Why I love about the medicine faculty, and UNSW as a whole, is that they really encourage you to become involved in student life and have a healthy study/life balance. There are so many different societies to join and new ones starting up all the time.”

Rashmi Jayathilake,
Bachelor of Medical Studies/Doctor of Medicine

Majors
- Medical Studies
- Doctor of Medicine

Professional recognition
After completing the formal degree requirements for the award of the BMed/MD degrees, you’ll be provisionally registered by the Medical Board of Australia to work for at least one year in selected hospitals in an internship before obtaining final registration as a medical practitioner. Please note that international students are not guaranteed an internship position.

(1) Applicants should apply earlier if possible, as places may fill prior to the closing date.
(2) ISAT tests are held from March until November. ISAT test result must be available before 30 November at the latest, however, earlier application is strongly recommended.
Bachelor of Exercise Physiology

Program code: 3971
CRICOS code: 066784A
Duration: 4 years
Entry: February
Estimated first year tuition: A$48,808
Units of credit (per year/total): 48/192
Assumed knowledge: Mathematics and Chemistry

Structure
- Exercise Science
- Exercise Physiology
- Clinical Practicum
- Research Internships

Play a vital role in the prevention and management of chronic disease and injury and pursue rewarding careers in a range of clinical work environments including public and private hospitals, aged care facilities, physical activity programs and workplace health and rehabilitation. You’ll benefit from expert training in the medical sciences and gain clinical practice within our faculty.

Majors
- Exercise Physiology

Career opportunities
Exercise Physiologists work in private practice, hospitals, medical clinics, or research in the area of exercise for the prevention and management of chronic disease such as musculoskeletal and neuromuscular disorders, and cardiopulmonary and metabolic conditions.

Graduates can also work as an Accredited Exercise Physiologist (AEP) in a gym or create their own business in the industry. This program can also prepare students for postgraduate studies in physiotherapy.

Professional recognition
The UNSW Bachelor of Exercise Physiology is accredited with Exercise and Sports Science Australia (ESSA) as the national governing body for the Exercise Physiology profession.

Upon graduation, you will be eligible for the dual ESSA qualifications of Accredited Exercise Scientist and Accredited Exercise Physiologist.

Bachelor of Vision Science

Program code: 3181
CRICOS code: 092962N
Duration: 3 years
Entry: February
Estimated first year tuition: A$47,760
Units of credit (per year/total): 48/144
Assumed knowledge: Mathematics, Chemistry, Physics and English

Structure
- Vision Science Core Courses
- General Education Non-Science Courses

Career opportunities
Vision Science is the study of the mechanisms that allow us to see the world. You will learn about the sensory processes that underlie vision and the development and use of vision-related technologies. This degree develops scientists who understand how we see and interact with our world. You’ll develop a deep understanding of a broad range of areas including sensation and perception, psychophysics, optics, anatomy and functioning of the eye, ocular–visual disorders, introductory pharmacology, visual aids and dispensing, the consulting room interface, research design and methods and experimentation.

Professional accreditation
Graduates of this program can register as an Optometrist in Australia.

Bachelor of Vision Science/Master of Clinical Optometry

Program code: 3182
CRICOS code: 092960A
Duration: 5 years
Entry: February
Estimated first year tuition: A$54,760
Units of credit (per year/total): 48/240
Assumed knowledge: Mathematics, Chemistry, Physics and English

Career opportunities
You can pursue a career as an optometrist, and develop interest and experience in paediatric optometry, contact lenses, public-health, sports vision or low vision rehabilitation. You can also seek careers in eye and vision research or as a consultant to ophthalmic industries.

Professional accreditation
Graduates of the program can register as an Optometrist in Australia.

Bachelor of International Public Health

Program code: 3080
Duration: 3 years (dual mode and online)
Entry: February, June and September
Estimated first year tuition: A$23,520
Units of credit (per year/total): 48/144
Assumed knowledge: English

Structure
- Introduction to Global and Public Health
- Core Public Health Disciplines
- Electives and Public Health Capstone (Project or Internship)

Want to address global health issues and join passionate health professionals working across borders? Unlike other Australian undergraduate public health programs, the Bachelor of International Public Health (BIPH) is internationally integrated with courses aimed at improving the health of populations worldwide. Courses focus on infectious disease challenges, Indigenous and environmental health, women and children’s health, and global chronic disease prevention. You will also complete a capstone experience in the final year. This may include the option of either an internship placement or research project.

