# FIVE STARS

Five stars for learning resources, student-staff ratio and skills development

The Good Universities Guide 2018

**2,486**

staff

**25,471**

students

**98,190**

alumni in 117 countries

**4,815**

international students from more than 90 countries

**3,287**

onshore international students

**1,529**

offshore international students

Staff, student and enrolment numbers are preliminary figures based on 2017 data and subject to change.

Flinders has produced 5 Rhodes scholars (1986, 2000, 2001, 2010, 2017).

Study at South Australia's most spectacular natural campus.

Join a global community and make friends with people from all around the world.

Flinders is the only university in Adelaide that gives you the opportunity to live on campus.

Established in 1966 on the lands of the Kaurna nation.

Our namesake is British navigator and cartographer Matthew Flinders.

**Based in Adelaide, Australia**

We are delighted that you're considering Flinders University to begin your exciting journey of studying in Australia.

As a Flinders international student, you'll receive a world-class education that will equip you to achieve all you aspire to, wherever in the world that may be.

From day one, Flinders University encourages you to explore new ideas and discover what inspires you.

We're constantly creating an environment rich with possibilities, where your ambitions are supported and sustained.

Relevant, real-world research drives what you learn in the classroom, and our strong industry links give you the experience that can accelerate your career. Flinders lecturers and academics are leaders in their fields, dedicated to helping you reach your potential.

Flinders has a diverse community of students from more than 90 countries, and values the global perspective that you and your peers bring. That global focal point is further reinforced by our strong links with universities and research institutions worldwide.

When you choose Flinders, you're choosing outstanding student support networks, modern study resources, and lecturers who genuinely care about your learning. We give you the confidence to grow, learn and have an extraordinary university experience.

We look forward to welcoming you to Australia and Flinders University, where you can achieve the extraordinary.

**Professor Colin Stirling**  
Vice-Chancellor and President  
Flinders University

# Gearred for careers

A university degree provides you with more job options. But a Flinders degree prepares you for a satisfying career.

[flinders.edu.au/international](http://flinders.edu.au/international)

**Flinders has forged strong relationships with numerous industry partners locally and internationally. This means that what you learn is relevant to the real world and makes you job-ready. Our degrees are connected to industry, with many professionally accredited by independent industry bodies.**

You will gain specialised skills and knowledge in your chosen area while developing portable qualities like independent thinking, communication, collaboration, ethics and creativity – qualities shared by innovators, entrepreneurs, pioneers, creators and trailblazers.

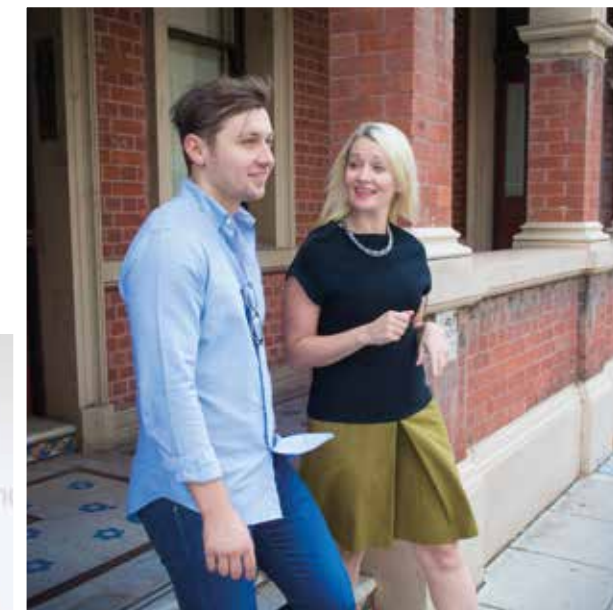

Whether you would like to excel in a profession, pursue research that makes a difference, or forge an entirely new path, Flinders gives you the confidence to achieve your ambitions. It all starts with a Flinders degree.

**Rated no. 2 in Australia for work experience**

International Student Barometer 2016

*"As well as help with my résumé, cover letters and networking opportunities, it's been great to hear some first-hand experiences from the workplace."*

**Greg Wolszczak**  
Bachelor of Laws and Legal Practice student  
Ignite Mentoring Program participant

## Work-Integrated Learning

Work-Integrated Learning (WIL) enables you to gain work experience while you study. Flinders aims to provide each and every student with access to a WIL opportunity during their studies through placements, practicums, field studies, and simulated workplace settings and assessment activities.

## Careers & Employability Service

The Careers and Employability Service helps give you the edge in your career. CareerHub, our online employment portal, helps you prepare for and find the job you want. It's your one stop shop, offering personalised job opportunities, and access to employer events and career-related resources.

## Mentoring

The Flinders Ignite Mentoring Program allows you to choose your own career mentor to assist you in getting ready for the transition from study to employment. The program enables you to expand your professional networks, develop your skills and prepare for your future career.

## Working in Australia

The Australian Government allows international students to work up to 40 hours per fortnight, and full-time during semester breaks. Work rights are granted automatically when you receive your visa.

*"The best thing about studying at Flinders is gaining real life experience, and implementing those experiences wherever you may work."*

**Vinh Tran**  
Bachelor of Business  
Vietnam

**No 2**

# GOING BEYOND STARTS WITH **THINKING BEYOND**

**TURBO CHARGE YOUR CAREER WITH FLINDERS' NEW INNOVATION AND ENTERPRISE PROGRAMS, POWERED BY THE FOX SCHOOL OF BUSINESS IN THE US.**

## A DYNAMIC LEARNING EXPERIENCE EMPOWERING YOU TO THINK BIG.

### FLINDERS UNIVERSITY OFFERS STUDENTS THE OPPORTUNITY TO EMBED INNOVATION AND ENTERPRISE TOPICS WITHIN THEIR DEGREE.

*Around 70 per cent of young Australian graduates are starting their careers in roles that will substantially change or be obsolete in the next 10 to 15 years\*.*

*At Flinders, we prepare you for the careers of tomorrow, providing you with the 'personal enterprise' skills to be ready for the five career changes and 17 different jobs\* you are likely to have over your lifetime.*

We recognise that careers are evolving and the workplace of the future will look very different from today's. That's why we're constantly fine-tuning our degrees to empower you to create the jobs of the future.

The innovation and enterprise suite is powered by Fox School of Business at Temple University, a US top-ten university for entrepreneurship\*\* and cutting-edge online teaching. Each topic is embedded with the philosophy of the Flinders New Venture Institute, our entrepreneurial arm. Innovation and enterprise topics can be undertaken with any degree at any time to unlock your career potential.

By providing you with the skills necessary to enhance your creativity, understand and embrace innovation, and think like an entrepreneur, we'll prepare you for graduate success. You'll gain an understanding of the forces of disruption, using new technology and business models to succeed in the industries of today, and challenge the industries of tomorrow.

Expand your learning experience and excel in a future that will be automated, globalised and collaborative by adding innovation and enterprise expertise to your skillset.

Postgraduate courses are immersive, intensive, and aimed at creating leadership in innovation. As nested degrees, each leads you to the next level, or you can enter at masters level directly.

## TOPICS

- **Innovative and Creative Thinking:** Recognising opportunities
- **Collaboration, Co-Creation and the Crowd:** Leveraging & Managing our Ecosystem for Innovation
- **Innovation for Social Impact:** Doing Good While Doing Well GE
- **From Intuition to Insight:** Validating Desirability, Feasibility and Viability
- **From Innovation to Impact:** Creating a Roadmap from Opportunity to Action
- **People First:** Embedding Innovation into the Organisational DNA
- **Going Live!** Entrepreneurial Strategies, Resources and Activities
- **Strategic Innovation:** Optimising the Innovation Portfolio

# Connected with industry

Flinders has forged strong relationships with industry partners locally and internationally.

Some of the many important industry and project-based partnerships Flinders has formed include:

## Business

### Australian Fashion Labels

Australian Fashion Labels is a top fashion apparel company based in Adelaide, with over 3,000 stockists worldwide and international offices in Los Angeles and Shanghai. Flinders Business students can undertake work placements and gain hands-on experience in public relations, social media, international marketing and accounting.

## Creative Arts & Digital Media

### CDW Studios

Flinders offers courses in collaboration with CDW Studios, providing training in visual effects and entertainment design. Students learn from leading industry professionals who have worked with companies such as Disney, Blizzard Entertainment, Rising Sun Pictures, WETA, Wizards of the Coast and Lego. Flinders and CDW Studios' School of Visual Effects and Entertainment Design was named the Best Digital Illustration School in The Rookies' Best Creative Media and Entertainment Schools report for 2017.

## Information Technology

### Cisco Australia

Cisco, a worldwide leader in networking and the provider of the state-of-the-art network infrastructure at Flinders, will support high quality research in innovative health technologies. Flinders and Cisco have also established a Cisco Academy at Tonsley that trains students for the jobs of the future. Work in the area has the potential to radically change how people interact with health services, and how they manage and maintain their health throughout life.

# No 1

Flinders University and CDW Studios ranked no. 1 in the world for digital media

The Rookies, Best Creative Media and Entertainment Schools report 2017

## Health, Medicine & Nursing

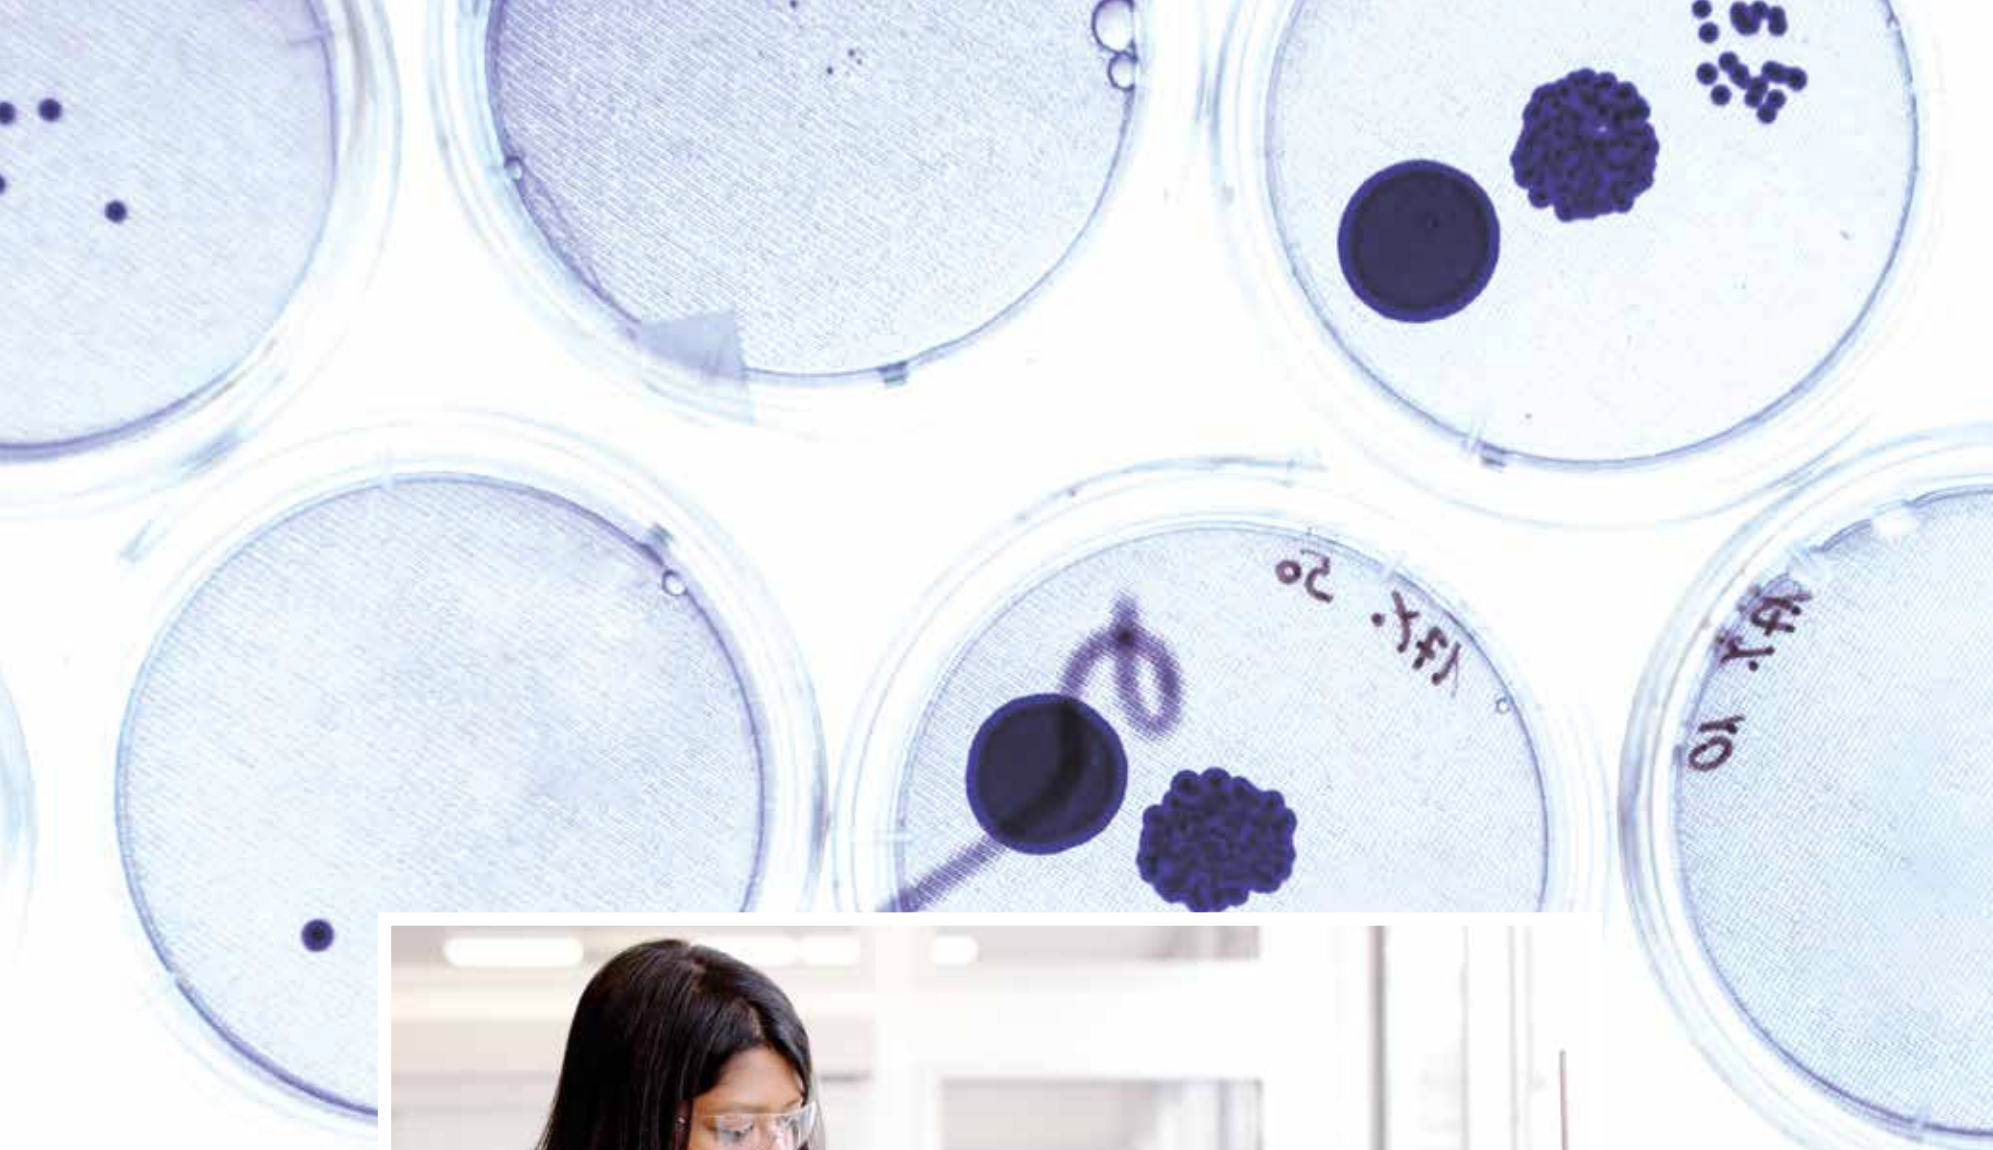

### SA Health

Flinders works in partnership with the South Australian Department of Health and Ageing to provide clinical training placements to our medicine, nursing and health sciences students in hospitals and health services across South Australia. These placements ensure our students are well equipped to apply the theory they learn to patients and communities in a variety of health service settings.

Flinders Medicine is co-located with Flinders Medical Centre: a major South Australian hospital. Our medical and other health students have the opportunity to be exposed to authentic, patient-centred clinical experiences from early on in their courses.

Rural placements are also a focus of our degrees, exposing students to a professional multidisciplinary environment where patient presentations cover a wide range of needs.

Through research and research-led teaching, we build and develop the knowledge and capabilities that improve lives and enhance society.

[flinders.edu.au/research](https://flinders.edu.au/research)

# World-class research

Flinders is home to a vibrant and constantly evolving research community, with research strengths in the following broad categories:

- engineering and technology
- health and medical
- people and society
- science, environment and natural resources
- defence.

Our research spans areas such as:

- autonomous vehicles
- clean technology
- energetic materials
- health and medical
- labour and industry transformation studies
- marine and maritime research
- medical devices
- nanotechnology and analytical chemistry
- people and society
- psychology and neuroscience
- water and the environment.

Flinders also appoints elite international and Australian researchers as strategic professors to sharpen the University's research profile and build strength in areas of strategic research significance.

Through specialisation and collaboration, our research has a positive impact, not just on your learning, but on the world around us.

9<sup>th</sup>

## 9th highest medical research funding

Flinders' research funding of \$24.6m from the National Health and Medical Research Council was the ninth highest in Australia for 2018.

## World-class rankings

Flinders is ranked among the top universities worldwide in the following subject areas:

### QS world university rankings by subject 2018

- top 100 for nursing
- top 200 for education and training
- top 200 for psychology
- top 200 for sociology
- top 200 for English language and literature
- top 250 for medicine
- top 300 for agriculture and forestry
- top 300 for law and legal studies
- top 315 for life sciences and medicine
- top 337 for arts and humanities.

### Times Higher Education world university rankings by subject 2018

- top 200 for clinical, pre-clinical and health
- top 250 for engineering and technology
- top 300 for arts and humanities
- top 300 for social science.

# Vibrant Adelaide

Adelaide is the capital of South Australia – a modern, metropolitan city of festivals, relaxed living and education excellence.

Studying in Adelaide means you are also residing in one of the world's most liveable cities.

We have a relaxed, easygoing lifestyle and Adelaide has been acknowledged as Australia's safest city.\* Adelaide also has one of the most diverse mix of students out of any Australian city.

Shopping on Rundle Street

## An authentic 'Aussie' experience

South Australia offers an authentic Australian experience. The state offers a mix of beautiful landscapes, sparkling beaches, rolling hills and a vibrant urban centre. Visit our world-famous wine regions, the rugged Flinders Ranges, and popular metropolitan beaches, or see Australian wildlife on Kangaroo Island.

## Getting around

Adelaide is well serviced by public transport, and international students receive the same transport concessions as local students, saving you up to \$700 per year on transport costs. A free tram and bus service runs in the Adelaide city centre.

Buses run frequently to and from Flinders University and the adjacent Flinders Medical Centre, with various routes running directly from the city and suburbs. Soon, a new train extension will connect Flinders directly to the city, making it even easier to get around.

Adelaide is also cycling-friendly, with a large community of cyclists and dedicated bike lanes.

## Festivals

South Australia is known as the 'Festival State', and there are regular cultural and sporting events including:

- WOMADelaide
- Adelaide Festival
- Adelaide Fringe
- Tour Down Under
- V8 Supercar Adelaide 500.

# No.1

## Most affordable state capital city in Australia for students

QS Best Student Cities 2017

## Shopping

Adelaide has a wide range of retail outlets, making it easy to shop for any taste or budget. Westfield Marion, the biggest shopping mall in Adelaide, is located just 10 minutes from our Bedford Park campus. Rundle Mall, located in the city centre, offers a strip of department stores and high street brands, while the café-lined Rundle Street is home to designer labels. There is also a wide range of options further out of the city.

## Food

South Australia is a food centre, with a higher ratio of cafés and restaurants to residents than any other city in Australia. Our state is well-known for quality produce – from fresh fruit and vegetables through to the finest meat and seafood. The city is close to well-known produce regions, such as the Barossa Valley and McLaren Vale, offering easy access to farmers markets. Adelaide is a multicultural city well-catered to vegan, vegetarian, Halal and Kosher requirements.

# Our locations

Flinders University offers you an authentic on-campus student experience in a beautiful natural environment.  
[flinders.edu.au/campus](http://flinders.edu.au/campus)

### Bedford Park

Located just 12km south of the centre of Adelaide, the Bedford Park campus is Flinders' main campus. It's a spacious, elevated site with panoramic views to the coast and over the city. Our Student Hub offers 24/7 study spaces and access to all student services in one convenient location.  
With its natural beauty and bright, lush spaces to invigorate you as you go about your day, Flinders' Bedford Park campus offers a uniquely inspiring study experience.

### Tonsley

Flinders at Tonsley is a place where our students interact with business, and where business interacts with our researchers in areas such as engineering, medical devices and nanoscale technologies to create the new products and processes of the 21st century.  
Study areas taught at Tonsley include:

- computing and mathematics
- engineering and design
- science.

### Victoria Square

Victoria Square is our city location. Situated in the centre of Adelaide's business district, it encourages close collaboration with surrounding industry and the opportunity to develop industry links. It is an alternative location where we provide information to students and teach a selection of our courses and topics.  
These include:

- accounting
- business and business administration
- public policy and public administration
- social work
- law
- health and aged care administration
- languages.

# Flinders at Tonsley

Tonsley embodies world's best practice in education, teaching and research. It's a place where innovation, collaboration and entrepreneurial spirit combine to create the products and processes of the 21st century and beyond.

With more than 150 staff and 2,000 students – and a 2,000 square metre pod for heavy engineering equipment – Tonsley centrally locates the University's teaching and research in computer science, engineering and mathematics, the New Venture Institute, Flinders Partners, Medical Device Research Institute, and Centre for Nanoscale Science and Technology alongside local and international businesses, including industrial manufacturing company Siemens.

Tonsley is located centrally between Flinders University's Bedford Park campus and Adelaide city. It is connected to the city by train, offering convenient access 15 minutes from the city's CBD. And Tonsley is a five-minute car ride, a 15-minute ride on the Flinders loop bus, or a 30-minute walk from the Bedford Park campus.

- Kutchi Deli Parwana
- Subway
- Toly Vietnamese
- Urban Paddock Co.
- Tavern by Burger Theory
- Nutrition Republic
- Café Bon Voyage
- Student kitchen

## Flinders University Student Association (FUSA)

FUSA represents the rights and interests of students, helping them with academic, administrative and welfare issues. FUSA also manages social events, non-sporting clubs and societies, and the student publication *Empire Times*.

## Clubs & societies

Flinders has a range of clubs and societies to cater to your interests, whether they are related to your degree, religion, culture, political affiliation, or just for fun.

## Empire Times

*Empire Times* is a free student culture and politics magazine published monthly.

## Sport & fitness

Our Bedford Park campus includes a state-of-the-art Sport and Fitness Centre with the best views of any gym in Adelaide, as well as courts and ovals for a variety of sports. Annual student membership is \$199.

## Art Gallery & Museum

Housing one of the most significant Indigenous university art collections in Australia, Flinders University Art Museum offers an expanding collection of art to excite your senses and foster new ways of thinking.

## Flinders Living

Flinders is the only university in Adelaide that gives you the opportunity to live on campus. Flinders Living offers accommodation for over 550 students, and also runs a free service listing the private rental accommodation available off-campus in the local area.

## Retail

- Pharmacy
- Post Office

# Services

We are here to help you get started, with a range of services that support you to quickly settle into your new life at Flinders.

[flinders.edu.au/iss](http://flinders.edu.au/iss)

## Flinders Connect

Flinders Connect is the front door to student services at Flinders.

You can seek help from our team of knowledgeable staff via phone, face-to-face or online. You can also access Flinders Connect for specialist assistance in careers, IT and a range of support services.

## International Student Services

For international students, including onshore international students, International Student Services (ISS) is the first point of contact and offers a range of programs and services. There are programs supporting your enrolment, study and social life, as well as a referral service to facilities on campus and within the local community. ISS organises a general orientation program for new international students, monthly morning teas and tours.

## Arrival services

Flinders University is a leading Australian university in arrival support for new students from overseas. Before you leave home, ISS will assist you to plan your arrival in Adelaide. They will connect you with on-campus support services and staff in your academic area, making your transition to Flinders as smooth as possible.

## Meet & greet

ISS offers a free meet-and-greet service for new international students. You will be met at Adelaide Airport, the railway station or the central bus station and taken directly to your new accommodation. The service is also free for accompanying family members. A booking is required.

## Orientation

The first few days of university are exciting but can also be daunting, which is why we have a number of orientation sessions and programs to help you get used to the University community. We also have a range of student services available to assist you throughout your studies.

## Childcare

The Flinders University Childcare Centre offers childcare for children under school age. The centre has attained the highest level of accreditation, with experienced and qualified staff offering exceptional care and education in a nurturing and stimulating environment. Places are limited and booking is essential.

## Health, counselling & disability services

When you enrol at Flinders, you will have access to confidential and professional health, counselling and disability services including GPs and nurses for emergency and routine medical care. We can also assist you with equal opportunity concerns.

## Oasis

Oasis is a multi-faith, multicultural centre where support is provided by chaplains of all faiths to meet the spiritual and religious needs of the Flinders community. Oasis offers various forms of prayer and meditation, seminars, and study and discussion groups, as well as a drop-in centre for friendship over tea and coffee.

*"Flinders has given me the opportunity to gain both professional and practical experience... It has ensured that I have the best possible chance to succeed."*

Bachelor of Psychological Sciences student  
Malaysia

## Computers, printing & wi-fi

Work at your own pace anywhere in the University by accessing our many computer labs or by connecting your own device to our printers or the extensive wireless network – one of the fastest, most secure campus wireless networks in the Southern Hemisphere.

## Flinders Learning Online

Flinders Learning Online (FLO) enables you to access course materials and resources, enrol or withdraw from topics, check your email accounts, and keep up-to-date with University-wide announcements.

## Student support

Study Adelaide runs a year-long calendar of free and discounted events especially for international students. As soon as you arrive, you will be given a free welcome backpack and guide with everything you need to know about living in Adelaide. Find out more at: [studyadelaide.com](http://studyadelaide.com)

## Student Learning Centre

The Student Learning Centre provides learning support for Flinders University students, ranging from writing and mathematics support to assistance with study and time-management skills.

## English language support

SLC also offers a free program to support non-English speaking background students who need to improve their English in the academic context.

## Transition Office

The Transition Office coordinates a number of successful programs aimed at assisting you at all stages of your transition to university.

## Library

Across our four library sites, you will find more than one million books and journals, extensive electronic collections, and a wide range of services and facilities to support your learning and research interests. The Central Library serves the whole Flinders community while specialist libraries act as information hubs for those studying law, legal studies, nursing and health, and our medical programs.

# Accommodation

Flinders is the only university in Adelaide where you can choose to live on campus. Experience all the friendship, support and social opportunities that help make Flinders such a great place to live and study.

[flinders.edu.au/living](https://flinders.edu.au/living)

## On-campus living

The Flinders campus is safe, affordable and convenient. Join a diverse community of students from across Australia and over 30 countries worldwide.

You have the option of living either at the catered University Hall or independently in the self-catered Deirdre Jordan Village. Both options offer academic and personal support from in-house tutors and coordinators.

## University Hall

The University Hall is a catered residence with a strong collegial atmosphere.

The hall has accommodation for over 200 students in fully-furnished single rooms, secure storage and car parking, and small communal kitchens. You can mix with other students in common areas, sporting areas, the outdoor cinema, gazebos and gardens, including a landscaped central courtyard.

## Cost

\$398 per week for a single room including 15 professionally prepared meals per week.\*

## Deirdre Jordan Village

The Deirdre Jordan Village provides modern accommodation in self-catered, fully equipped units. It offers a range of culturally inclusive activities in the community centre.

The village has accommodation for over 350 students, living areas (some private), landscaped gardens and outdoor areas with barbecues, and secure storage and car parking. Single gender accommodation is also available.

## Cost

Village standard unit: \$250 per student per week for a single room including all utilities.\*

Village annexe unit: \$198 per student per week for a single room including all utilities.\*

\*costs are based on 2018 rates

*"Go for on-campus housing! You'll meet a lot of people and it will help you adjust to the Australian culture easier. It was very easy living on campus; I lived with a lot of other [foreign] students, which made it easier to make friends and meet the locals."*

Arjen van Lil  
Utrecht University, Netherlands

# Living off campus

With Flinders University's convenient location and so many transport and accommodation options available, living off campus is easy.

Flinders Living runs a free service that lists the private rental accommodation available off campus in the local area. They can also provide information on your rights and responsibilities as a tenant. Check the Flinders Living website for more details.

Flinders Living provides a free, up-to-date accommodation service which lists private accommodation available on the rental market.

## Short-term study

Short-term study programs enable you to study for six to twelve months (one or two semesters) in Adelaide.

Live in a new city, enhance your career prospects, undertake professional development opportunities, experience a different culture and meet new people without interrupting your studies or career path.

### Student exchange

If you are studying at one of our partner institutions, you may be eligible for the student exchange program. Contact your home institution for application information.

### Study abroad

If you are not studying at a Flinders University exchange partner or currently enrolled at an overseas university, you can study with us on a fee-paying basis. Flinders offers multiple options to suit your academic, career and lifestyle goals.

To qualify, you will be required to study a minimum of three topics per semester to maintain a full-time study load. You can study four or five topics per semester if you wish.

### Tuition fees

3 topics AUD\$6,750

4 topics AUD\$9,000

5 topics AUD\$11,250

100

Over 100 partnership institutions across 33 countries

# Postgraduate study

## Take your qualifications to the next level with postgraduate study at Flinders.

If you want to further your career or change career direction, we have a range of postgraduate courses to help you reach your full potential.

Plugged into industry trends, professional placements and practical experiences, our teaching and research higher degree options are designed to take you from learning to earning.

Postgraduate coursework and a range of research higher degree options are available.

**[flinders.edu.au/study/postgrad](https://flinders.edu.au/study/postgrad)**

## Coursework

Coursework is where you usually attend lectures and tutorials, with assessment and possibly some practical work throughout the course.

## Research with a coursework component

You can undertake a research masters degree where coursework is only a minor part of the research program.

## Research

Research degrees are awarded primarily on the basis of a thesis resulting from a unique research project.

Flinders offers a range of research degrees at the masters and doctorate levels.

**[flinders.edu.au/study/postgrad](https://flinders.edu.au/study/postgrad)**

## Scholarships

International postgraduate students applying to study at Flinders may be eligible to apply for a number of university and government-funded scholarships to assist with the cost of living and studying in a foreign country.

**[flinders.edu.au/scholarships](https://flinders.edu.au/scholarships)**

## Pathways

Flinders University has a range of pathways to help you enter a research higher degree. Interested students can apply directly after their honours year, or upon completion of a coursework masters with an 18-unit thesis component.

We have also developed a special pathway with our exclusively offered Graduate Diploma in Research Methods. See page 77 for more information on the postgraduate research methods program.

## Office of Graduate Research

The Office of Graduate Research (OGR) supports research higher degree students from the commencement of their degree to their final thesis submission.

The office connects prospective students with trained high-quality supervisors, offers international travel and research opportunities, and is constantly improving and streamlining administrative processes and policies to enhance the research higher degree experience.

OGR provides tailored comprehensive advice to candidates as they progress through their PhD. It manages the Register of Research Higher Degree Supervisors, cotutelle degrees and the research higher degree policies and procedures.

**[flinders.edu.au/graduate-research](https://flinders.edu.au/graduate-research)**

## Cotutelles

Cotutelle doctoral degrees allow research higher degree students the opportunity to experience an extended overseas research stay for one third of their candidature, and obtain a joint PhD in the process. This enhanced program offers invaluable international networking opportunities, prized professional and personal development experience in an overseas research environment, and support of two principal supervisors to enrich your PhD candidature.

The Office of Graduate Research offers tailored advice and support throughout the application process.

## Research Higher Degree Professional Development Program

Our Research Higher Degree Professional Development Program is available free to all students. The program helps build confidence and motivation through a series of workshops, seminars and lectures to equip you with the necessary professional and research skills upon graduation. More information can be found at the Office of Graduate Research website.

# Study areas

Flinders offers postgraduate courses in a range of study areas. The following pages cover the broad areas of study at Flinders and the courses available in each area.

Can't find the degree you are looking for? The course index from page 78 provides a full listing of all postgraduate courses available at Flinders.

**[flinders.edu.au/international](http://flinders.edu.au/international)**

# ARTS: prepare to become an independently minded citizen of the future

**Top 300**

Flinders is ranked among the top 300 universities worldwide for arts and humanities according to the Times Higher Education world university rankings by subject 2018.

## Arts (Women's Studies)

MASTER OF ARTS (WOMEN'S STUDIES)	
CRICOS CODE	008136G
COURSE LENGTH	2 years full-time
INTAKE	Semester 1, Semester 2
2019 FEE	AUD\$30,000
ENGLISH REQUIREMENTS	IELTS: 6 (S6, W6) PTE: 50* (see pg 87)
A Graduate Diploma in Gender and Development is also available.	

Gain formal qualifications in an area that directly or indirectly impacts your work or research. You don't need previous knowledge or academic training in women's studies, simply an interest in better understanding the key issues of gender, whether they be global or specific to a region. Gender issues shape political, cultural and social institutions, as well as personal identity and relationships. The interdisciplinary field of women's studies uses feminist and other critical approaches to investigate all of these dimensions of gender. The Graduate Diploma in Gender and Development articulates with the Masters of Arts (Women's Studies).

### STUDY PROGRAM

The Master of Arts (Women's Studies) offers a combination of coursework and a minor thesis. Topics cover areas such as feminist questions, gender and international development, Indigenous women, and media analysis.

### ENTRY REQUIREMENTS

Applicants must normally hold a bachelor degree or equivalent qualification from an approved tertiary institution.

### CAREER OPPORTUNITIES

Potential occupations include: gender mainstreaming specialist, women's project coordinator, fundraising program officer, international development officer, human rights advocate, women's rights advocate, writer, media creator, women's services worker.

### FIND OUT MORE

[flinders.edu.au/courses/postgrad/gdpgd](https://flinders.edu.au/courses/postgrad/gdpgd)

## Explore your options

Flinders also offers postgraduate arts programs in the following areas:

### Environmental Studies

- Master of Arts (Environmental Studies) (Research)
- PhD (Environmental Studies)

### Geography and Population Studies

- Master of Arts (Geography and Population Studies) (Research)
- PhD (Geography and Population Studies)

### Humanities

- Master of Arts (Humanities) (Research)

### International Development

- Graduate Certificate in International Development
- Graduate Diploma in International Development
- Master of Arts (International Development)
- Master of International Development

### Social Sciences

- Master of Arts (Social Science) (Research)
- PhD (Social Sciences)

For more information on the postgraduate arts courses available, including fees and entry requirements, refer to the course index on page 80 or visit our website: [flinders.edu.au/international/arts](https://flinders.edu.au/international/arts)

# BUSINESS, COMMERCE & MANAGEMENT: building the business of tomorrow

## Be future-focused

Stay ahead of change and uncertainty, and gain the innovation and personal enterprise skills you need to embrace dramatic shifts in the global job market – study Innovation and enterprise.