You can study the BIPH entirely online so you can study from your home country, wherever you are in the world. You can also study select courses on campus and learn in a way that best suits you. The degree includes unique coursework from two of the world’s leading universities – UNSW Sydney and Arizona State University (ASU).

Career opportunities
Graduates will be equipped with essential skills for a career in international public or population health: epidemiology, health promotion, surveillance and disease prevention. That career could involve contributing to population health programs in local or state health departments, or designing and/or evaluating interventions to reduce the burden of disease while working in multinational and development agencies. You may be interested in pursuing a research career in public health or seek higher studies, such as a graduate medical program, a Master program or PhD.

Majors
- International Public Health

Bachelor of Vision Science practical learning environment
Think big and form deeper connections with our world. Allow your curiosity to be inspired as you discover your own path, exploring areas of science to acquire the skills needed for tomorrow’s workforce.

Tailor your degree at one of the largest and most diverse science faculties in Australia, where your choices include flexible double degrees and cross-disciplinary options.

Join a community of world-leading researchers and inspiring educators who are using science to improve lives and communities around the world.

Reach your career goals with industry relevant skills and training. Tap into our network of 400+ industry and research partners to start building your own professional connections.

**Estimated first year tuition**: A$42,360  
**Units of credit (per year/total)**: 48/192

**Assumed knowledge**  
Chemistry, Mathematics (depending on chosen area of study) plus one or more of Biology, Earth and Environmental Science, Physics.

**Majors**  
- Actuarial Studies  
- Agricultural Science  
- Agronomy  
- Bioinformatics  
- Biology  
- Biotechnology  
- Chemistry  
- Earth Science  
- Ecology  
- Food Science  
- Genetics  
- Geography  
- Immunology  
- Marine and Coastal Science  
- Materials Science  
- Mathematics  
- Microbiology  
- Molecular and Cell Biology  
- Neuroscience  
- Pathology  
- Pharmacology  
- Physiology  
- Psychology  
- Psychiatry  
- Vision Science

**Double degree options**  
- Arts  
- Commerce  
- Computer Science  
- Economics  
- Engineering (Honours)  
- Fine Arts  
- Law  
- Music  
- Social Science

**Structure**

- Science Electives  
- Directed Electives  
- Free Electives (from any faculty at UNSW)  
- Language Minor

Scientists today need to be experts in their field and work collaboratively with scientific professionals around the world. This degree focuses on a Science major combined with cross-cultural skills, knowledge and understanding. It includes subsidised study overseas at a UNSW partner university.

**Career opportunities**  
This is a flexible degree with a broad range of career options you can pursue in Australia and overseas. You can be employed in a variety of science and technology based roles in management, research, communications and policy development within international government and non-government organisations, and private sector companies.

**Majors**

- Agriculture  
- Bioinformatics  
- Biology  
- Biotechnology  
- Chemistry  
- Earth Science  
- Ecology  
- Food Science  
- Genetics  
- Geography

Bachelor of Aviation (Flying)

Program code 3980
CRICOS code 07527J
Duration 3 years
Entry February and September
Estimated first year tuition $547,760 (does not include flying fees)
Units of credit (per year/total) 48/144
Assumed knowledge Mathematics

Structure
Aviation Flying Core Courses
+ General Education
Non-Science Courses

Important Information
- You will need to pay for the flight training costs portion of this degree. In 2022, the anticipated standard cost of flight training to obtain the minimum of a Commercial Pilot License (CPL), Instrument Rating, Multi Engine Airplane, and ATPL (Frozen) is $319,500 (some elective fees and extra flying fees may apply). Additional flying costs are incurred depending on your choice of third-year flying practicum and if more than the 200 flight hours are required to achieve proficiency in any aspect of the flight training.
- Admission: In addition to your ATAR (or equivalent), Aviation (Flying) requires an internal application directly to and interview with the UNSW School of Aviation. If successful, you'll need to obtain a Class 1 Civil Aviation Authority (CASA) medical examination before flying training commences in your second year.

Career opportunities
- Aircraft Dispatcher, Flight Crew Manager and Airport or Fleet Planner.
- Flight Safety Investigator, Aviation Revenue Scheduler, Aviation Consultant, Flight Analyst, Airfreight Manager, Airport Planner, Flight Crew Manager and Airport or Fleet Planner.
- This degree is professionally recognised.

Career highlights
- Work as a pilot for major commercial airlines, training centres, charter flights or as an aerial surveyor.
- You'll make informed decisions and address business challenges.