Co-developed with Flinders' New Venture Institute, business leaders, and the prestigious Temple University's Fox School of Business in the US, you will learn to embrace innovation, think creatively and develop an entrepreneurial mindset. You will gain first-hand insights into the latest trends on topics ranging from transformational change to digital marketing. Stand out from the crowd and design your future.

## AUD\$10,000+ scholarships

Over AUD\$10,000 partial fee postgraduate business scholarships available for high-achieving international students

## Be career-ready

You can build real-world skills during Work-Integrated Learning (WIL) placements and projects at a host of local and global organisations. As part of your course you will also have the opportunity to build professional networks through mentorship programs and industry placements.

## Be your own boss

Develop the skills to be a job maker. Learn how entrepreneurs build new ventures and then create one yourself through our innovation programs and the Venture Dorm accelerator program, where you'll be guided on how to take an idea and find a viable business model to launch your start-up. More than 280 start-ups have already been created through the accelerator program and many continue to be supported in the New Venture Institute's incubator, eNVision. Be your own boss and be part of a thriving start-up ecosystem while studying at Flinders.

## Accounting

MASTER OF ACCOUNTING	
CRICOS CODE	064258M
COURSE LENGTH	2 years full-time
INTAKE	Semester 1, Semester 2
2019 FEE	AUD\$34,000
ENGLISH REQUIREMENTS	IELTS: 6.5 (S6, W6, R6, L6) PTE: 58* (see pg 87)
OPPORTUNITY FOR INDUSTRY EXPERIENCE PROFESSIONAL ACCREDITATION	

Students from non-accounting backgrounds can pursue a career in this area with a Master of Accounting. If you have completed a non-accounting degree, this course provides you with a study program that fulfils the requirements to commence a professional accounting career. Flinders Business provides excellent teaching, small classes and the opportunity to network and develop professional acquaintances through interaction in these programs.

### STUDY PROGRAM

The degree offers the right balance of practice and theory to prepare you for a successful career as an accounting or business professional. Topics cover areas such as accounting fundamentals, information systems and accounting processes, quantitative methods, economics for business, management and cost accounting, principles of commercial law, financial accounting issues, financial management, corporate accounting, auditing and assurances, and business research methods. A topic in academic skills for business is specifically aimed at postgraduate students from non-English speaking backgrounds.

### PRACTICAL EXPERIENCE

You may have the opportunity to undertake an industry placement and/or industry project.

### ACCREDITATION

The Master of Accounting meets the admission requirements of Certified Practising Accountants Australia (CPA Australia), Chartered Accountants Australia and New Zealand (CAANZ) and the Institute of Public Accountants (IPA).

### ENTRY REQUIREMENTS

Applicants must normally hold a bachelor degree or equivalent from an approved tertiary institution. Students with a degree in accounting that is recognised by Australian professional accounting bodies are not eligible for admission into the Master of Accounting.

### CAREER OPPORTUNITIES

Potential occupations include: auditor, budget accountant, bursar, cost accountant, finance manager, forensic accountant.

### FIND OUT MORE

[flinders.edu.au/courses/postgrad/macc](https://flinders.edu.au/courses/postgrad/macc)

## Accounting and Finance

MASTER OF ACCOUNTING AND FINANCE	
CRICOS CODE	089466G
COURSE LENGTH	2 years full-time
INTAKE	Semester 1, Semester 2
2019 FEE	AUD\$34,000
ENGLISH REQUIREMENTS	IELTS: 6.5 (S6, W6, R6, L6) PTE: 58* (see pg 87)
OPPORTUNITY FOR INDUSTRY EXPERIENCE PROFESSIONAL ACCREDITATION	

Develop specialised knowledge and skills in both accounting and finance disciplines. This course offers the right balance of practice and theory to prepare you for a successful career as an accounting or business professional and to cultivate practices for research in a business context. You will learn from experienced teachers and gain an understanding of the many issues affecting accounting and finance practice. The role of accounting and finance professionals in contemporary society will be explored with reference to ethics, globalisation and sustainability issues.

### STUDY PROGRAM

The program includes core and advanced topics in areas such as accounting fundamentals, financial management, financial accounting issues, management and cost accounting, derivatives and risk management, investments and portfolio management, and new venture finance. A topic in academic skills for business is specifically aimed at postgraduate students from non-English speaking backgrounds. (Note: Taking this topic may preclude entry into the CPA. Please speak to a student advisor prior to taking this topic.)

### PRACTICAL EXPERIENCE

You will have the option to undertake an industry placement, which will give you an insight into real-world business and make you stand out to employers. (Note: Taking this topic may preclude entry into the CPA. Please speak to a student advisor prior to taking this topic.)

### ACCREDITATION

The program is accredited with CPA Australia, Chartered Accountants Australia and New Zealand (CAANZ) and the Institute of Public Accountants (IPA), which means graduates are able to pursue careers in the accounting and finance industries. Entry into CAANZ requires the completion of elective topics in auditing and tax.

### ENTRY REQUIREMENTS

Applicants must have completed a bachelor degree or equivalent qualification in any discipline (other than an accounting degree accredited in Australia) from an approved tertiary institution. Applicants with an Australian-accredited degree in accounting are not eligible for admission into the Master of Accounting and Finance.

### CAREER OPPORTUNITIES

Potential occupations include: budget accountant, business analyst, auditor, finance manager, fund manager, investment analyst.

### FIND OUT MORE

[flinders.edu.au/courses/postgrad/accfinance](https://flinders.edu.au/courses/postgrad/accfinance)

## Accounting and Marketing

MASTER OF ACCOUNTING AND MARKETING	
CRICOS CODE	095000C
COURSE LENGTH	2 years full-time
INTAKE	Semester 1, Semester 2
2019 FEE	AUD\$34,000
ENGLISH REQUIREMENTS	IELTS: 6.5 (S6, W6, R6, L6) PTE: 58* (see pg 87)
OPPORTUNITY FOR INDUSTRY EXPERIENCE PROFESSIONAL ACCREDITATION	

Take a pathway into business, accounting and marketing with this vocationally oriented specialist postgraduate degree. It provides a blend of practice and theory, and combines specific accounting skills and a critical overview of topical marketing concepts and theories. These combined skills and knowledge will assist in enhancing careers in accounting and marketing by providing a broad understanding of these areas and ability to resolve the marketing and accounting issues common in business.

### STUDY PROGRAM

The program aims to provide you with the appropriate knowledge, skills and attributes for a successful career as an accounting and marketing professional, and to cultivate practices for research in a business context. It covers essential accounting and marketing topics that are industry relevant and match contemporary business thinking. You will have the opportunity to acquire in-depth knowledge in both fields and build your career in a business profession.

### PRACTICAL EXPERIENCE

You may have the opportunity to undertake an industry placement and/or industry project.

### ACCREDITATION

The Master of Accounting and Marketing meets the requirements of CPA Australia, Chartered Accountants Australia and New Zealand (CAANZ) and the Institute of Public Accountants (IPA). Australian qualifications are recognised in most countries, but international students are advised to discuss their proposed Master of Accounting and Marketing study with the professional registration authority and relevant professional associations in their home country before commencing studies.

### ENTRY REQUIREMENTS

Applicants must have completed a bachelor degree or equivalent qualification in any discipline (other than an accounting degree accredited in Australia) from an approved tertiary institution. Applicants with an Australian-accredited degree in accounting are not eligible for admission into the Master of Accounting and Marketing.

### CAREER OPPORTUNITIES

Potential occupations include: accountant, business manager, marketing manager, market research analyst, marketing assistant, business and marketing consultant.

Innovation and Enterprise

MASTER OF INNOVATION AND ENTERPRISE	
CRICOS CODE	092887E
COURSE LENGTH	2 years full-time
INTAKE	Semester 1, Semester 2
2019 FEE	AUS\$34,000
ENGLISH REQUIREMENTS	IELTS: 6.5 (S6, W6, R6, L6) PTE: 58* (see pg 87)
OPPORTUNITY FOR INDUSTRY EXPERIENCE	
A Graduate Certificate and Graduate Diploma in Innovation and Enterprise are also available.	

Develop your capacity to leverage disruption, creativity and innovation to pursue opportunities that will arise as the workplace changes. The courses prepare you to transform the organisations and industries of today, and launch the new ventures, technologies and services of tomorrow. Get the skills and knowledge to drive a new wave of socio-economic advancement, growth and stability for the future. Connect with experienced entrepreneurs, innovators and industry, and learn to grow or transform an existing business, build an organisation-wide culture of creativity and innovation, launch a new venture or enhance your career.

STUDY PROGRAM

The masters program builds the global mindset and leadership capabilities required to bring together the networks, support, financial and human resources to successfully launch and scale transformative projects and ventures. At graduate diploma and masters levels, you will get the opportunity to ‘go live’ and solve a real industry innovation challenge or launch your own start-up. Topics cover areas such as innovative and creative thinking; leveraging technology for innovation; collaboration, co-creation and crowd-based innovation; validating opportunities; innovation for social impact; new venture creation; creation; strategic innovation; and building innovative cultures, people and organisations.

DELIVERY MODE

Innovation and enterprise topics are taught at Flinders’ campus at Tonsley, Australia’s first and award-winning innovation district. At graduate level, topics are taught in intensive mode and are highly experiential in nature.

PRACTICAL EXPERIENCE

You may have the opportunity to undertake an industry innovation project or launch your own venture. You will also have access to workshops and events with experienced entrepreneurs, innovators and other relevant industry practitioners.

ENTRY REQUIREMENTS

**Masters:** Applicants must normally hold a bachelor degree or equivalent qualification in any discipline from an approved tertiary institution.

CAREER OPPORTUNITIES

Potential occupations include: corporate manager, CEO, founder/entrepreneur, strategist, innovation manager, innovation consultant, customer experience designer.

*“I chose Flinders University for three reasons. Firstly, it has a good reputation, especially in my country. Secondly, there are lots of international students, which is good for me to extend my relationships. Finally, Flinders University has amazing facilities. Adelaide is the best city for studying, it’s great for people with a family, like me, and it is much cheaper than other Australian cities.”*

**Faris Falah Alnefaie**  
Master of Business Administration graduate  
Independent Business Owner, Australian  
Communications Network

# A FRUITFUL PARTNERSHIP

Choosing to become an international student is a big step. But getting out of your comfort zone and taking on new experiences can often lead you down unexpected paths.

With his passion, creativity and persistence, commerce graduate Aaron Zhou saw his study at Flinders as an opportunity to grow a new business venture.

Established in 2008, Australia Morish Wine imports bottles of original Australian wine to China, and is partnered with some of Australia’s – and indeed the world’s – finest wineries. No doubt, Aaron’s time spent in South Australia and its culture of winemaking excellence contributed to his decision to introduce these wines to people back at home.

Selecting the wines was a painstaking process. “Our professional purchasing team has inspected more than 300 wineries,” Aaron said. “For their geographical culture, grape planting and picking, winemaking style and taste, we finally signed seven excellent wineries to be our strategic partners. They are: Lou Miranda, Turkey Flat, Turners Crossing, Gotham, Hanging Rock, Signature, and Morish.”

It was while studying commerce at Flinders that Aaron was inspired to start the business, with his experience at the University planting the seeds for his successful collaboration. “It expanded my horizons and gave me a solid foundation in commerce. Also, I learned to be independent, confident and tolerant. Before graduation, my group did a research project about investment, which taught me the importance of practice and teamwork.”

Morish has gone from strength to strength. “In 2010, after establishing our mainland headquarters in Chengdu, the company set up operations centres in Beijing and Guangzhou, and set up bonded warehouses in Shanghai to be responsible for the business of the whole country,” Aaron said. “Morish is now the biggest supplier of Australian wine in southwest China.” But for all of Aaron’s success, he’s not prepared to stop striving for excellence. “My future goal is to lead Morish to become the biggest exporter of Australian wine in China.”

Aaron’s commerce degree continues to influence his success. “It gave me a better understanding of business running and management, and I still apply the knowledge at work,” he said.

Aaron’s story is testament to the spirit of innovation and entrepreneurship at the heart of Flinders University’s business courses and teaching. Having successfully turned his degree and study experience into a thriving international partnership that benefits both South Australia and his Chinese customers, Aaron had this advice to share with students: “The university life is a process which can lead you to self-understanding and personal development, so cherish it and enjoy it.”

Aaron (Yalin) Zhou

Commerce graduate  
Chairman of Australia Morish Wines (China) Co Ltd

# COMPUTING & MATHEMATICS: drive innovation

*“I chose Flinders University because it has a good reputation and a high standard of education and courses. My friends in China who were recent graduates of Flinders strongly recommended that I study here as I wanted to develop my knowledge and skills, rather than just receive a piece of paper. My course doesn’t just require me to learn from textbooks – it also creates opportunities for me to make connections with real relevant businesses and organisations, as well as many internship opportunities.”*

**Wenxun Zhou (Vincent)**  
Master of Information Technology graduate  
Business Process Analyst, Department of Education and Child Development

## \$120m innovation precinct

Plug into our \$120m hub of innovation and entrepreneurship at Tonsley

### Computer Science

MASTER OF SCIENCE (COMPUTER SCIENCE)	
CRICOS CODE	073345D
COURSE LENGTH	2 years full-time
INTAKE	Semester 1, Semester 2
2019 FEE	AUD\$32,000
ENGLISH REQUIREMENTS	IELTS: 6 (S6, W6) PTE: 50* (see pg 87)
PROFESSIONAL ACCREDITATION	

Designed for students with a computing-rich background, this course builds on your existing computer science, research and professional skills. It provides an understanding of the practical and theoretical aspects of computer science, professional and ethical responsibilities, and the social, economic, cultural and environmental aspects of computer science in a global community. Projects and coursework have been designed to address topical concerns in industry and society, preparing graduates for further enrolment in a research higher degree or employment in a computing-related field.

#### STUDY PROGRAM

The program covers both advanced computing areas and professional studies. It gives you the opportunity to select coursework topics from a range of disciplines such as computer science, information technology, digital media, software engineering or mathematics. A masters project develops your research, communication and technical skills. Topics cover areas such as standards, ethics and compliance; project management and innovation; and intelligent systems.

#### ACCREDITATION

This program is accredited by the Australian Computer Society at the professional level. Courses accredited at this level by the Australian Computer Society are recognised internationally under the Seoul Accord.

#### ENTRY REQUIREMENTS

Applicants must normally hold an approved bachelor degree or equivalent in computer science, information technology, ICT-based engineering or a closely related discipline from an approved institution. Applicants with an approved degree in behavioural science or psychology, which includes a major in artificial intelligence or computer science, are also eligible. A knowledge of second-year information technology is assumed. The Master of Science is not available to students who hold an honours degree in the same discipline.

#### CAREER OPPORTUNITIES

Potential occupations include: software developer, software tester, IT project manager, systems analyst, business analyst, computational scientist.

#### FIND OUT MORE

[flinders.edu.au/courses/postgrad/msccs](http://flinders.edu.au/courses/postgrad/msccs)

### Information Technology

MASTER OF INFORMATION TECHNOLOGY	
CRICOS CODE	038636F
COURSE LENGTH	2 years full-time
INTAKE	Semester 1, Semester 2
2019 FEE	AUD\$32,000
ENGLISH REQUIREMENTS	IELTS: 6 (S6, W6) PTE: 50* (see pg 87)
PROFESSIONAL ACCREDITATION	

A Graduate Diploma in Information Technology is also available.

If you have an undergraduate degree in an area other than information technology but are looking to upgrade your knowledge and skills in this dramatically changing area, the information technology program at Flinders is the perfect introduction. This program capitalises on the re-building demand for professionals as information technology is applied across a continually widening range of applications, ranging from intelligent consumer goods such as mobile phones and cars through to electronic medical records. The course is offered at Flinders' Tonsley innovation precinct.

#### STUDY PROGRAM

The graduate diploma provides studies in areas such as computer programming, application development, computer networks and operating systems, software engineering, databases and conceptual modelling and standards, and ethics and compliance. The coursework masters provides both core and advanced studies in information technology, with particular emphasis on the techniques required to design, develop and manage an enterprise's information systems. Topics cover areas such as the fundamentals of computing, software engineering, database and conceptual modelling, and statistical science.

#### PRACTICAL EXPERIENCE

The masters involves significant project work, notably a major individual project that may tackle an industry-relevant problem or a research question.

#### ACCREDITATION

The Master of Information Technology is accredited by the Australian Computer Society at the professional level. Courses accredited at this level by the Australian Computer Society are recognised internationally under the Seoul Accord.

#### ENTRY REQUIREMENTS

Applicants must normally hold an approved bachelor degree or equivalent qualification from an approved tertiary institution.

#### CAREER OPPORTUNITIES

Potential employers include: software developer, software tester, IT project manager, systems analyst, programmer, webmaster.

#### FIND OUT MORE

### Geospatial Information Science

MASTER OF GEOSPATIAL INFORMATION SCIENCE	
CRICOS CODE	079420E
COURSE LENGTH	2 years full-time
INTAKE	Semester 1, Semester 2
2019 FEE	AUD\$33,000
ENGLISH REQUIREMENTS	IELTS: 6 (S6, W6) PTE: 50* (see pg 87)

A Graduate Certificate and Graduate Diploma in Geographical Information Systems are also available.

Gain advanced knowledge in the theory and application of geographical information systems and remote sensing. This postgraduate program is for students with an undergraduate degree not related to geospatial information science (GISc). It provides a framework for people from a range of backgrounds wishing to acquire knowledge and skills in the capture, analysis and communication of spatially-referenced information. You will develop and implement GISc skills and knowledge for a range of areas such as environmental management, urban and regional planning, human geography and environmental health, land-use dynamics, natural resources management, ecosystem services, biological sciences, and archaeology.

#### STUDY PROGRAM

You can select from a range of geospatial topics to build a study program that suits your interests and current or future employment requirements. The program is specifically designed to provide flexibility to students with different levels of GISc and remote sensing experience and skills. Globally relevant concepts taught in the program include spatial data capture and input protocols, database structures, spatial analysis, modelling and communication practices. In the masters, you will undertake a major research project under the supervision of an academic staff member.

#### PRACTICAL EXPERIENCE

You will gain GISc and remote sensing skills and knowledge that are fundamental to scientists across all disciplines and spatial landscapes.

#### ENTRY REQUIREMENTS

Applicants must normally hold a bachelor degree or equivalent qualification from an approved tertiary institution.

#### CAREER OPPORTUNITIES

Potential occupations include: geographic analyst, GISc data coordinator, GISc technician, geospatial specialist, mapping technology officer, natural resource information officer.

#### FIND OUT MORE

Forget the shovels, brushes and oversized magnifying glasses – the only time you will find archaeological pioneers Denise de Vries or Melanie Swalwell anywhere near a dig is when they are sorting through a box of old computer parts.

The pair are working on Play It Again, a project that seeks to document, preserve and use old computers and original software, in a bid to preserve key artefacts from our recent past.

“Without the project, there is a real risk that the heritage of early Australian computer and game design will be permanently deleted. And with computers such an integral part of culture, the loss of early Australian computer history would be a major blow,” Associate Professor Swalwell said.

“Lots of our undergraduate students are really interested in the old software and devices we have; they love being able to come in and use the old computers, even just as a comparison with what they use now on a daily basis,” Dr de Vries said.

Early home computers were frequently used to create and play simple games. Many of the games that were available in Australia were created locally, meaning the nation’s video game history is substantially different from the rest of the world.

The Play It Again project involves rescuing both video games and the first generation home computers they were played on before all are lost to rubbish tips and bit rot. Associate Professor Swalwell and Dr de Vries work with technicians in a Tonsley lab cluttered with restored Microbees, Commodore 64s and other relics of the first wave of the digital revolution.

Dr de Vries handles the technical side of saving the data, the devices and the software while Associate Professor Swalwell examines the legacy of the games and computers through a cultural lens.

“It’s really important to have the old computers themselves – you have to be able to save both the data and software which is on the computers. Without that software there’s no way to access the data,” Dr de Vries said.

“This project brings the digital experience of the 1970s and ‘80s back to life.”

**Dr Denise de Vries**  
**Lecturer in Computer Science**  
**Associate Professor Melanie Swalwell**

Actor

## Artistic excellence

Join a legacy of artistic excellence, be inspired by our graduate success and push your talents to new heights

## Screen and Media Production

### MASTER OF SCREEN AND MEDIA PRODUCTION

CRICOS CODE	071845M 1.5 Years: 085904A 1 Year: 085903B
COURSE LENGTH	2 years full-time Intermediate: 1.5 years full-time Advanced: 1 year full-time
INTAKE	Semester 1
2019 FEE	AUD\$30,000
ENGLISH REQUIREMENTS	IELTS: 6 (S6, W6) PTE: 50* (see pg 87)

A Graduate Certificate and Graduate Diploma in Screen and Media Production are also available.

Develop screen and media production and post-production skills, research and writing skills in screen studies, and a practical understanding of professional activities in a related field of study. In addition, masters provides you with in-depth knowledge of a specific area of screen production, obtained through a combination of coursework and research, vocational knowledge and skills in the field of screen studies, and increased specialisation relating to documentary film-making, digital media and screen studies.

### STUDY PROGRAM

The program provides skills in documentary production practices, including project research, scriptwriting, production and post-production techniques. You will gain knowledge and skills to undertake research into documentary subjects, write scripts for documentaries and apply technical skills in the production of documentaries. You will also collaborate with peers on basic screen production projects and understand how one or more related fields of study may be applied to screen productions. Topics cover areas such as production, post-production, research and writing, non-fiction form and ethics, and 3D animation and the screen.

### PRACTICAL EXPERIENCE

Students have the opportunity to undertake a practicum.

### ENTRY REQUIREMENTS

**Masters:** Applicants must normally hold an approved bachelor degree in any discipline. Intermediate and advanced entry levels are available for those with an approved undergraduate or postgraduate qualification in screen and media. Check the website for details.

### CAREER OPPORTUNITIES

Potential occupations include: presenter, broadcaster, monitor, filmmaker, content strategist, media advisor, multimedia researcher, production coordinator, video journalist.

### FIND OUT MORE

# CULTURE & COMMUNICATION: bring ideas to life

## Tourism

MASTER OF TOURISM	
CRICOS CODE	059258J
COURSE LENGTH	2 years full-time
INTAKE	Semester 1
2019 FEE	AUD\$30,000
ENGLISH REQUIREMENTS	IELTS: 6 (S6, W6) PTE: 50* (see pg 87)
OPPORTUNITY FOR INDUSTRY EXPERIENCE	
A Graduate Diploma in Tourism is also available.	

Explore theoretical and practical elements of the global tourism industry in a range of areas. The courses provide you with a broad understanding of tourism both in Australia and internationally. They enable you to benefit from our strong links to employers through industry-focused study and research.

### STUDY PROGRAM

The program is designed so that you can focus on areas of your interest or undertake broad-based study. Specialist areas include tourism management and marketing, special interest tourism, cultural tourism, heritage tourism, tourism and the media, tourism and interpretation, and festival and event design and management. Develop an increased level of theoretical knowledge, and the skills necessary to address emerging trends and employment needs within the sector. Topics cover areas such as tourism management, site interpretation and research skills.

### DELIVERY MODE

Some topics are taught in intensive delivery mode. Note there is no mid-year entry for these courses.

### PRACTICAL EXPERIENCE

Students may undertake an industry-based practicum and research.

### ENTRY REQUIREMENTS

**Masters:** Applicants must normally hold a bachelor degree or equivalent qualification in tourism, hospitality or a related discipline from an approved tertiary institution with a GPA of 5.0 in upper level topics, or a Graduate Diploma in Tourism, or equivalent qualification from an approved tertiary institution, with a GPA of 5.0, or an honours degree in tourism or a closely related discipline from an approved tertiary institution.

## CAREER OPPORTUNITIES

Potential employers include: convention/exhibition centres; regional tourism authorities; local, state, and federal agencies; museums, zoos and botanic gardens.

*"Completing my Master of Tourism at Flinders has allowed me to critically evaluate the cultural tourism sector in a way I never could have before. It has opened so many doors for me, in education, and the heritage and museums sector."*

**Katherine Sutcliffe**  
Master of Tourism graduate  
Freelance Heritage Interpreter

# EDUCATION: dynamic education prepares future generations

## Top 200 worldwide

Flinders is ranked among the top 200 universities worldwide for education and training according to the QS world university rankings by subject 2018.

### Education (Leadership and Management)

MASTER OF EDUCATION (LEADERSHIP AND MANAGEMENT)	
CRICOS CODE	002617F
	1.5 Years: 091855K
COURSE LENGTH	2 years full-time Progressive: 1.5 years full-time
INTAKE	Semester 1, Semester 2
2019 FEE	AUD\$28,800
ENGLISH REQUIREMENTS	IELTS: 6 (S6, W6) PTE: 50* (see pg 87)
A Graduate Certificate in Education (Leadership and Management) is also available.	

If you are a leader or aspire to leadership in education, this program offers a unique and innovative approach to your ongoing professional learning. Our courses are distinctive in that they approach educational leadership from a humanistic perspective. They are designed to identify and build on your strengths as a leader and give you an understanding of the relational and contextual nature of leadership. These courses do not lead to teacher registration in South Australia.

#### STUDY PROGRAM

The program introduces you to knowledge and skills in your area of interest, with a focus on understanding and changing practice. The masters assists you to build organisations in sustainable ways. Topics cover areas such as strategic thinking and planning, leaders and leadership, theories of organisational change, managing human resources, knowledge management for organisational learning, planning change in organisations, and financial management.

#### ENTRY REQUIREMENTS

**Masters (2 years):** Applicants must hold an approved bachelor degree or equivalent qualification from an approved tertiary institution, and have at least two years relevant work experience within an organisation.

**Masters (1.5 years):** Applicants must hold a bachelor degree in education, teaching or a closely related discipline, and have at least two years relevant work experience within an organisation.

#### CAREER OPPORTUNITIES

Graduates are suitable for careers in a variety of positions ranging from work as teachers in school classrooms, school coordinators and principals, curriculum and policy advisors in departments of education, and as advisors to government departments and other policy makers.

#### FURTHER STUDY

Students who undertake a substantial research component with the Master of Education may be considered for further study at the PhD or Doctor of Education level.

#### FIND OUT MORE

### Teaching (Early Childhood)

MASTER OF TEACHING (EARLY CHILDHOOD)	
CRICOS CODE	063695J
COURSE LENGTH	2 years full-time
INTAKE	Semester 1
2019 FEE	AUD\$28,800
ENGLISH REQUIREMENTS	IELTS: 7.5 (S7.5, W7.5, R7.5, L7.5) PTE: 73* (see pg 87)
OPPORTUNITY FOR INDUSTRY EXPERIENCE	
PROFESSIONAL ACCREDITATION	

Designed to prepare early childhood educators to teach across the birth-to-eight age-range, this program provides you with the background and skills necessary to enter the early childhood teaching profession with confidence and competence. You will gain knowledge of curriculum studies and theories of education, and undertake teaching practice in early childhood settings (eg. childcare centres, kindergartens, preschool and year levels reception to year two).

#### STUDY PROGRAM

The program offers core topics in education studies and curriculum studies, and professional experience as well as professional placements. Early childhood topics cover areas such as making meaning in the expressive arts, the numerate and literate infant, thinking and working scientifically in the early years, and pedagogies of belonging.

#### PRACTICAL EXPERIENCE

The course includes extensive professional experience and placements. All pre-service teachers must obtain a Child-Related Employment Screening before undertaking their professional experience. Instructions about applications are provided on our website.

#### ACCREDITATION

This academic qualification will enable you to apply for registration with the Teachers Registration Board of South Australia. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions. Graduates meet Australian Children's Education and Care Quality Authority (ACECQA) employment criteria.

#### ENTRY REQUIREMENTS

Applicants must hold a bachelor degree or equivalent from an approved tertiary institution. In addition, admission is by quota, based on academic merit and a pass average or greater is required. Some courses also have additional or alternative entry requirements. Check the website for details.

The Australian Government has recently introduced the Literacy and Numeracy Test for all initial teacher education (ITE) students. For further information, go to: [teacheredtest.acer.edu.au](https://teacheredtest.acer.edu.au)

#### CAREER OPPORTUNITIES

Potential occupations include: teachers in early childhood centres, preschools and school classrooms; school coordinators and principals; curriculum and policy advisors in departments of education; advisors to government departments and other policy makers.

#### FURTHER STUDY

Options include: Graduate Certificate in Education, Master of Education, Doctor of Education.

#### FIND OUT MORE

### Teaching (Primary R-7)

MASTER OF TEACHING (PRIMARY R-7)	
CRICOS CODE	063696G
COURSE LENGTH	2 years full-time
INTAKE	Semester 1
2019 FEE	AUD\$28,800
ENGLISH REQUIREMENTS	IELTS: 7.5 (S7.5, W7.5, R7.5, L7.5) PTE: 73* (see pg 87)
OPPORTUNITY FOR INDUSTRY EXPERIENCE	
PROFESSIONAL ACCREDITATION	

Graduates who wish to teach at the primary school level can undertake a Master of Teaching (Primary R-7). The course provides you with the background necessary to apply for registration as a Primary R-7 teacher and it includes education studies, curriculum studies and professional experience. A languages strand is available if you wish to teach languages and have the necessary prerequisites in your undergraduate degree.

#### STUDY PROGRAM

The program offers core topics in education studies and curriculum studies, and professional experience as well as professional placements. Primary R-7 topics cover areas such as teaching in and through the expressive arts, researching learners and learning, introduction to teaching and research in the education profession, and thinking and working scientifically in the primary years.

#### PRACTICAL EXPERIENCE

The course includes extensive professional experience and placements. All pre-service teachers must obtain a Child-Related Employment Screening before undertaking their professional experience. Instructions about applications are provided on our website.

#### ACCREDITATION

This academic qualification will enable you to apply for registration with the Teachers Registration Board of South Australia. Graduates looking for employment in other parts of Australia and overseas may be required to meet additional conditions. Graduates meet Australian Children's Education and Care Quality Authority (ACECQA) employment criteria.

#### ENTRY REQUIREMENTS

Applicants must hold a bachelor degree or equivalent from an approved tertiary institution. In addition, admission is by quota, based on academic merit and a pass average or greater is required. Some courses also have additional or alternative entry requirements. Check the website for details.

The Australian Government has recently introduced the Literacy and Numeracy Test for all initial teacher education (ITE) students. For further information, go to: [teacheredtest.acer.edu.au](https://teacheredtest.acer.edu.au)

Teaching English as a Second Language (TESOL)

<b>MASTER OF TEACHING ENGLISH AS A SECOND LANGUAGE</b>	
<b>MASTER OF ARTS (TEACHING ENGLISH AS A SECOND LANGUAGE)</b>	
CRICOS CODE	Masters: 060015G Master of Arts: 060014G
COURSE LENGTH	2 years full-time
INTAKE	Semester 1, Semester 2
2019 FEE	AUD\$30,000 External fee is 10% less than stated fee
ENGLISH REQUIREMENTS	IELTS: 6.5 (S6, W6, R6, L6) PTE: 58* (see pg 87)

A Graduate Certificate and Graduate Diploma in TESOL are also available.

Understand the teaching and learning of English for speakers of other languages. You will be equipped with the basic tools for classroom practice in TESOL and explore current theories and pedagogy in second/foreign language teaching. The program caters for graduates who do not have a formal teaching qualification and wish to teach English as a second/foreign language, qualified teachers who require specialised knowledge in TESOL, or qualified teachers of other subjects taught using English as the language of instruction. These courses do not lead to teacher registration in South Australia.

STUDY PROGRAM

The combination of theoretical knowledge and teaching methodology equips prospective TESOL practitioners with tools for classroom practice. The courses are designed to facilitate the development of disciplinary knowledge in second language acquisition, as well as specific knowledge in TESOL. Topics cover areas such as second language learning and teaching, second language testing, English linguistics, TESOL methodology, English as a global language, a directed studies project, and cross-cultural pragmatics and intercultural communication.

DELIVERY MODE

Some option topics at masters level are taught in intensive delivery mode.

PRACTICAL EXPERIENCE

The program is designed to equip teachers with the basic tools for classroom practice in the area of teaching English to speakers of other languages.

ENTRY REQUIREMENTS

Applicants must normally hold an approved bachelor degree or equivalent qualification from an approved tertiary institution.

CAREER OPPORTUNITIES

Potential occupations include: private English language teacher, assistant language teacher, communications specialist, immigration officer, international student advisor, linguist. Please note that TESOL graduates will not be eligible for teacher registration. Please see the Master of Teaching to undertake a postgraduate teaching qualification that leads to teacher registration.

# ENGINEERING & DESIGN: apply science & ingenuity to real-world problems

*"As an international student, it can sometimes be hard to speak English fluently, but all the lecturers, staff and students at Flinders University have always been really supportive and understanding. My course has showed me that there are a lot of options and career opportunities in biomedical engineering that I can pursue after my degree."*

**Haryati Akmal Borhan**  
Master of Engineering (Biomedical) student

## Award-winning engineers

Professor Karen Reynolds won the David Dewhurst Award from Engineers Australia for contributions to biomedical engineering in 2016, among many other awards

### Engineering (Biomedical)

MASTER OF ENGINEERING (BIOMEDICAL)	
CRICOS CODE	055942K
COURSE LENGTH	2 years full-time
INTAKE	Semester 1, Semester 2
2019 FEE	AUD\$36,000
ENGLISH REQUIREMENTS	IELTS: 6 (S6, W6) PTE: 50* (see pg 87)
OPPORTUNITY FOR INDUSTRY EXPERIENCE	
PROFESSIONAL ACCREDITATION	

Capitalise on the growing opportunities for biomedical engineers with a master in biomedical engineering. If you already have an undergraduate engineering degree and would like to broaden your expertise or specialise in the field of biomedical engineering as a practising engineer, Flinders University's biomedical engineering course is designed to meet your needs. The course is offered at Flinders' Tonsley innovation precinct.

#### STUDY PROGRAM

The course is taught in small, intimate classes that afford a high staff-student ratio. There is an emphasis on topics that directly meet the needs of students intent on pursuing a career in industry and academic research and development. Topics cover areas such as standards, ethics and compliance; control systems; biomedical instrumentation; biomechanics; physiological measurement; project management and innovation; innovation in medical devices; and a research project undertaken as part of a professional research team.

#### PRACTICAL EXPERIENCE

You will undertake a 12-week industry placement.

#### ACCREDITATION

This program is fully accredited by Engineers Australia at the level of professional engineer. Professional engineering courses accredited by Engineers Australia are recognised internationally under the Washington Accord. Graduates will meet the academic requirements for attaining chartered professional engineering status.

#### ENTRY REQUIREMENTS

Applicants must normally hold Flinders University's Graduate Diploma in Engineering Science (specialisation B1-B3), or a relevant Bachelor of Engineering, Bachelor of Engineering Technology, Bachelor of Engineering Science or equivalent overseas qualification with an average grade of credit (5.0) or greater. Students without such a qualification should apply for the Graduate Diploma in Engineering Science. Check our website for all prerequisites and entry requirements.

#### CAREER OPPORTUNITIES

Potential occupations include: biomedical engineer, medical device assessor, clinical support specialist, field service engineer, pathology and specialist product educator.

#### FURTHER STUDY

The coursework masters provides a quality, qualifying pathway into a biomedical engineering PhD.