Program code 3982
CRICOS code 08165J
Duration 3 years
Entry February, June and September
Estimated first year tuition $547,760
Units of credit (per year/total) 48/144
Assumed knowledge Mathematics

Structure
Aviation Management Core Courses
+ Aviation Elective Courses
+ Free Electives
From any faculty at UNSW
+ General Education
Non-Science Courses

Double degree options
+ Commerce

Career opportunities
- Business Analyst, Data Scientist, Data Engineer, Business Analyst, Data Scientist, Data Engineer, Data Analyst, Data Manager, Data Architect, Database Administrator, Forecast Modeler, Reporting Analyst, Statistician and University Educator.

Bachelor of Biotechnology (Honours)

Program code 3853
CRICOS code 088871C
Duration 4 years
Entry February, June and September
Estimated first year tuition $547,760
Units of credit (per year/total) 48/142
Assumed knowledge Mathematics and Chemistry

Structure
Biotechnology Core Courses
+ Biotechnology Elective Courses
+ Free Electives
From any faculty at UNSW
+ General Education
Non-Science Courses
+ 1 Year Honours

Career opportunities
- Biotechnologists work at the forefront of pharmaceuticals, food, industrial chemicals, crop and livestock farming, environmental clean-up and forensics.

Program code 3925
CRICOS code 09224A
Duration 4 years
Entry February, June and September
Estimated first year tuition $547,760
Units of credit (per year/total) 48/142
Assumed knowledge Mathematics

Structure
Data Science Core Courses
+ Major
+ Free Electives
From any faculty at UNSW

Double degree options
+ Law

Program code 3959
CRICOS code 091885L
Duration 3 years
Entry February and September
Estimated first year tuition $547,040
Units of credit (per year/total) 48/144
Assumed knowledge Mathematics

Structure
Data Science Core Courses
+ Major
+ Free Electives
From any faculty at UNSW
+ General Education
Non-Science Courses

Career opportunities
- From industries as varied as health, defence and finance, to agriculture, media and technology, there is a growing reliance on data science professionals to deliver meaningful business insights. Upon graduation you'll be able to pursue a career as a Business Analyst, Data Scientist, Data Engineer, Data Analyst, Data Manager, Data Architect, Database Administrator, Forecast Modeler, Reporting Analyst, Statistician and University Educator.

Majors
- Business Data Science
- Computational Data Science
- Quantitative Data Science

As billions of devices feed data to central databases, businesses and governments require experts to interpret that data. In this degree you'll gain the theoretical and practical skills required to unlock insights within data to help make informed decisions and address business challenges. Your education will combine mathematical methods, statistics, computing and business decisions with essential communication skills so you can effectively interpret and present data.

Bachelor of Data Science and Decisions

Program code 3999
CRICOS code 092979A
Duration 3 years
Entry February, June and September
Estimated first year tuition $547,760
Units of credit (per year/total) 48/142
Assumed knowledge Mathematics

Structure
Data Science Core Courses
+ Major
+ Free Electives
From any faculty at UNSW
+ General Education
Non-Science Courses

Double degree options
+ Law
Bachelor of Environmental Management

Program code: 3065
CRICOS code: 080868A
Duration: 3 years
Entry: February, June and September
Estimated first year tuition: A$47,760
Units of credit (per year/total): 48/144
Assumed knowledge: Mathematics, Biology plus Chemistry (depending on area of study)

Structure
- Environmental Management
- Core Courses
  - Major
  - Elective Courses
  - Free Electives (from any faculty at UNSW)
  - General Education
- Non-Science, Courses

Majors
- Biology
- Earth Science
- Ecology
- Environmental Chemistry
- Geography
- Marine and Coastal Science

Career opportunities
You can work as an Environmental Consultant, Policy Developer or Researcher within industry or government. Potential employers may include National Parks and Wildlife Service or the Environmental Protection Authority.

Double degree options
- Arts

Bachelor of Life Sciences

Program code: 3966
CRICOS code: 081098B
Duration: 3 years (+ 1 year Honours option)
Entry: February, June and September
Estimated first year tuition: A$47,760
Units of credit (per year/total): 48/144
Assumed knowledge: Mathematics plus one or more of Biology and Chemistry

Structure
- Major
  - Science Electives
  - Free Electives (from any faculty at UNSW)
- General Education
  - Non-Science, Courses

Majors
- Anatomy
- Biology
- Biomedical Chemistry
- Botany
- Ecology
- Genetics
- Immunology
- Marine and Coastal Science
- Microbiology
- Molecular and Cell Biology
- Pathology
- Pharmacology
- Physiology
- Psychology

- The Lowest ATAR to which an offer was made, for this program, is based on a UNSW Gateway Early Conditional Offer.