#### FIND OUT MORE

### Engineering (Civil)

MASTER OF ENGINEERING (CIVIL)	
CRICOS CODE	091861A
COURSE LENGTH	2 years full-time
INTAKE	Semester 1, Semester 2
2019 FEE	AUD\$36,000
ENGLISH REQUIREMENTS	IELTS: 6 (S6, W6) PTE: 50* (see pg 87)
OPPORTUNITY FOR INDUSTRY EXPERIENCE	
PROFESSIONAL ACCREDITATION	

Designed to increase your knowledge and understanding in different areas of civil engineering, this course will prepare you for a career in planning, design and maintenance of infrastructure such as the built environment, water resources, mining and transport.

#### STUDY PROGRAM

The program covers the four traditional sub-disciplines of civil engineering: geotechnical, structural, transport and water engineering. It gives you the flexibility to choose specialist topics that will enhance your knowledge within a particular civil engineering discipline.

#### PRACTICAL EXPERIENCE

You will get hands-on industry experience in civil engineering practice. Research project topics enable you to develop research skills by developing solutions to large and complex problems.

#### ACCREDITATION

This program is fully accredited by Engineers Australia at the level of professional engineer. Professional engineering courses accredited by Engineers Australia are recognised internationally under the Washington Accord. Graduates will meet the academic requirements for attaining chartered professional engineering status.

#### ENTRY REQUIREMENTS

Applicants must normally hold one of the following:

- Flinders University's Graduate Diploma in Engineering Science (specialisations C1-C3) with an average grade of credit (5.0) or greater
- a Bachelor of Engineering, Bachelor of Engineering Technology or Bachelor of Engineering Science in civil engineering or a closely related discipline with an average grade of credit (5.0) or greater
- an equivalent overseas qualification including an average grade of credit (5.0) or greater.

Students without such qualifications should apply for the Graduate Diploma in Engineering Science or Master of Engineering Science (Civil).

Refer to our website for all prerequisites and entry requirements.

#### CAREER OPPORTUNITIES

Potential occupations include: design engineer, site supervisor, infrastructure planner and builder, city engineer, asset manager, research engineer.

#### FURTHER STUDY

The course provides the foundation for further postgraduate work at the PhD level, and continuing professional development and education. Masters may be a pathway to a PhD for students without an honours degree.

INTAKE	Semester 1, Semester 2
2019 FEE	AUD\$36,000
ENGLISH REQUIREMENTS	IELTS: 6 (S6, W6) PTE: 50* (see pg 87)
OPPORTUNITY FOR INDUSTRY EXPERIENCE	
PROFESSIONAL ACCREDITATION	

The world of instrumentation and control is rapidly evolving, and designing and developing these devices is the responsibility of electronic engineers, who are playing an increasingly important role in the development of smart structures for a range of industries and purposes. The electronics engineering masters offers you a choice of research projects in intelligent control, autonomous vehicles, robotics, image/signal processing, embedded systems, and bioinstrumentation.

#### STUDY PROGRAM

The program provides a balance of advanced theoretical knowledge and associated project work. Topics cover areas such as standards, ethics and compliance; control systems; computer organisation and design; sensors and actuators; signal processing; project management and innovation; computer architecture; instrumentation; power electronics; autonomous systems; advanced electronic design; and a research project undertaken as part of a professional research team.

#### PRACTICAL EXPERIENCE

The course includes a work experience component where you will get hands-on industry experience in electronics engineering practice. It includes practical training using state-of-the-art design tools that are in high demand, and full-time access to laboratory and information resource facilities.

#### ACCREDITATION

This program is fully accredited by Engineers Australia at the level of professional engineer. Professional engineering courses accredited by Engineers Australia are recognised internationally under the Washington Accord. Graduates meet the academic requirements for attaining chartered professional engineering status.

#### ENTRY REQUIREMENTS

Applicants normally must hold Flinders University's Graduate Diploma in Engineering Science (specialisation E1-E3), or a relevant Bachelor of Engineering, Bachelor of Engineering Technology, Bachelor of Engineering Science or equivalent overseas qualification with an average grade of credit (5.0) or greater. Students without such a qualification should apply for the Graduate Diploma in Engineering Science. Refer to our website for all prerequisites and entry requirements.

#### CAREER OPPORTUNITIES

Potential occupations include: electronics engineer, broadcast engineer, project coordinator, test engineer, regulatory analyst, scientist.

#### FURTHER STUDY

Masters may be a pathway to a PhD for students without an honours degree.

#### FIND OUT MORE

# REDESIGNING HEALTH

Professor Karen Reynolds, Director, Medical Device Partnering Program  
Matthew Flinders Distinguished Professor

Engineering life-changing devices takes teamwork.

**Cutting-edge medical devices aren't created by the stereotypical lone engineer working in isolation in a research laboratory – at least not at Flinders.**

The University is bringing the best minds together to create tomorrow's biomedical solutions today through the Medical Device Partnering Program (MDPP).

Established in 2008 by Professor Karen Reynolds, the MDPP aims to form links between industry, researchers and health professionals. The Partnering Program has been funded by the South Australian Government since its inception, which has seen the majority of activity involving local organisations, but there has in recent times been a steady increase in interstate companies coming to utilise the service.

"Bringing together researchers, industry and medical teams from the start enables the Medical Device Partnering Program to deliver solutions quickly and creatively," Professor Reynolds said.

"Our projects run for around 250 hours. While this might not seem like a long time, it gives the team long enough to learn whether they can work productively together and also see whether there are opportunities in the near future to continue the working relationships."

The unique program has led to many new products hitting the market, ranging from Austofix's Ezy-Aim Electronic Distal Targeting System (an orthopaedic device that removes the need for multiple X-rays when fixing bone fractures) to INNOVO Healthcare's U Stand Frame (a lightweight, portable frame to help patients move from a sit-to-stand position).

"Working closely with end-users and clinicians we are able to respond to industry-driven problems, fast-forwarding the R&D process."

## Engineering (Materials)

MASTER OF ENGINEERING (MATERIALS)	
CRICOS CODE	088514B
COURSE LENGTH	2 years full-time
INTAKE	Semester 1, Semester 2
2019 FEE	AUD\$36,000
ENGLISH REQUIREMENTS	IELTS: 6 (S6, W6) PTE: 50* (see pg 87)
OPPORTUNITY FOR INDUSTRY EXPERIENCE	
PROFESSIONAL ACCREDITATION	

Materials engineering is an interdisciplinary field that studies composition, structure, processing, properties and performance of materials used for products. Materials enable engineers to design and manufacture ideas into devices and structures with the best performance. Our leading researchers, well-equipped laboratories and materials-characterisation facilities provide an excellent environment for advanced research activities in materials engineering.

### STUDY PROGRAM

This program offers a unique combination of advanced areas such as materials selection in design, metal forming, nanomaterials, polymers, biomaterials, corrosion, fatigue and fracture, characterisation techniques, organic synthesis, and materials for civil, electrical and optical applications. Subject to receiving a credit average, you will also be able to undertake research project topics that will enable you to develop your research skills by developing solutions to large and complex problems.

### PRACTICAL EXPERIENCE

The course is designed to present practical aspects of materials engineering, and also includes a research project for you to work on advanced relevant areas. You will have the opportunity to develop practical skills in Flinders' well-equipped laboratories.

### ACCREDITATION

This program is provisionally accredited by Engineers Australia at the level of professional engineer. Professional engineering courses accredited by Engineers Australia are recognised internationally under the Washington Accord. Graduates will meet the academic requirements for attaining chartered professional engineering status.

## ENTRY REQUIREMENTS

Applicants must normally hold Flinders University's Graduate Diploma in Engineering Science (specialisations M1-M2); a relevant Bachelor of Engineering, or Bachelor of Engineering Technology, Bachelor of Engineering Science; or an equivalent overseas qualification with an average grade of credit (5.0) or greater. Students without such a qualification should apply for the Graduate Diploma in Engineering Science.

### CAREER OPPORTUNITIES

Potential occupations include: metallurgist, process engineer, corrosion engineer, polymer engineer, ceramist, quality control engineer.

### FURTHER STUDY

The course provides the foundation for further postgraduate work at the PhD level, and continuing professional development and education. Masters may be a pathway to a PhD for students without an honours degree.

### FIND OUT MORE

[flinders.edu.au/courses/postgrad/engmat](http://flinders.edu.au/courses/postgrad/engmat)

## Engineering Science (Software)

MASTER OF ENGINEERING SCIENCE (SOFTWARE)	
CRICOS CODE	094010J
COURSE LENGTH	2 years full-time
INTAKE	Semester 1, Semester 2
2019 FEE	AUD\$36,000
ENGLISH REQUIREMENTS	IELTS: 6 (S6, W6) PTE: 50* (see pg 87)
OPPORTUNITY FOR INDUSTRY EXPERIENCE	
PROFESSIONAL ACCREDITATION	

Combine the art and skill of engineering with the power of computer technology. Software engineering develops programs and products that meet the demands of the modern economy. Software engineering is a dynamic engineering discipline that is concerned with all aspects of software use, from design and development to maintenance and management.

### STUDY PROGRAM

You will complete core topics including a research project and have the choice of a number of option topics that will provide you with knowledge in a specialised program of study. The degree includes an option for an 18-unit thesis, allowing transition to a PhD for high-performing students. Topics cover areas such as software engineering, computer programming, electronics, microprocessors, database and conceptual modelling, web-based systems development, automation and industrial control, analysis of engineering systems, mathematics, sensors and actuators, enterprise information security and cloud systems, interactive computer systems, and computer networks and operating systems.

### ENTRY REQUIREMENTS

Applicants must normally hold one of the following appropriate qualifications: an engineering degree; a science degree; an Australian TAFE diploma or advanced diploma (AQF Level 5) in an appropriate field plus seven years relevant work experience; an equivalent overseas qualification. In addition, whatever qualification is held, students are expected to be able to demonstrate previous study or recognised prior learning in communication and planning skills, mathematics (equivalent to first year university mathematics), and science (equivalent to university undergraduate topics in chemistry and physics). Some basic knowledge of other relevant sciences will be assumed. Software engineering assumes previous study in programming and computing fundamentals. Refer to our website for all prerequisites and entry requirements.

### CAREER OPPORTUNITIES

Graduates will be equipped to work as software designers in areas as diverse as smart cards, mobile commerce and communications, simulators, medical and imaging equipment, internet computing and defence systems.

### FURTHER STUDY

Graduates of these programs may be eligible to apply for a PhD by research.

### FIND OUT MORE

Professor John Spoehr  
Director of the Australian Industrial Transformation Institute at Flinders University.

# ‘FACTORY OF THE FUTURE’ COMING TO TONSLEY

The welcome mat will go out at the new Tonsley Manufacturing Innovation Hub in early 2018.

High-tech and advanced manufacturing companies and researchers in South Australia will be able to use a new innovation hub at Flinders' Tonsley location to progress their product and business development.

Funded by a \$490,000 State Government grant, as part of the Australian Government's Innovative Manufacturing Cooperative Research Centre, the Tonsley Manufacturing Innovation Hub (TMI Hub) aims to accelerate the adoption of advanced digital technologies by local businesses and support the creation of highly skilled jobs for the future.

The new digital technologies hub will train businesses, students and others in the implementation of 'Industry 4.0' technologies and business models that will "revolutionise the way manufacturers connect with customers and suppliers through digital internet-based technologies", says Professor John Spoehr, director of the Australian Industrial Transformation Institute at Flinders University.

"The adoption of digital technologies in South Australia is giving rise to a new generation of manufacturers and highly skilled jobs," Professor Spoehr says.

"We welcome the opportunity to partner with the State Government and the Innovative Manufacturing CRC to establish a truly world-class facility at Flinders University at Tonsley."

The TMI Hub will provide practical training and real-world research opportunities for students, researchers and businesses wanting to learn more about automation, advanced robotics and the Internet of Things.

Facilities at the Flinders Tonsley location include the new generation of industrial robots – Baxter, Sawyer and UR5 – underwater vehicle development and testing capacity, a Faraday cage, a large hexapod robot for biomechanical testing, and a variety of digital manufacturing and rapid prototyping machines.

Professor Spoehr says the latest State Government funding will go towards the purchase of the Festo Cyber Physical Factory, a state-of-the-art i4.0 automation and robotics training and capability building platform.

Flinders University will contribute \$790,000 towards operational costs associated with the initiative – which includes employment of a dedicated industry engagement manager.

"The Tonsley Manufacturing Innovation Hub will play a leading role in Industry 4.0 training, education and capability building in South Australia," says Professor Spoehr.

# GOVERNMENT & INTERNATIONAL RELATIONS: understand your world; help shape its future

## Award-winning education

Providing nationally award-winning professional education in the public sector for over 30 years\*

\* Two public administration academics received citations for Outstanding Contributions to Student Learning from the Office for Learning and Teaching in 2009 and 2014.

*"The Master of Public Administration has been invaluable to my career. It opened up a whole new world for me, providing just the right mix of theoretical concepts and practical tools that could be directly applied to my work."*

**Georgina Cope**

Master of Public Administration (Management) graduate  
Team Leader at Pacific Leadership Program (Fiji)

## Public Administration, Management and Public Policy

<b>MASTER OF PUBLIC ADMINISTRATION (MANAGEMENT)</b> <b>MASTER OF PUBLIC ADMINISTRATION (POLICY)</b>	
<b>CRICOS CODE</b>	Public Administration: 051989E Public Administration (Management): 051990A Public Administration (Policy): 051991M
<b>COURSE LENGTH</b>	2 years full-time
<b>INTAKE</b>	Semester 1, Semester 2
<b>2019 FEE</b>	AUD\$31,000
<b>ENGLISH REQUIREMENTS</b>	IELTS: 6 (S6, W6) PTE: 50* (see pg 87)
<b>OPPORTUNITY FOR INDUSTRY EXPERIENCE</b>	
A Graduate Certificate in Public Policy, Graduate Certificate in Public Sector Management, and a Graduate Diploma in Public Policy and Management are also available.	

If you are a current or aspiring public sector manager or policy maker, the postgraduate program in public administration provides opportunities for you to enhance your understanding, knowledge and skills in this area. Graduate certificates and diplomas are available to enhance mid-career professional development and training. Candidates with suitable qualifications may commence at graduate diploma or masters levels.

### STUDY PROGRAM

The program includes a mixture of compulsory and elective topics, as well as individual research. Topics cover areas such as contemporary cases in public policy, theoretical perspectives on contemporary public policy, ethics in public administration, and governance and public policy. You can include electives in areas such as international development, international relations, international business, environmental management, social work, Asian governance, applied population studies, public health and educational administration.

### DELIVERY MODE

Most topics are available on campus and online.

### PRACTICAL EXPERIENCE

Graduate diploma and masters students have the opportunity to undertake an internship.

### ENTRY REQUIREMENTS

Applicants must normally hold an approved undergraduate degree or equivalent. Students who have completed the Graduate Certificate in Public Policy or Public Sector Management or Graduate Diploma in Public Administration (or other qualifications deemed equivalent) receive credit when progressing to the graduate diploma or masters degree. Alternatively, graduate diploma or masters students may choose to exit with a graduate certificate or graduate diploma after completing sufficient units.

### CAREER OPPORTUNITIES

Potential occupations include: community development worker, operational officer, administrative officer, policy researcher, tax inspector, tourism officer.

### FIND OUT MORE

Flinders also offers postgraduate government and international relations programs in the following areas:

### Development Administration

- Graduate Certificate in Development Administration

### International Relations

- Graduate Certificate in International Relations
- Graduate Diploma in International Relations
- Master of Arts (International Relations)

For more information on the postgraduate government and international relations courses available, including fees and entry requirements, refer to the course index on page 83 or visit our website: [flinders.edu.au/international/government-international-relations](http://flinders.edu.au/international/government-international-relations)

# HEALTH: deliver better quality lives through the health industry

*“Flinders University allowed me to explore my field in real life by offering many opportunities such as engaging with other people in the same field, online discussions/debates with classmates, workshops and expert speakers. Overall, I have grown as an individual in many ways.”*

**Bader Alqhtany**  
Master of Health Administration graduate  
PhD candidate

*“I have studied a wide variety of subjects, all of which have provided me with a far better understanding of the health sector and how I might be able to contribute to work effectively within it. My current director has supported and encouraged me endlessly in accomplishing this postgraduate degree, in particular providing me opportunities to use practical workplace issues for my papers and assignments. It was very satisfying to know that my studies directly benefited my workplace.”*

**Usha Ritchie**  
Graduate Diploma in Health Administration graduate  
Deputy Director of Pharmacy, Women's & Children's Health Network

## World-class health research

92% of discipline groups in medical and health sciences rated at or above world standard by the latest Excellence in Research for Australia Rankings 2015

### Disability Studies

MASTER OF DISABILITY POLICY AND PRACTICE	
CRICOS CODE	085325J 1.5 Years: 085326G
COURSE LENGTH	2 years full-time Advanced: 1.5 years full-time
INTAKE	Semester 1, Semester 2
2019 FEE	AUD\$34,200
ENGLISH REQUIREMENTS	IELTS: 6 (S6, W6) PTE: 50* (see pg 87)
A Graduate Certificate in Disability Studies is also available.	

Become an effective and respected professional in disability. The program aims to broaden the professional opportunities for graduates within an evolving policy and practice context. You will develop knowledge to assist people living with disabilities to participate in all aspects of their everyday life. This could include supporting people with disabilities in their educational, economic, recreational and social participation, and to be recognised as valued members of their local communities.

#### STUDY PROGRAM

Masters provides advanced policy and practice knowledge and skills that can be applied across the disability, allied health and human services professions. Content covers knowledge around assisting people with lifelong and acquired disabilities. Options include focusing on mental health, autism, intellectual disability and acquired brain injury, as well as policy and program development and evaluation.

#### PRACTICAL EXPERIENCE

Masters students have an option of completing a practical topic.

Before commencing a placement, students need to attain the Department for Communities and Social Inclusion's child, vulnerable, aged and disability clearances. They must also have successfully completed a first aid certificate.