Career opportunities
Open the door to a wide range of careers with a degree in Life Sciences. Work in conservation and government organisations, and across commercial industry in medical, pharmaceutical, chemical, food and beverage companies.

Bachelor of Materials Science and Engineering (Honours)

Program code: 3131
CRICOS code: 088873A
Duration: 4 years
Entry: February, June and September
Estimated first year tuition: A$47,850
Units of credit (per year/total): 48/192
Assumed knowledge: Mathematics and Physics

Structure
- Materials Science Core Courses
  - Major
  - Professional Electives
  - 1 Year Honours
  - General Education: Non-Science And Engineering Courses

Majors
- Ceramic Engineering
- Functional Materials
- Materials Engineering
- Physical Metallurgy
- Process Metallurgy

Double degree options
- Commerce
- Engineering Science in Chemical Engineering
- Master of Biomedical Engineering

Professional Accreditation
This degree is accredited by Engineers Australia.

Bachelor of Medical Science

Program code: 3991
CRICOS code: 083040K
Duration: 3 years (+ 1 year Honours option)
Entry: February
Estimated first year tuition: A$47,850
Units of credit (per year/total): 48/144
Assumed knowledge: Mathematics and Chemistry

Structure
- Medical Science Core Courses
  - SCF1111
  - Medical Science Electives
  - General Science Elective
  - Free Electives (from any faculty at UNSW)
- General Education
  - Non-Science Courses

Majors
- Human Anatomy
- Human Pathology
- Medical Immunology
- Medical Microbiology
- Medical Pharmacology
- Medical Physiology
- Molecular Biology
- Molecular Genetics
- Neurobiology

Career opportunities
You can work in fields such as medical research, paramedical professions, health policy, medical laboratory science, pathology and forensic science, patents and intellectual property, market research and product development, and in pharmaceutical and biotechnology industries.

Medical Science is the foundation that the practice of medicine is built on. Medical science uncovers how the body functions - reactions to disease, drugs, treatments, and the role of genetics. The degree can prepare you for a career in biomedical research and graduate medical or paramedical studies.

Career opportunities
You can work in fields such as medical research, paramedical professions, health policy, medical laboratory science, pathology and forensic science, patents and intellectual property, market research and product development, and in pharmaceutical and biotechnology industries.

Majors
- Human Anatomy
- Human Pathology
- Medical Immunology
- Medical Microbiology
- Medical Pharmacology
- Medical Physiology
- Molecular Biology
- Molecular Genetics
- Neurobiology
Bachelor of Psychological Science

Program code 3405
CRICOS code 07228A
Duration 3 years
Entry February and September
Estimated first year tuition A$47,760
Units of credit (per year/total) 48/144
Assumed knowledge Mathematics

Structure
Psychology Core Courses
+ Optional Complementary Major
+ Free Electives (from any faculty at UNSW)
+ General Education Non-Science Courses

Psychology has rapidly become one of the most relevant fields of study for clinicians and corporate professionals. This degree combines an accredited three-year degree in Psychology with a complementary major in related areas including marketing, human resource management, criminology, linguistics, philosophy, vision science and neuroscience.

Career opportunities
Psychologists are employed in a broad range of areas including advertising, counselling, developmental care, community and occupational health, management consultancy, human resources, recruitment, training and development, industrial relations, banking, journalism, marketing, business, and criminal management, statistical and data analysis.

Double degree options
• Law

Bachelor of Science (Advanced Mathematics) (Honours)

Program code 3658
CRICOS code 08843G
Duration 4 years
Entry February, June and September
Estimated first year tuition A$47,760
Units of credit (per year/total) 48/144
Assumed knowledge Mathematics

Structure
Major
+ SCIF1131
+ Science Electives
+ Free Electives (from any faculty at UNSW)
+ General Education Non-Science Courses
+ 1 year Honours

Are you a high achiever with a keen mind wanting to specialise in mathematics? If you're interested in the increasing range of quantitative careers in areas such as finance and environmental modelling, this degree offers a strong foundation. The four-year degree combines advanced coursework with an Honours-level research project.

Career opportunities
You will be able to pursue professional opportunities in banking, insurance and investment, environmental modelling, oceanography, meteorology, computing, information technology, government, education and research.