#### ACCREDITATION

Masters graduates have access to full membership of the Developmental Educators Australia Inc, and status in the National Disability Insurance Scheme (NDIS) and other processional sectors as a developmental educator.

#### ENTRY REQUIREMENTS

**Masters:** Applicants must normally hold an approved bachelor degree of three or more years duration in an area related to disability.

**Masters (1.5 Years):** Applicants must normally hold an approved bachelor degree in disability from an approved tertiary institution, or an approved bachelor degree of four or more years duration in an area closely related to disability and two years of relevant professional experience, an honours degree in disability or a closely related discipline from an approved tertiary institution, or a graduate certificate in disability or a closely related discipline.

#### CAREER OPPORTUNITIES

Potential occupations include: developmental educator, industry trainer and facilitator, policy development officer, community development officer, community-based rehabilitation specialist, behavioural specialist.

#### FIND OUT MORE

### Health Administration

MASTER OF HEALTH ADMINISTRATION MASTER OF SCIENCE (HEALTH ADMINISTRATION)	
CRICOS CODE	Health Administration: 011341K Science (Health Administration): 023594A
COURSE LENGTH	Health Administration: 1.5 years full-time Science (Health Administration): 2 years full-time
INTAKE	Semester 1, Semester 2
2019 FEE	AUD\$34,000
ENGLISH REQUIREMENTS	IELTS: 6 (S6, W6) PTE: 50* (see pg 87)
PROFESSIONAL ACCREDITATION	
A Graduate Diploma in Health Administration is also available.	

Develop an understanding of management theories and principles and their application in health and aged care management. You will strengthen your practical management skills and develop the critical analytical skills applicable to current issues and policy creation in health services. The courses enhance your understanding of the health and aged care systems including financial management, operational, safety and quality, legal, informatics and leadership. You will also have opportunities to apply your critical and analytical skills to current policies, issues and dilemmas in health services.

#### STUDY PROGRAM

You will apply theory to management problems, use management tools and techniques, and reflect critically on your own practice as a manager. You are also able to pursue your personal interests by taking topics in public health, business, public administration, education and other disciplines at Flinders and other institutions. Topics cover areas such as health and aged care systems and policy, health law and ethics, safety and quality in health care.

#### DELIVERY MODE

Courses are taught at Flinders' city presence, Victoria Square. Some topics are taught in intensive delivery mode.

#### ACCREDITATION

Your studies will prepare you for membership of the Australasian College of Health Service Management, or if you are a registered medical practitioner, for entry to the Royal Australasian College of Medical Administrators. Our programs are accredited by the Australasian College of Health Service Management, and the Master in Health Administration has been approved by the Royal Australasian College of Medical Administrators.

#### ENTRY REQUIREMENTS

Applicants must normally hold a bachelor degree or equivalent and four years of post-graduation professional work experience in the health sector. Additionally, Master of Science (Health Administration) applicants must supply a CV and research proposal.

#### CAREER OPPORTUNITIES

Potential occupations include management and executive positions in health and aged care for: doctors, nurses, allied health professionals, other professionals involved in these industries – eg. accountants, policy workers.

### Health and International Development

MASTER OF HEALTH AND INTERNATIONAL DEVELOPMENT	
CRICOS CODE	051002J
COURSE LENGTH	2 years full-time
INTAKE	Semester 1, Semester 2
2019 FEE	AUD\$34,000
ENGLISH REQUIREMENTS	IELTS: 6 (S6, W6) PTE: 50* (see pg 87)

Working in international development is becoming increasingly complex. The Master of Health and International Development acknowledges this. In particular, it addresses the need for a more thorough understanding of international development by those working in the health sector, and the need for a more informed understanding of the role of health in development for international development managers and practitioners. It is designed for people working in government, NGOs or private consulting organisations either in Australia or overseas. The content has been developed to meet the needs of both external advisors and local health and/or development personnel.

#### STUDY PROGRAM

The course enables you to better plan, develop, manage and evaluate health initiatives and programs. It gives you an understanding of international development issues, and of public health and comprehensive primary health care as it applies in the developing world. You will gain critical insights into the contexts that shape health and development issues, research, policy and practice. Topics cover areas such as development problems, policies and programs; gender mainstreaming; social determinants of health and wellbeing; primary health care practice in developing countries; public health care practice development; gender analysis; and action on social determinants of health.

#### ENTRY REQUIREMENTS

Applicants must normally hold an approved bachelor degree or equivalent qualification from an approved tertiary institution.

#### CAREER OPPORTUNITIES

Potential occupations include: international public health officer, international health manager, development field worker, health work trainer, international development project officer, international health research officer.

#### FIND OUT MORE

## Nutrition and Dietetics

MASTER OF NUTRITION AND DIETETICS	
CRICOS CODE	002655M
COURSE LENGTH	2 years full-time
INTAKE	Semester 1
2019 FEE	AUD\$36,300
ENGLISH REQUIREMENTS	IELTS: 7 (S6.5, W6.5, R6.5, L6.5) PTE: 65* (see pg 87)
OPPORTUNITY FOR INDUSTRY EXPERIENCE PROFESSIONAL ACCREDITATION	

Undertake advanced studies in nutrition and dietetics, the pathophysiology of nutrition related illnesses, health promotion, communication skills, and clinical, community and public health nutrition skills. The course aims to train nutritionists and dietitians who are able to integrate and apply their knowledge, skills and attributes to the promotion of health and the prevention and treatment of illness by optimising the nutrition of communities and individuals.

### STUDY PROGRAM

There are two pathways within the degree: coursework and research. Eligibility for the research pathway is dependent on prior studies. Your study program will include lectures, tutorials, field placements, site visits, food practicals, and student seminars and presentations. Topics cover areas such as the nutrition care process, food service and professional practice, research methods and critical thinking in human nutrition, communication and nutrition counselling, and clinical nutrition and dietetics.

### PRACTICAL EXPERIENCE

This course includes clinical placements that aim to provide you with the practical experience required for the workplace.

As per Australian Government regulations, courses that have a placement involving contact with children, young people and/or vulnerable adults will require students to undergo a criminal history check prior to placement.

### ACCREDITATION

The course is accredited by the Dietitians Association of Australia. It is also recognised in UK, Canada, Singapore and New Zealand. The course equips graduates to meet the entry level competency standards specified by the Australian professional accrediting body, the Dietitians Association of Australia.

### ENTRY REQUIREMENTS

Applicants must normally hold an approved bachelor degree or an equivalent qualification that includes at least:

- the equivalent of 13.5 Flinders units (0.375 EFTSL) across the course of their undergraduate program in human nutrition, and food science topics in the areas of basic nutrition principles, life-cycle nutrition and food science
- the equivalent of 9 Flinders units (0.25 EFTSL) in chemistry topics studied at first year undergraduate level and followed by
- the equivalent of 9 Flinders units (0.25 EFTSL) in human biochemistry topics studied at second year undergraduate level
- the equivalent of 9 Flinders units (0.25 EFTSL) in human biology topics studied at first year undergraduate level and followed by
- the equivalent of 9 Flinders units (0.25 EFTSL) in human physiology topics studied at second year undergraduate level
- a credit average.

Applicants will be ranked for admission on the basis of their GPA.

This course has a specific application deadline. For more information, please contact the International Centre at: internationalapply@flinders.edu.au

### CAREER OPPORTUNITIES

Potential occupations include: clinical dietitian, community health worker, nutritionist, health promotion officer, research project officer.

### FIND OUT MORE

[flinders.edu.au/courses/postgrad/mnd](https://flinders.edu.au/courses/postgrad/mnd)

## Occupational Therapy

MASTER OF OCCUPATIONAL THERAPY	
CRICOS CODE	090620D
COURSE LENGTH	2 years full-time
INTAKE	Semester 1
2019 FEE	AUD\$38,400
ENGLISH REQUIREMENTS	IELTS: 7 (S6.5, W6.5, R6.5, L6.5) PTE: 65* (see pg 87)
OPPORTUNITY FOR INDUSTRY EXPERIENCE PROFESSIONAL ACCREDITATION	

Occupational therapy aims to promote the health and participation of people, organisations and populations through engagement in everyday activities or occupations. The program prepares you to become a contemporary health professional who is able to work effectively across a range of settings. Close partnerships with clinical agencies ensure supported placement experiences.

### STUDY PROGRAM

The program prepares you for professional practice as an occupational therapist. This profession has well-established research and evidence-based practice, which you will analyse and apply in this course. You will progressively study topics focusing on evaluation and practice of occupational therapy, interprofessional practice, and contemporary issues in occupational therapy practice.

### PRACTICAL EXPERIENCE

You will undertake 1,000 hours of clinical placement in accordance with the accreditation standards of the Occupational Therapy Council of Australia.

As per Australian Government regulations, courses that have a placement involving contact with children, young people and/or vulnerable adults will require students to undergo a criminal history check prior to placement.

### ACCREDITATION

This course has been developed to meet the Occupational Therapy Council's Accreditation Standards and the requirements of the World Federation of Occupational Therapy in regard to occupational therapy programs. The Master of Occupational Therapy has fulfilled the requirements for entry-level education of occupational therapists and has been awarded the status of Accredited Occupational Therapy Course by Occupational Therapy Australia and the World Federation of Occupational Therapists.

### ENTRY REQUIREMENTS

Applicants must normally hold an approved degree with a GPA of no less than 5.0 or an equivalent qualification, and have either completed the Bachelor of Health Sciences (Principles of Occupational Therapy) at Flinders University, or demonstrated that they have completed the following prerequisite topics:

- the equivalent of 9 units of study focused on an understanding of body structures and function, such as human biology, physiology and anatomy, including detailed musculoskeletal anatomy with an emphasis on the upper limb
- the equivalent of 4.5 units of study focused on an understanding of the human and social environment and social perspectives in health, such as psychology and sociology
- the equivalent of 4.5 units of study of research methods, and
- the equivalent of 4.5 units of study in communication skills.

### CAREER OPPORTUNITIES

Potential employers include: state government departments such as health, disability and education; large non-government agencies; private hospitals; aged care providers; schools; private rehabilitation companies.

### FIND OUT MORE

## Physiotherapy

MASTER OF PHYSIOTHERAPY	
CRICOS CODE	079421D
COURSE LENGTH	2 years full-time
INTAKE	Semester 1
2019 FEE	AUD\$40,000
ENGLISH REQUIREMENTS	IELTS: 7 (S6.5, W6.5, R6.5, L6.5) PTE: 65* (see pg 87)
OPPORTUNITY FOR INDUSTRY EXPERIENCE PROFESSIONAL ACCREDITATION	

Physiotherapists work with people and populations to develop, maintain and restore maximum movement and functional ability throughout their lives. Teaching for the course is embedded mainly within clinical settings across South Australia and has close links with healthcare providers to best prepare you for professional practice as a physiotherapist. Emphasis is placed on preparing you to become a contemporary health professional who is able to work effectively across a range of settings.

### STUDY PROGRAM

The degree prepares you for professional practice as a physiotherapist in Australia. This profession has well-established research and evidence-based practice, which you will analyse and apply in this course. You will progressively study interprofessional practice, musculoskeletal practice, cardiorespiratory practice, neurological rehabilitation, and complex case and chronic disease. Clinical placements are included in every semester to ensure competency in practice.

### PRACTICAL EXPERIENCE

The course includes 26 weeks of clinical placement. You will be expected to undertake placements in metro Adelaide and in rural or remote areas of South Australia and/or Australia. Placements are often scheduled outside of normal university teaching weeks.

All physiotherapy students will be required to complete a criminal history check prior to undertaking any placement and registered with the relevant national board via the Australian Health Practitioner Regulation Agency. The law requires all students in the Master of Physiotherapy to be registered with the Physiotherapy Board of Australia throughout the duration of the course.

You will be provided with further information upon commencing the course.

### ACCREDITATION

The course is accredited by the Australian Physiotherapy Council and satisfies the academic requirements for registration as a physiotherapist with the Physiotherapist Board of Australia. Applicants who are overseas trained physiotherapists and are eligible to apply for Australian registration by the Australian Physiotherapy Council are encouraged to seek advice before submitting an application for this course.

### ENTRY REQUIREMENTS

Applicants must normally hold a bachelor degree or equivalent from an approved tertiary institution with a GPA of no less than 5.0, or an equivalent qualification. Refer to our website for perquisites.

This course has a specific application deadline. For more information, please contact the International Centre at: internationalapply@flinders.edu.au

### CAREER OPPORTUNITIES

Potential employers include: hospitals, community health centres, aged care facilities, mental health services, rehabilitation centres, sports clinics and fitness centres.

## Public Health

MASTER OF PUBLIC HEALTH	
CRICOS CODE	020926K
COURSE LENGTH	1.5 years full-time
INTAKE	Semester 1, Semester 2
2019 FEE	AUD\$34,000
ENGLISH REQUIREMENTS	IELTS: 6 (S6, W6) PTE: 50* (see pg 87)
A Graduate Certificate in Public Health is also available.	

Explore and redefine public health practice to promote health in light of contemporary knowledge. The courses are founded on a commitment to the advancement of quality and integrity in multidisciplinary practice, and principles of equity, inclusiveness, accountability and community participation. They create opportunities for health professionals to examine workplace issues and to formulate new ways of addressing them and putting them into practice. The teaching and learning focuses primarily on helping health professionals change their practice in light of new insights. Topic assignments may be related to workplace issues and problems.

### STUDY PROGRAM

The program aims to provide you with the knowledge and skills to incorporate the principles of primary health care in order to reduce inequalities in health care access and health outcomes. Masters teaches you to apply this knowledge and these skills in relation to public health principles, values and practices that reduce inequity in health care, and improve population health status. Topics cover areas such as action on social determinants of health, social determinants of health and wellbeing, and critical practice in Indigenous health.

### ENTRY REQUIREMENTS

**Masters:** Applicants must normally hold a bachelor degree in a related field or hold a graduate certificate offered by public health at Flinders University.

### CAREER OPPORTUNITIES

Potential occupations include: public health officer, health administrator, public health senior consultant, health promotion planning and evaluation officer, health information officer, health and safety manager.

Speech Pathology

MASTER OF SPEECH PATHOLOGY	
CRICOS CODE	054304D
COURSE LENGTH	2 years full-time
INTAKE	Semester 1
2019 FEE	AUD\$40,400
ENGLISH REQUIREMENTS	IELTS: 7 (S6.5, W6.5, R6.5, L6.5) PTE: 65* (see pg 87)
OPPORTUNITY FOR INDUSTRY EXPERIENCE PROFESSIONAL ACCREDITATION	

Speech pathologists provide professional services for persons whose educational, vocational, personal and social functioning is impaired by disorders of speech, language, voice, swallowing, fluency and hearing. Communication and swallowing disabilities may severely impact people's quality of life and result from developmental difficulties, social disadvantage, illness or accident.

This coursework program is founded on principles designed to encourage lifelong learning in the practice of speech pathology.

STUDY PROGRAM

The program comprises three streams: professional studies and communication sciences, speech pathology skills and practice, and research methods. Professional studies and communication sciences focuses on the areas of professional practice, including speech, language, voice, fluency, swallowing and multimodal communication. Speech pathology skills and practice involves Work-Integrated Learning placements under the supervision of placement educators, plus regular clinical skills tutorials on campus. Research methods introduces you to evidence-based practice in the discipline of speech pathology and ensures you can understand, critique and apply research methodology as a clinician-researcher.

PRACTICAL EXPERIENCE

You will undertake Work-Integrated Learning from the start of your course, and practise your skills under the supervision of practice educators. Extensive practical experience commences in the first three weeks of the course and continues throughout.

Prior to commencement, students are required to undertake specified health checks, immunisations and criminal history screening. Successful applicants will be advised about this process.

ACCREDITATION

Graduates will meet the entry-level standards of Speech Pathology Australia, the national accrediting body, which will enable them to practise in Australia and in many other countries around the world including the UK, New Zealand and Asia.

ENTRY REQUIREMENTS

Applicants must normally hold an approved bachelor degree with a minimum of credit average. No specific undergraduate degree is required for admission. Admission will be based on the combined scores from a structured interview (may be by Skype) and the applicant's best GPA from a previous bachelor degree or equivalent.

This course has a specific application deadline. For more information, please contact the International Centre at: internationalapply@flinders.edu.au

CAREER OPPORTUNITIES

Potential employers include: healthcare sector (including hospitals, rehabilitation centres, community health services, mental health services), aged care sector, disability services sector, education sector (including mainstream, special schools and special education units), early childhood education sector, private practice.

INTERNATIONAL STUDENT OF THE YEAR

Deputy Vice-Chancellor (Students) Professor Clare Pollock with Dr Emmanuel Ita Bassey and Mrs Helen Bassey at the International Student Awards at Government House

Our students are recognised as leaders who drive positive change. The impact of their work is being felt across the globe.

Flinders University student Dr Emmanuel Ita Bassey beat hundreds of entrants from major South Australian universities to win South Australian International Student of the Year 2016.

The former clinician, who lost his sight to cataract disease several years ago, has established a visual rehabilitation unit in a tertiary eye hospital in Nigeria to save people travelling up to 2,000km for treatment. As well as being medical officer (visual rehabilitation) at the hospital, he is acting secretary of the Nigerian Computer Association of the Blind.

“Receiving this award is such an amazing honour,” Dr Bassey says.

“When I lost my sight, I couldn’t practise medicine anymore, and that’s why I’m in Australia to do this disability study.

“Now I’ve applied to Flinders to commence a PhD in disability studies in July 2017 to continue helping Nigerians with adult-onset visual impairment and many other disabilities.”

Studying at Flinders as an Australia Awards scholar, Dr Bassey has received a letter of commendation from Flinders University’s Chancellor and been recognised by the Golden Key International Honours Society for academic excellence.

Vice-President and Pro Vice-Chancellor (International) Sebastian Raneskold says there are hundreds of nominations every year from across South Australia’s educational institutions for the international awards.