Double degree options
• Actuarial Studies
• Arts
• Commerce
• Computer Science
• Economics
• Engineering (Hons)
• Law

Bachelor of Science (Honours)

Program code 3632
CRICOS code 088574R
Duration 4 years
Entry February
Estimated first year tuition A$47,760
Units of credit (per year/total) 48/142
Assumed knowledge Mathematics

Structure
Psychology Core Courses
+ Psychology Electives
+ Free Electives (from any faculty at UNSW)
+ General Education
+ Non-Science Courses
+ 1 year Honours

Understand the inner workings of our minds and behaviour with a degree in Psychology. Your study will include memory, learning, cognition, perception, neuroscience, and abnormal psychology. Gain an integrated and comprehensive understanding of the main discipline areas of psychology while developing strong research, analytical and communication skills.

Career opportunities
You can work in a range of organisations as a psychologist within the public and private sector, such as counselling, developmental care, public, community and occupational health, management consultancy, human resources, recruitment, training and development, industrial relations, banking, journalism, marketing, business and retail management and statistical and data analysis.

Double degree options
• Law

Bachelor of Psychological Science

Program code 3655
CRICOS code 08584B
Duration 4 years
Entry February
Estimated first year tuition A$47,760
Units of credit (per year/total) 48/142
Assumed knowledge General Education Non-Science Courses

Explore biochemistry, pharmacology and essential chemistry techniques in this multidisciplinary degree. Your study will encompass all aspects of new drug design and development, from concept to clinic stages. In your Honours year, you’ll complete a supervised research project.

Career opportunities
You’ll have the skills in modern molecular biology and pharmacology, supported by a comprehensive background in chemistry, with relevant synthetic skills necessary for synthesising complex drug candidates. You’ll be needed in local and global pharmaceutical companies involved in modern drug design, as well as in research, government and education sectors.

Double degree options
• Law

Professional accreditation
This is an Australian Psychology Accreditation Council (APAC) accredited 3-year undergraduate sequence in Psychology. This degree is the first step on the six-year pathway to becoming a registered professional psychologist.

### Important information regarding UAC

- The minimum entry requirements for the International Foundation Year programs of all Australian universities are listed on the UAC website at uac.edu.au/international. For further information or if you have questions, please contact the Academic Director. Results should be printed on official school letterhead and signed by the Principal, Registrar or Head of School. Evidence of successful completion of high school or equivalent must be presented at the time of offer acceptance.

- For students who have completed a qualification not listed on the recognition tables, please contact the Admissions Office to determine if your qualification will be accepted by UNSW.

- Application information is available at apply.unsw.edu.au. Your UAC application number and UAC PIN can be found on your UAC admission statement.

- The full list of all types of qualifications accepted by UNSW can be found at apply.unsw.edu.au/qualifications.

- For more information, please contact the Admissions Office on 1300 306 373 or email uac-enquiries@unsw.edu.au.
Entry requirements

To gain entry to UNSW, you will need to meet both the academic entry requirements and the English language requirements.

**Academic entry requirements**

High school studies

Direct entry applicants to UNSW must hold acceptable high school qualifications for admission. At a minimum, you must have a qualification considered equivalent to a Year 12 qualification (completion of high school) in Australia. Some of the qualifications UNSW accepts are listed on pages 100-103. If your qualification is not listed, contact us to check whether it is recognised. [enquiry.unsw.edu.au](http://enquiry.unsw.edu.au)

UNSW Global pathway programs

UNSW Global offers pathway programs for international students who do not meet the entry requirements for a UNSW degree program, or whose high school qualifications are not recognised by UNSW.

The following table outlines some common English qualifications. UNSW also accepts a number of English language tests and English preparation courses which can be undertaken to meet the university’s English language requirements.

For further information about UNSW’s English language requirement policy, visit [unsw.edu.au/elp](http://unsw.edu.au/elp)

**Contact us**

UNSW Sydney

NSW 2052 Australia

T +61 2 9385 1844

W [enquiry.unsw.edu.au](http://enquiry.unsw.edu.au)

**Recognised prior study**

Prior study can be recognised for applicants with diplomas from recognised institutions. Entry is based on academic achievement during your studies. If you intend to use a diploma or equivalent as a pathway to UNSW, we recommend you confirm accreditation before committing to a program. To confirm whether your study can be recognised, visit [enquiry.unsw.edu.au](http://enquiry.unsw.edu.au)

Improve your English language skills

Prepare for success at UNSW and your global career
UNSW Global’s English pathway courses are designed to help you improve your skills so you can meet the English language requirements for a UNSW degree. You will learn English language skills for success at university and in your global career. If you want to study an undergraduate or postgraduate degree, there’s an English pathway for you.
For more information, visit unswglobal.unsw.edu.au/English

Why study an English pathway at UNSW Global?
• Flexibility with a range of courses at different levels to suit your needs.
• Study at Australia’s first university languages centre.
• Learn from 50 years of experience in language teaching.
• Access world-class university facilities and social surroundings and study on UNSW Sydney campus.

English pathway options
University English Entry Course (UEEC)
UNSW Global’s University English Entry Course will help you meet the UNSW English language entry requirements. Depending on your current level of English, you may need to complete a 10, 15 or 20-week course.
For more information, visit unswglobal.unsw.edu.au/ueec

Tertiary Orientation Program (TOP)
UNSW Global’s Tertiary Orientation Program (TOP) is a 5-week course that helps you prepare for Australian university culture, understand university requirements and develop academic English skills for success at university. You need to have achieved an IELTS 6.5 or equivalent, and have a full offer from UNSW to be eligible for this course.
For more information, visit unswglobal.unsw.edu.au/top

For more information on how to apply, visit unswglobal.unsw.edu.au/apply or contact UNSW Global’s admission office, admissions@unswglobal.unsw.edu.au

English Language Programs CRICOS Provider code 01020K, University English Entry Course CRICOS course code 080692D, Tertiary Orientation Program CRICOS course code 084609E UNSW Global CRICOS Provider Code 01020K
How to apply

› Step 1
Choose your program
Choose your program at degrees.unsw.edu.au or from the pages of this guide and make a note of the program code.

› Step 2
Check your entry requirements
You need to meet your chosen program’s entry requirements (see from page 32 for the requirements specific to your program). You also need to meet UNSW’s English language requirements (see page 108 or visit unsw.edu.au/elp).

› Step 3
Submit your application online
Submit your application at UNSW Apply Online, apply.unsw.edu.au. Click ‘Register now’ and fill out your details. Upload your supporting documents and pay your application fee.

› Step 4
Track your application
Once you have submitted your application you will be able to easily track its progress via your Apply Online account. You will also be able to upload any additional documents we need.

Once you have provided all the necessary documentation, it should take two to three weeks for UNSW to assess your application.

› Step 5
We will send you a letter of offer
We will notify you of the outcome of your application via email. If your application is successful, you will receive a full offer, or a conditional offer if more steps are required. If you are receiving assistance with your application, your nominated agent will also receive a copy of the email.

› Step 6
Accept your offer
If you receive a full offer, you will also receive an email with a link to your personalised offer page. Your page will guide you through the process of accepting or deferring your offer. Once you have accepted and paid your deposit, you will receive an electronic Confirmation of Enrolment (eCoE).

› Step 7
Enrol online
Once enrolment for your degree is available, you can enrol in your degree and courses online at Accept Online, acceptance.unsw.edu.au.

Need help?
If you have any questions regarding your application, go to enquiry.unsw.edu.au

Other ways to apply
You can also apply to UNSW at a conference or event where we’re attending, or through a UNSW agent located in your country. Find out more at unsw.edu.au/study.

Application deadline
You should submit your completed application as early as possible to ensure it will be processed in time for your preferred term. Some high-demand programs such as Engineering, and faculties with limited places such as Medicine, may have an earlier application deadline or may have an earlier commencement date.

For more information go to applyonline.unsw.edu.au

How to apply for a scholarship

A wide range of scholarships are available for international students.

UNSW undergraduate scholarships
UNSW scholarships for international students provide financial support to cover some of the costs associated with your study. Scholarships recognise students who demonstrate academic achievement or other outstanding qualities such as leadership skills or contributions to the wider community. To be considered for a scholarship, you must submit a separate application in addition to your admission application.

Other scholarship providers
There are many scholarships offered by organisations other than UNSW including the Australian Government, industry partners and organisations in your home country.

Australian Government scholarships
Australia Awards are international scholarships and fellowships funded by the Australian Government offering the next generation of global leaders an opportunity to undertake study, research and professional development. For more information, visit australiawards.gov.au.

› Step 1
Search
Visit scholarships.unsw.edu.au. Make sure you select ‘International’ in the residency search box to see the list of scholarships available to you.

› Step 2
Register
Before applying for your chosen scholarship, first register an account by following the instructions on the page. You need to have lodged an application for admission at UNSW to be able to register and apply for a scholarship.

› Step 3
Apply
To apply, log in using your registered login and password. Double check the requirements as some scholarships may have specific questions or require supporting documentation.

› Step 4
Submit
Submit your application by the due date. Don’t forget to check the website regularly for application deadlines and updates.

Please check our website regularly for any new scholarships that may become available. For more information about UNSW Scholarships, visit scholarships.unsw.edu.au.
Tuition fees for undergraduate degrees

* Indicative fee only.