“Emmanuel’s outstanding academic capabilities, and inspiring career goals and personal attributes, made him a very worthy recipient of the International Student of the Year and Academic Excellence awards,” Mr Raneskold says.

“Even more importantly, he will use his Flinders University study to further improve the lives of many more Nigerian people living with disabilities to reach their full potential.”

# LAW & CRIMINOLOGY:

## law is the practical & ethical application of justice

*“When studying law at Flinders, you learn to think and analyse like a lawyer should. You learn to identify the issues and think about things in a logical manner. You learn to communicate and explain the law to clients verbally and in writing. I ended up doing quite well academically and that was in no small part to the assistance I got from staff.”*

**Maria Ho**  
Law graduate  
Partner at Minter Ellison SA/NT

# Top-ranked criminology research

Draw on one of the top-ranked criminology research programs in Australia according to the latest Excellence in Research for Australia Rankings 2015

## Laws and Legal Practice

BACHELOR OF LAWS AND LEGAL PRACTICE (GRADUATE ENTRY)	
CRICOS CODE	037584K Honours: 079411F
COURSE LENGTH	3.5 years full-time
INTAKE	Semester 1, Semester 2 (Semester 1 Honours)
2019 FEE	AUD\$32,000
ENGLISH REQUIREMENTS	IELTS: 7 (S6.5, W6.5, R6.5, L6.5) PTE: 65* (see pg 87)

Focus on professional legal skills and critical perspectives on the function of law in society. You will develop high level communication, presentation and teamwork skills in preparation for practising law, or for future leadership roles in a range of educational and professional settings.

### STUDY PROGRAM

The program enables you to acquire essential foundational legal skills. You will gain knowledge of Australian law and the ability to evaluate it critically. You will acquire a range of key skills such as interviewing, drafting, advocacy, negotiation and teamwork to enable you to translate legal rights into practice within real-world scenarios. Honours includes an enhanced research training experience, the option for up to two masters-level electives and a minor dissertation. Topics cover areas such as legal research and writing, criminal law and legal method, introduction to public law, and contracts.

### PRACTICAL EXPERIENCE

Study the practical legal topics required to be admitted to legal practice, undertake Work-Integrated Learning placements for practical legal topics, and get hands-on experience through Flinders' Legal Advice Clinic.

### ACCREDITATION

Successful completion satisfies the academic and practical requirements underpinning eligibility to be admitted as a barrister and solicitor in South Australia.

### ENTRY REQUIREMENTS

Applicants for the graduate-entry degrees must hold a recognised undergraduate degree or equivalent from an approved tertiary institution. Admission to the Bachelor of Laws and Legal Practice (Graduate Entry) is by quota, based on academic merit. A pass average or greater is required. Admission to the Bachelor of Laws and Legal Practice (Graduate Entry) (Honours) is by quota, based on academic merit. A credit average or greater is required.

### CAREER OPPORTUNITIES

Potential occupations include: lawyer, federal prosecutor, graduate analyst, graduate policy officer, graduate solicitor.

### FURTHER STUDY

Options include: Master of Laws (Research), Master of Laws (International Laws and International Relations), PhD.

### FIND OUT MORE

[flinders.edu.au/courses/undergrad/blawlp](https://flinders.edu.au/courses/undergrad/blawlp)

# MEDICINE: the science & art of treating disease & maintaining health

*“My medical education at Flinders was innovative, almost revolutionary, personalised, rigorous, research orientated, and has given me a welcome legacy of lifelong enquiry.”*

**Professor Chris Baggoley AO**  
Medicine graduate  
Chief Medical Officer of Australia 2011-2016

## World-class health research

92% of discipline groups in medical and health sciences rated at or above world standard by the latest Excellence in Research for Australia Rankings 2015

## Doctor of Medicine

DOCTOR OF MEDICINE (MD)	
CRICOS CODE	077675J
COURSE LENGTH	4 years full-time
INTAKE	Semester 1
2019 FEE	AUD\$70,500
ENGLISH REQUIREMENTS	IELTS: 7 (S7, W7, R7, L7) PTE: 65^ (see pg 87)

Graduate entry to the MD provides an alternative to the traditional pathway from secondary school to an undergraduate medical course. The four-year program enables you to graduate with a medical qualification that is comparable to a six-year undergraduate program. The medical program aims to develop the elements of knowledge, understanding and skill central to varied areas of medical practice, producing graduates well prepared to act as hospital interns and with the potential to follow a full range of medical specialties in subsequent training.

### STUDY PROGRAM

Throughout the course there are three broad topics or themes: doctor and patient, knowledge of health and illness, and health professions and society. The program focuses on student-centred learning with longitudinal development of the knowledge, skills, and personal and professional attributes required of a doctor. Topics cover areas such as interaction between doctor and patient, knowledge of health and illness, health professions and society, socially responsible health practice, clinical research foundations, and advanced studies.

### PRACTICAL EXPERIENCE

The degree offers a hand-on approach, blending community and hospital training that offers you exposure to the broad spectrum of health care from the primary to the tertiary level. Topics introduce you to clinical practice and performance, and you will undertake practicals and clinical placements throughout the degree.

As per Australian Government regulations, courses that have a placement involving contact with children, young people and/or vulnerable adults will require students to undergo a criminal history check, and to comply with policies on immunisation and blood borne viruses prior to placement.

### ACCREDITATION

All medical students will be registered with the Australian Health Practitioner Regulation Agency, which has responsibility for ensuring that all persons permitted to practise medicine in Australia should be fit and proper persons to maintain professional standards.

### ENTRY REQUIREMENTS

Applicants must:

- hold an approved undergraduate degree or equivalent qualification from an approved tertiary institution
- hold a valid Graduate Medical Schools Admission Test (GAMSAT) or North American Medical College Admissions Test (MCAT)
- attend an interview.

The course has a specific application deadline. For more information please contact the International Centre at: [internationalapply@flinders.edu.au](mailto:internationalapply@flinders.edu.au)

### CAREER OPPORTUNITIES

Potential occupations after internship include: general practitioner, hospital medical officer, medical specialist, general practitioner in urban, rural and remote settings.

Upon graduation, you must complete a year as a hospital intern to qualify for medical registration with the Medical Board of Australia. After internship and a possible further year in a training position, you can then apply to undertake specialist training with a medical college. In addition to clinical practice in a wide range of medical specialties, medical graduates may work in research, public health or community aid around the world, or in health administration.

### FURTHER STUDY

Options include: a variety of masters programs in health, especially public health and clinical education, PhD.

### FIND OUT MORE

[flinders.edu.au/courses/postgrad/md](http://flinders.edu.au/courses/postgrad/md)

*“The strong clinical program at Flinders gave me the skills that I use every day to diagnose my patients. Studying medicine involves maintaining focus on your ultimate goal.”*

**Felicia Hui**  
Medicine graduate  
Doctor, Greenwich Hospital (US)

# NURSING & MIDWIFERY: hold life & health in your hands

## World-class nursing research

Nursing research rated above world standard  
by the latest Excellence in Research for Australia  
Rankings 2015

### Nursing (Coursework and Research)

MASTER OF NURSING (COURSEWORK AND RESEARCH)	
CRICOS CODE	088952B
COURSE LENGTH	1.5 years full-time
INTAKE	Semester 1, Semester 2
2019 FEE	AUD\$32,600
ENGLISH REQUIREMENTS	IELTS: 6.5 (S6, W6, R6, L6) PTE: 58* (see pg 87)

Undertake advanced studies in nursing practice and research to contribute to the present and future development of healthcare services and the nursing profession. In addition to developing specialist nursing skills and competencies, you will have the opportunity to conduct research in an area of interest with the support of individualised supervision. You will become competent at reviewing, critiquing and synthesising literature to support your research, and will develop skills for completion and submission of research grant proposals for ethical approval and funding applications.

#### STUDY PROGRAM

You will be introduced to the drivers for research within industry and the broader community, learn to identify and apply appropriate research paradigms and methods, and develop sound project management skills. Core topics cover areas such as approaches to research designs, introduction to research, developing a literature review, and writing research proposals for ethical and funding requirements. You will also select a number of option topics and undertake a research project/thesis.

#### ENTRY REQUIREMENTS

Applicants must normally hold an approved bachelor degree or equivalent qualification and must be registered nurses. Applicants for this pathway will be required to provide a brief statement (research proposal) regarding the area of research they would like to undertake. Research proposals are subject to course coordinator approval and the University's ability to provide suitable research supervision to students depending on their proposed research topic.

#### CAREER OPPORTUNITIES

Potential occupations include: clinical nursing specialist, healthcare researcher, educator, manager, policy leader.

#### FURTHER STUDY

Successful completion of the program through submission of an 18-unit minor thesis prepares you for higher degree research studies (PhD) and/or research in the clinical setting.

#### FIND OUT MORE

[flinders.edu.au/courses/postgrad/ngcr](http://flinders.edu.au/courses/postgrad/ngcr)

### Primary Health Care Nursing

MASTER OF NURSING (PRIMARY HEALTH CARE)	
CRICOS CODE	088949G
COURSE LENGTH	1.5 years full-time
INTAKE	Semester 1, Semester 2
2019 FEE	AUD\$32,600
ENGLISH REQUIREMENTS	IELTS: 6.5 (S6, W6, R6, L6) PTE: 58* (see pg 87)

A Graduate Diploma in Nursing (Primary Health Care) is also available.

Specifically designed for international students, this program enables you to study with domestic students and undertake observational professional experience placement (PEP) opportunities previously unavailable to international students. It aims to facilitate the development of specialised knowledge in working with individuals, groups, families and communities within a broad primary healthcare framework.

#### STUDY PROGRAM

The program helps you develop specialised knowledge, skills and attributes for application in a range of primary health care nursing environments. Topics cover areas such as primary health care constructs and contexts; social context of health and ageing; introduction to working with infants, children and families; health management for infants, children and young people; diabetes management; community and primary health care nursing; and an observational professional experience placement.

#### PRACTICAL EXPERIENCE

You will have the opportunity to undertake an observational professional experience placement (PEP) in a South Australian primary healthcare setting. This will enable you to contextualise care in Australia and exchange information about nursing practices in your country of origin.

#### ENTRY REQUIREMENTS

Applicants must normally hold an approved degree or equivalent qualification and must be a registered nurse in a country other than Australia. Applicants must also provide a supporting statement nominating their area of clinical preference in primary health care nursing for university-sourced observational professional experience placement. The course will not lead to registration with the Nursing and Midwifery Board of Australia.

#### CAREER OPPORTUNITIES

Potential occupations include: case coordinator, clinical nurse specialist, health promotion nurse, community health nurse, injury management officer, mental health nurse.

#### FURTHER STUDY

Please note that this program does not meet the requirements for admission into a PhD.

#### FIND OUT MORE

# PSYCHOLOGY: the science of the mind & the study of behaviour

## Top 200 worldwide

Flinders is ranked among the top 200 universities worldwide for psychology according to the QS world university rankings by subject 2018.

*"After 15 years in the physical sciences, I wanted a change. I love learning about people and what makes us who we are and, as a scientist, psychology (the science of the mind) seemed like a great fit. Graduate entry into psychology opened an efficient pathway for me to change career. The coursework has been stretching yet fascinating, and the opportunity to design and lead my own research projects has been especially exciting. As a scientist who deeply cares about people, I feel I have found my place."*

**Ben McLean**  
Clinical Psychology PhD candidate

### Psychology (Clinical)

MASTER OF PSYCHOLOGY (CLINICAL)	
CRICOS CODE	051844M
COURSE LENGTH	2 years full-time
INTAKE	Semester 1
2019 FEE	AUD\$35,300
ENGLISH REQUIREMENTS	IELTS: 7 (S7, W7, R7, L7) PTE: 65 <sup>A</sup> (see pg 87)
OPPORTUNITY FOR INDUSTRY EXPERIENCE	
PROFESSIONAL ACCREDITATION	

Graduates of psychology honours programs who wish to qualify as registered psychologists can undertake the Master of Psychology (Clinical). The course aims to prepare you for professional work in a wide variety of settings, ranging across community mental health, hospital and health care facilities, community welfare, and correctional service settings. It provides you with theoretical knowledge, research and clinical skills leading to professional registration. Experience is provided in both adult and child domains of clinical psychology.

#### STUDY PROGRAM

The study program is made up of coursework, supervised practicals and a research project. Topics cover areas such as counselling and professional issues, clinical child psychology, cognitive behaviour therapy, psychological assessment, abnormal psychology and psychopharmacology, and research methods.

#### PRACTICAL EXPERIENCE

You will complete clinical placements as part of the program.

#### ACCREDITATION

The course meets the requirements for general registration as a psychologist with the Psychology Board of Australia and membership of the Australian Psychological Society.

#### ENTRY REQUIREMENTS

Applicants must normally hold an honours degree at high 2A level or greater in psychology. The course has a specific application deadline. For more information please contact the International Centre at: [internationalapply@flinders.edu.au](mailto:internationalapply@flinders.edu.au)

#### CAREER OPPORTUNITIES

Graduates are eligible for registration as psychologists, and qualified to work in a range of mental health settings. People with existing careers in human services such as nursing, teaching, the public service, social work and human resources undertake this course to better understand human behaviour and to add depth to their knowledge and work skills.

#### FIND OUT MORE

# SCIENCE & ENVIRONMENT: science is the key to understanding the future of our world

## Australian University Teacher of the Year 2016

Associate Professor Karen Burke da Silva, Dean (Education) for the College of Science and Engineering, won the Australian University Teacher of the Year award in 2016

### Biotechnology

MASTER OF BIOTECHNOLOGY	
CRICOS CODE	043767G
COURSE LENGTH	2 years full-time
INTAKE	Semester 1, Semester 2
2019 FEE	AUD\$34,000
ENGLISH REQUIREMENTS	IELTS: 6 (S6, W6) PTE: 50* (see pg 87)

A Graduate Certificate and Graduate Diploma in Biotechnology are also available.

Distilling expertise in the biological sciences and medicine, the biotechnology postgraduate program at Flinders is designed to provide you with advanced theoretical scientific knowledge and strong research training plus an understanding of industry and business issues required for modern biotechnology. Flinders University is one of the pioneers of biotechnology education in Australia and places a strong emphasis on research training.

#### STUDY PROGRAM

Theoretical scientific knowledge is complemented by practical laboratory and business training. The law, ethics, society and the environment have great relevance in biotechnology and all are examined. Core topics cover areas such as DNA to genome; protein to proteome; molecular biotechnology; legal, ethical and social aspects of bioscience; and professional skills for biotechnology. Application topics cover industrial and pharmaceutical biotechnology; environmental biotechnology; and plant and food biotechnology.

#### PRACTICAL EXPERIENCE

You will receive practical laboratory training as well as business training in financial, marketing and management skills. The masters has a 10-month research project that provides in-depth research training often linked with the biotechnology industry.

#### ENTRY REQUIREMENTS

Applicants must normally have completed an approved bachelor degree in biological, agricultural or medical science with a first class or 75% average mark.

#### CAREER OPPORTUNITIES

Potential occupations include: bioanalytical chemist, biodiscovery, research scientist, business development manager, medical scientist, biotechnologist.

#### FURTHER STUDY

Graduates of the masters who complete with a distinction average in the course and a distinction in the research topic are eligible to apply for PhD candidature.

#### FIND OUT MORE

[flinders.edu.au/courses/postgrad/bt](http://flinders.edu.au/courses/postgrad/bt)

### Environmental Management

MASTER OF ENVIRONMENTAL MANAGEMENT	
CRICOS CODE	030806B
COURSE LENGTH	2 years full-time
INTAKE	Semester 1, Semester 2
2019 FEE	AUD\$33,000
ENGLISH REQUIREMENTS	IELTS: 6 (S6, W6) PTE: 50* (see pg 87)

A Graduate Certificate and Graduate Diploma in Environmental Management are also available.

Human-environment interactions pose some of the biggest challenges of the 21st century (climate change, deforestation, water resource availability, energy consumption, urban expansion, population growth and food security). Understanding contemporary environmental challenges and solving environmental problems requires both knowledge of ecological and physical processes, and insight into the cultural, demographic, economic, geographical and political aspects of human-environment connections. The postgraduate environmental management program combines social science with the study of physical geography, earth science and biology to provide the breadth of knowledge required of environmental managers.

#### STUDY PROGRAM

The program is international in scope, but case study material draws strongly on the experience of Australia and other countries within the Asia-Pacific region. All three courses combine important theoretical knowledge with the opportunity to complete skill-based topics. You can select from a large range of topics to build a study program that suits your interests and current or future employment requirements.

#### ENTRY REQUIREMENTS

Applicants must normally hold an approved bachelor degree or equivalent qualification.

#### CAREER OPPORTUNITIES

Potential occupations include: policy officer, research officer, planning officer, on-ground manager, environmental consultant.

# SOCIAL WORK: contribute to a more just society

## Very strong jobs growth

Future jobs growth in social work very strong according to Australian Government’s Job Outlook statistics

### Social Work

MASTER OF SOCIAL WORK	
CRICOS CODE	019222G
COURSE LENGTH	2 years full-time
INTAKE	Semester 1, Semester 2
2019 FEE	AUD\$31,500
ENGLISH REQUIREMENTS	IELTS: 6.5 (S6, W6, R6, L6) PTE: 58* (see pg 87)
OPPORTUNITY FOR INDUSTRY EXPERIENCE	
PROFESSIONAL ACCREDITATION	

Develop the knowledge and skills to practise responsibly and reflectively as a professional social worker. This course is designed to provide higher degree coursework and meets the standards set by the Australian Association of Social Workers.

#### STUDY PROGRAM

The program teaches you to research, analyse and articulate a framework for inclusive and ethical professional social work practice. You will develop the skills to identify the cultural context of various approaches and their relevance to specific situations and populations, and to delineate the connections between interpersonal practice, social policy and research.

Topics cover areas such as social work with diverse populations, complexities in work with children and families, mental health through the life course, and trauma and resilience.