Because each student’s study choices are different, it’s impossible to provide a definitive cost of studying at UNSW. Here are a few things to consider when calculating your expected fees.

**Fees are course-based**

Fees for international students are set according to the course (subject) and not the program. The fees reflect the relative cost of delivering the course and are calculated per unit of credit (UOC). For example, a science course is likely to cost more than an arts course. Therefore, your total tuition fees will vary depending on which courses you choose.

**Fees vary each year**

Fees for courses (subjects) change from year to year. The tuition fees above are for students commencing in 2021. The fees for 2022 are indicative only; fees may change during the program. Actual fees for 2022 will be released in late 2021.

Visit [student.unsw.edu.au/fees/international](http://student.unsw.edu.au/fees/international)

Fees are charged based on the year of commencement

For example, if you start in Term 3 (September) 2021, the fees for the first term will be calculated at 2021 rates. Your second term (i.e. Term 1 2022) will be calculated at 2022 rates. If you’re required to complete a course again, you will be charged at the rate applicable to the year you re-take the course.

**Estimating your tuition fees**

While it isn’t possible to give a fixed annual fee for each program, it’s possible to provide an estimate. Estimates for each program are outlined in the undergraduate degrees section, starting on page 32. You can also calculate your own expected fees on the following page. Most programs will require 48 units of credit (UOC) per year. Most courses (subjects) are 6 UOC. General Education course fees are charged at the rate set by the relevant faculty. As an example, GENT0803 – Introduction to Australian Cinema will be calculated using the Faculty of Arts, Design & Architecture – Arts rate.

For more information about the UNSW fees policy, including refund of fees and overpayments, visit [student.unsw.edu.au/fees/international](http://student.unsw.edu.au/fees/international)

</tbody>
</table>

*Indicates fees only.

Other study-related costs
Some programs and courses have costs which are additional to the tuition fees, such as costs relating to laboratory kits, equipment, and field trips. Textbooks are not considered compulsory, but we recommend budgeting around AUD$1,000 per year for books. An estimate of your total costs (tuition and other study-related costs) will be shown on your Confirmation of Enrolment Form (CoE) that will be issued on acceptance of an offer of admission to UNSW.

Living costs
Living costs vary depending on each student’s requirements. We estimate a single international student will need a minimum AUD$22,000 per year to cover general living expenses. This does not include the costs of large non-essential items like electrical equipment or a car. In addition, you will need at least AUD$2,000 when you arrive in Sydney to cover initial expenses such as a rental bond payment (security deposit), electricity, gas, and telephone connection fees, and basic furniture and household items.

For more information, visit studyinaustralia.gov.au/global/live-in-australia/living-costs

Overseas student health cover
If you’re in Australia on a student visa you will need to pay for health insurance through the Overseas Student Health Cover (OSHC) scheme and maintain insurance for the duration of your visa.

All international students must be covered by health insurance from the date they arrive in Australia until the date they depart, regardless of when they start or complete their program. It is your responsibility to ensure your health insurance policy matches your arrival and departure dates.

The only exception is for students from Belgium, Norway, and Sweden who are covered by CSN or Kammarkollegiet. These students will need to provide proof of official health insurance cover from their home government provider.

There are five registered providers of OSHC
The five registered providers are Medibank Private (UNSW’s preferred overseas student health cover provider), Allianz Global Assistance, BUPA Australia, NIB Health Funds Ltd and Australian Health Management. Medibank OSHC will pay benefits towards your medical and hospital treatment, medically necessary ambulance transport and most prescription medicines. Be aware that there may be some exclusions for pre-existing conditions, and you may have to serve a waiting period to receive some services. Some services are not covered by Medibank’s policies. These include optical, physiotherapy, dental and some pharmaceuticals. If you want to be covered for these expenses, you will need to take out additional insurance.

United States financial aid
We are authorised by the United States (Department of Education to administer Federal Direct Loans for eligible students studying at UNSW. If you are eligible for this support, the UNSW Financial Aid Office will be able to help you with your application.

For more information, visit international.unsw.edu.au/for-us-students

International student loans
If you are from Canada, Sweden, Norway, Denmark, or the UK and have applied for a student loan or grant from your home country, we can help you certify your enrolment at UNSW.

Please send the Certification Form to financialaid@unsw.edu.au

For more information, visit international.unsw.edu.au/financial-aid

COVID-19 information for future students
UNSW is committed to providing you with a world-class education both online and in person. We have transitioned our courses to online teaching and replicated as many aspects of our campus community as possible into the virtual space for times where travel restrictions apply.

As a potential future student, this means you can commence your studies at UNSW no matter where you are in the world and then join us on campus when possible. If you do commence your studies outside of Australia, in most cases, you will find your core compulsory courses are offered online and you will have a choice of elective options. However, there are some programs with components that cannot be completed remotely. This may be due to the need for specialist equipment, or in some cases, because of the requirements of external accrediting organisations. If you wish to study one of these programs remotely, your graduation may be delayed depending on when you are able to travel to Australia.

Similarly, UNSW has worked to develop appropriate processes and support for Work Integrated Learning (WIL) placements to be conducted remotely in a work at home capacity if you commence your studies outside of Australia. However, in some circumstances, it may not be complete WIL placements remotely. This may be due to the need for on-campus clinical placements, adequate insurance cover or, in some cases, because of an external accrediting organisation requiring the placement to take place in Australia.

If you do commence your studies outside of Australia, you must travel to Australia once travel restrictions are lifted to complete the remainder of your program. UNSW recommends that you apply for a student visa as soon as possible. If your application for a student visa is refused and you are unable to complete your degree program, you will be granted a refund of any unspent portion of your deposit. No refund can be granted for tuition fees for courses already completed, or for courses you remain enrolled in after the census date.

For more international student information UNSW’s response to COVID-19, visit covid-19.unsw.edu.au/information-students

Deferrals, suspensions and cancellations
If you have a UNSW offer in a certain term and wish to defer (i.e. delay commencing to a future term), please visit student.unsw.edu.au/enrol as soon as possible and before the commencement date stated on your offer. The University can suspend or cancel your enrolment for a number of reasons including misbehaviour and unsatisfactory academic progress. For more information please visit student.unsw.edu.au/academic-progression-international-students. Please note that any deferrals, suspensions or cancellations may affect a student visa or visa application.

Importantly, this information about online/distance learning for Student Visa Holders & United States Federal Direct Loan recipients
UNSW prides itself on being able to offer you flexible study options when you plan your course enrolment. Your student visa places certain limitations on the total number of Units of Credit (UOC) you can undertake online or by distance during your program and during each compulsory study period.

• 67% or more of your total program must be completed in a face-to-face setting.
• You must enrol in at least one face-to-face course in each compulsory study period.

If you are a US citizen or eligible permanent resident and are planning on using US Federal Direct Loans, you cannot undertake any online or distance courses to remain eligible for federal student aid.

Due to the COVID-19 situation the limitations on the total number of UOCs you can undertake online or by distance study have temporarily been relaxed for Student Visa Holders and US Federal Direct Loan recipients. UNSW will provide further updates once these temporary measures are lifted.

For more International student information on UNSW’s response to COVID-19, visit covid-19.unsw.edu.au/information-students

DISCLAIMER: UNSW programs, courses and any arrangements for programs and fees including staff allocated, as stated in the guide or any other University publication, announcement or advice of the University, are an expression of intent only and are not to be taken as a firm offer or undertaking. The University reserves the right to make alterations to any matter contained within this publication without notice. Information in this Guide is accurate as of April 2021, but may be amended without notice by the University. All costs and fees are quoted in Australian dollars (AUS$). Any agreement with the University does not remove the right to take action under Australia’s consumer protection laws.

COMPLIANCE: The Education Services for Overseas Students (ESOS) Act 2000 sets out the legal framework governing delivery of education to overseas students studying in Australia as a student visa. A degree granted by a university is an education service for overseas students and complies with the ESOS Framework and the National Code of Practice for Registration Authorities and Providers of Education and Training to Overseas Students 2018 (The National Code).

For a description of the ESOS framework, visit domestic.unsw.edu.au/academic-progression-international-students
We look forward to welcoming you

From social clubs to the classrooms, you’ll uncover your true potential through life-changing experiences and a career-focused education from a global top university. Now, more than ever, the world needs people committed to making a difference. People ready to explore, question, research, challenge and lead. The world needs you.

From university to real-world impact
Khushaal chose to study with UNSW Law because of the importance it placed on social justice. As a graduate lawyer, he’s taking the first steps to build a career through which he’ll be able to tackle the issues he’s passionate about and make a real difference.

Can’t want to join us?
Get a sneak peek at what it’s like studying at UNSW by joining one of our many events. See the events schedule at experience.futurestudents.unsw.edu.au/international. Or you can take a tour of UNSW campuses right now with a 360 degree virtual tour.

Scan the QR code and watch alumnus Khushaal Vyas’s story.