#### DELIVERY MODE

Some topics are taught in intensive delivery mode.

#### PRACTICAL EXPERIENCE

You will undertake two field placements totalling 500 hours each and there may be opportunities for overseas placements.

As per Australian Government regulations, courses that have a placement involving contact with children, young people and/or vulnerable adults will require students to undergo a criminal history check prior to placement.

#### ACCREDITATION

Master of Social Work graduates are eligible for membership with the Australian Association of Social Workers (AASW). Students must have completed an accredited degree and also meet the AASW English language requirements.

#### ENTRY REQUIREMENTS

Applicants must normally hold a bachelor degree with a competitive GPA. International applicants will be required to complete two intensive foundation topics. These topics run for one week only prior to the start of first and second semesters. The study of the foundation topics will not incur a tuition fee.

#### CAREER OPPORTUNITIES

Potential occupations include: community services project officer, case manager, advocacy worker, mental health worker, social research officer, youth pathways project officer.

#### FIND OUT MORE

[flinders.edu.au/courses/postgrad/msw](https://flinders.edu.au/courses/postgrad/msw)

*“Choosing Flinders University for the Master of Social Work program was one of the best investments I have made for me. The field placements organised by Flinders University have helped me to apply my theoretical knowledge to practice.”*

**Chinelo Iheka**  
Master of Social Work student

# RESEARCH METHODS

### Research Methods

GRADUATE DIPLOMA IN RESEARCH METHODS	
CRICOS CODE	088512D
COURSE LENGTH	1 year full-time
INTAKE	Semester 1, Semester 2
2019 FEE	AUD\$28,000
ENGLISH REQUIREMENTS	IELTS: 6 (S6, W6) PTE: 50* (see pg 90)

The Graduate Diploma in Research Methods is designed to provide you with high-level knowledge and skills in research methods, and the opportunity to develop in-depth knowledge in your subject area as a pathway to higher degree research. A research thesis/project makes you eligible to apply for various scholarship opportunities and entry into higher degree research.

This course can be pursued in any one of the six colleges of the University:

- Business, Law and Government
- Education, Psychology and Social Work
- Humanities, Arts and Social Sciences
- Medicine and Public Health
- Nursing and Health Sciences
- Science and Engineering.

By studying within a specific college of the University, you are provided with expertise and support that is directly relevant to your chosen area of study.

#### STUDY PROGRAM

The program aims to provide you with the knowledge and skills to incorporate the principles of primary health care in order to reduce inequalities in health care access and health outcomes. Masters teaches you to apply this knowledge and these skills in relation to public health principles, values and practices that reduce inequity in health care, and improve population health status. Topics cover areas such as action on social determinants of health, social determinants of health and wellbeing, and critical practice in Indigenous health.

#### PRACTICAL EXPERIENCE

The degree prepares you with the skills to independently plan research activities, manage your time, and present your research both orally and in writing.

#### ENTRY REQUIREMENTS

Applicants must normally hold an approved degree or equivalent qualification from an approved tertiary institution and have achieved a grade point average (GPA) of 5.00 (credit) or greater. Admission to the course is subject to the approval of your project, the college being able to provide appropriate resources, and the discipline area being able to provide suitable supervision for the program of study. This course is unavailable in psychology due to accreditation and topic prerequisites. Applicants will be required to submit a research statement by completing a form outlining their proposed area of research and potential supervisor.

#### CAREER OPPORTUNITIES

Graduates can pursue careers in areas such as the government sector, private or corporate consulting sectors and research institutions.

#### FURTHER STUDY

Students will normally be required to achieve a GPA of at least 6.0 to be eligible to apply for higher degree research. In addition, all higher degree research applications will be conditional on a suitable project, funding and supervisor. Graduates may also be able to undertake a coursework masters degree in a range of disciplines.

## General Notes

Fees listed are valid for students who commence in the 2019 academic year only and include the University's Student Services and Amenities Fee (SSAF). Students should be aware that annual tuition fees will be subject to an increase for each year of study and may be different from future published commencing fees. You will be liable for these fees upon acceptance of an offer from Flinders University. In the event of a variation between the fees listed here and the approved University schedule of tuition fees found at [flinders.edu.au/international](http://flinders.edu.au/international), the approved University schedule will prevail. Please also note that some courses may require students to purchase uniforms, clinical laboratory or workshop materials or equipment or to undertake field trips. Administrative fees may also be charged for variations of enrolment such as deferral, transfer of study, or reinstatement of enrolment. The University reserves the right to alter, amend or delete any course, fee or entry requirement without prior notice.

# Entry requirement notes

## Pearson English Test

50\* Overall score of 50 with 50 in writing and speaking

58\* Overall score of 58 with 50 in writing, speaking, listening and reading

65\* Overall score of 65 with 58 in writing, speaking, listening and reading

65^ Overall score of 65 with 65 in writing, speaking, listening and reading

73\* Overall score of 73 with 73 in writing, speaking, listening and reading

# International student policy

The International Student Policy and Procedures Statement details the specific provisions that apply to international students undertaking a Flinders University course, except where that course is offered by another institution on behalf of the University.

In such instances, the other institution's policies and procedures will apply. The statement can be found at:  
**[flinders.edu.au/ppmanual/student/international-students.cfm](http://flinders.edu.au/ppmanual/student/international-students.cfm)**

It is important that students read and understand these provisions prior to accepting their offer at Flinders University. Specific provisions include:

- the University's commitment to working within the Education Services for Overseas Students (ESOS) Act and National Code (2018)
- English language proficiency requirements
- admissions policies for international undergraduate, postgraduate, Study Abroad and Exchange students including basis of admission and assessment of qualifications
- tuition fees, the payment of tuition fees and refund policies
- duration of study, deferrals, suspension, and cancellation of student's enrolment policies.

# Applying to Flinders

The following pages provide a summary of the application process. For more detailed information, visit our website:

**[flinders.edu.au/international/apply](https://flinders.edu.au/international/apply)**

# Entry requirements

To enrol at Flinders as a postgraduate student you must meet the following academic and English language proficiency requirements for admission:

## Academic entry requirements

For graduate certificates, graduate diplomas and masters programs:

- For most degrees you must have satisfactorily completed a degree considered comparable to an Australian bachelors degree.
- Some degrees may require work experience to meet the entry requirements. A reference or statement from your employer will be required.

For masters by research and doctor of philosophy (PhD):

- For admission to a research higher degree program, you normally need an Honours Class 1 or 2A degree or equivalent, although other qualifications may be considered.
- Direct entry into a PhD is also dependent on the strength of your research background and you may be required to undertake a qualifying program if your research profile is not considered sufficient.

Some specific courses have additional entry requirements. These can be found at: [flinders.edu.au/postgrad/apply](http://flinders.edu.au/postgrad/apply)

## English language entry requirements

For applicants whose first language is not English you will need to have:

- achieved the required test score for your course as listed in the course index at the back of this publication. Test results must be no more than two years old on the proposed date of commencement of the course; or
- successfully completed an approved secondary or tertiary qualification, taught in the English language in a country where Flinders recognises English as the official language or the main language spoken (for up to an overall IELTS of 6.5 band scores) with evidence no more than five years old on the proposed date of commencement of the course; or
- successfully completed a pre-course English program from an approved ELICOS provider (evidence of completion must be no more than two years old on the proposed date of commencement of the course).

Other evidence of English language proficiency may be considered.

For more information visit: [flinders.edu.au/international/apply/entry-requirements/english-language-requirements](http://flinders.edu.au/international/apply/entry-requirements/english-language-requirements)

# Pathways to Flinders

Don't meet our academic or English language entry requirements? There are other pathways to Flinders.

Applicants who do not meet our English language requirements and need to improve their proficiency can do so through our approved English language (ELICOS) providers. This means you can attend the required English language tuition at approved ELICOS providers and gain direct entry into Flinders once meeting the required level, without having to sit an IELTS or TOEFL test.

Flinders' approved ELICOS providers include:

- Flinders International Study Centre [isc.flinders.edu.au](http://isc.flinders.edu.au)
- Intensive English Language Institute (IELI) located on campus at Flinders [ieli.sa.edu.au](http://ieli.sa.edu.au)
- Eynesbury College [eynesbury.navitas.com](http://eynesbury.navitas.com)
- English College of Adelaide [eca-jca.edu.au](http://eca-jca.edu.au)
- South Australian College of English (SACE) [sacecoll.sa.edu.au](http://sacecoll.sa.edu.au)
- For more information, please visit: [flinders.edu.au/international/pathways](http://flinders.edu.au/international/pathways)

## Pathway to higher degree research

We offer a Graduate Diploma in Research Methods as a pathway to a research higher degree.

For more information, please see page 77 of this guide, or visit: [flinders.edu.au/graduate-research/pathways](http://flinders.edu.au/graduate-research/pathways)

## Pre-masters business program at Flinders International Study Centre

**CRICOS Code:** Accelerated - 085891A  
**CRICOS Code:** Standard - 085892M

Specifically designed for international students, the Pre-Masters Business Program is an advanced course of English language and academic preparation. The course will fully prepare you for joining the Master of Business, Master of Accounting or Master of Accounting and Finance degree at Flinders University.

For more information, please visit: [isc.flinders.edu.au/our-courses/pre-masters-program](http://isc.flinders.edu.au/our-courses/pre-masters-program)

# Admission process

Admission to Flinders University is a simple four-step process.

## 1 Your application

### Your application

Submit your application, making sure you include all the required documents as attachments.

Once your application is received by Flinders University International Centre, you will be sent an acknowledgement of your application being received and we will advise you if any further information or documentation is required.

### Your offer of admission

Your offer of admission is usually sent out to you by email. If you do not have an email address we will post the offer letter directly to you or email your agent. We will endeavour to send your offer letter within 10-14 working days, however there may be delays where you have applied for a course with strict quotas or additional entry requirements, or where credit/exemption is sought for previous study.

Included in the offer of admission is a weblink to 'Your Offer Letter Explained'. At this stage you will be required to accept the offer by completing the acceptance form and any associated declarations. You will also be required to pay the relevant tuition fees for the first semester and visa-length Overseas Student Health Cover (OSHC) as detailed in your offer of admission.

### Confirmation of enrolment

We will issue the Confirmation of Enrolment (COE) upon receipt of the signed acceptance, review of the declaration, and payment of fees and OSHC.

With the COE you can apply for your student visa. Please check your visa requirements at: [homeaffairs.gov.au](http://homeaffairs.gov.au)

### Arrival and orientation

Pre-arrival information to assist you prior to your departure for Adelaide is also available in the International Student Handbook at: [flinders.edu.au/international/explore/international-student-services](http://flinders.edu.au/international/explore/international-student-services)

## APPLYING THROUGH AN AGENT

Flinders University has a network of agents situated in more than 400 offices around the world. We encourage you to talk to someone face-to-face about your unique situation to ensure that any information you get is tailored specifically for your needs.

Agents can provide you with:

- answers to specific questions that relate to your own situation
- up-to-date and intensive education counselling
- assistance in application and visa processing
- pre-departure and arrival assistance
- IELTS, PTE and TOEFL support
- assistance with travel arrangements, including obtaining a student visa.

For more information visit: [flinders.edu.au/international/apply/find-agent](http://flinders.edu.au/international/apply/find-agent)

# Start your application

Looking to apply for a course at Flinders? Follow our step-by-step guide to help you through the application process.

If you require support submitting your application please contact us via our website or contact an agent in your country. [flinders.edu.au/international/apply/find-agent](http://flinders.edu.au/international/apply/find-agent)

## STEP 1

### Select your course or program

Flinders University offers a wide range of postgraduate and research programs. When choosing your course there is a lot for you to consider. What type of course should you do, what qualification will you get at the end and what are your career goals? Take the time to research which course best suits your ambitions.

## STEP 2

### Check entry requirements

Decided which course you would like to apply for? You will need to check that you meet our entry requirements. If you do not meet these requirements there are still options available to you. Why not consider enrolling in one of our pathway or preparatory programs? Please visit our website for further information [flinders.edu.au/international/apply](http://flinders.edu.au/international/apply)

## STEP 3

### Complete and submit an application form

- Selected a course?
- Met our entry requirements?
- Checked credit transfer eligibility?

You are now ready to complete our application form. You can apply online simply by clicking the 'apply' button at: [flinders.edu.au/international/apply/how-to-apply](http://flinders.edu.au/international/apply/how-to-apply)

### Application fees

An application fee of AUD\$60 is required upon submission of the online application. If you need assistance completing the online application form you may wish to contact the International Centre or one of our authorised agents who will be happy to help you. The University does not charge an application fee if you submit online via an agent. See our website for details: [flinders.edu.au/international](http://flinders.edu.au/international)

Prospective and current students should not use the online application system when applying for:

- a research higher degree
- a packaged program
- an internal transfer
- a deferral.

Please email [internationalapply@flinders.edu.au](mailto:internationalapply@flinders.edu.au) or come to the International Centre for details on how to apply for these options.

### Note: external courses

International students cannot undertake external courses while in Australia on a student visa.

### Research degrees

Whether you want to explore a topic that interests you in depth, create new knowledge or become an expert in your field, higher degree research at Flinders will help you to make a difference.

Work with highly qualified and recognised supervisors, connect with industry, government and the community, and contribute to the global research conversation. Higher degree research transforms lives, opening you up to new opportunities and making an impact with new discoveries.

Learn about the range of higher degree research available at Flinders University and find a research supervisor. [flinders.edu.au/study/apply/apply-research-degree/how-to-apply](http://flinders.edu.au/study/apply/apply-research-degree/how-to-apply)

### When to apply

Applications can be made at any time during the year to available course intakes. Admission to some programs is very competitive as places are limited.

Some courses have specific application deadlines. Please refer to the relevant course pages or contact the International Centre for more information.

# Terminology

You may have come across some terms in this guide that are unfamiliar to you. This list of terminology will help you to better understand what we mean. You may also find it handy when visiting our website.

## Academic English preparation (AEP)

Program aimed at improving your English language and academic skills prior to commencing study at Flinders University.

## Academic staff

All teaching and research staff, including professors (the most senior), associate professors or readers, senior lecturers, lecturers, associate lecturers and tutors.

## Academic year

Begins in late February or early March and ends in late November.

## Australian central standard time (ACST)

Time zone for Adelaide and South Australia.

## Award

A degree, certificate, diploma, masters or PhD of the University granted at the completion of a course of study .

## Bachelor degree

Normally the basic (first) undergraduate degree.

## Central business district (CBD)

The commercial and business centre of a city.

## Confirmation of enrolment (COE)

A COE is a document provided by the University to an international student who studies in Australia on a student visa. It confirms that an international student is eligible to enrol in a course. You do not need a COE if you are a local student, or an international student studying in Australia on an AusAID Scholarship, or on a temporary residence or permanent residence visa.

## Core topics

Compulsory subjects that form the basis of a study program.

## Course

A program of study leading to a degree or diploma.

## Course coordinator

The staff member who is responsible for a particular course. The course coordinator is your main contact person at the university. The course coordinator will advise you on matters like enrolment, topic selection, study program, and problems with study. The course coordinator consults with Enrolment Services in authorising your enrolment in topics, amendment of enrolment and withdrawal from topics for your course.

## Credit

Credit is sometimes given for relevant topics or units previously studied, for which a student is given an exemption.

## CRICOS

The Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS) is an Australian government register that lists all Australian education providers offering courses to people studying in Australia on student visas and the courses offered.

## Diploma

A formal qualification usually requiring the equivalent of two years of full-time study. At Flinders, the diploma can be studied as a qualifying program for students who do not meet the entry requirements for a bachelor degree.

## Elective topics

Topics that can be chosen to support core topics – often called optional topics in science degrees.

## English Language Intensive Courses for Overseas Students (ELICOS)

Programs for students who require English language training before commencing formal studies in Australia.

## Excellence in Research for Australia (ERA)

Australia's national research evaluation framework. Excellence in Research for Australia identifies and promotes excellence across the full spectrum of research activity in Australia's higher education institutions.

## External student

A person undertaking all of their study by correspondence on either a full-time or a part-time basis, and who is enrolled as an external student.

## Flinders Learning Online (FLO)

Flinders University's core online learning and teaching application.

## Flinders University Student Association (FUSA)

The on-campus student organisation that exists for the purpose of representing students' rights and interests.

## Flinders International Study Centre (ISC)

Flinders International Study Centre (ISC) offers academic English preparation (AEP), foundation and diploma programs for students who seek to qualify for Flinders undergraduate courses.

## Foundation Program

The Foundation Program is a comprehensive academic program that prepares students for university-level learning.

## Graduate

A person who has received his or her degree.

## Graduation

A ceremony at which degrees are conferred and diplomas awarded, and is usually held in April and December.

## Honours degree

Awarded to undergraduate students who choose to complete an additional year of study. In the case of four-year degree programs, honours may be awarded to students who perform particularly well.

## International English Language Testing System (IELTS)

Measures the language proficiency of people who want to study or work where English is used as a language of communication.

## Innovative Research Universities (IRU)

Innovative Research Universities (IRU) is a network of six comprehensive universities across Australia committed to inclusive excellence in teaching and research.

## International Network Universities (INU)

A global consortium comprised of higher education institutions that actively seek international partnerships and experiences, create innovative programming and delivery methods, and embrace the internationalisation movement.

## International Student Barometer (ISB)

The global benchmark for the international student experience conducted by iGraduate.

## Intensives

Where a topic is studied over a short period of time (eg. week or weekend) with the same number of contact hours as a semester length topic.

## International Student Services (ISS)

International Student Services (ISS) is the first point of contact for international students and offers a range of programs supporting your enrolment, study and social life, as well as a referral service to facilities on campus and within the local community.

## Major sequence

A sequence of topics that must be taken in all three years of a degree.

## Minor sequence

A small number of topics in one area of study.

## New Venture Institute (NVI)

New Venture Institute is the centre of innovation and entrepreneurship at Flinders University. Through programs and activities they aim to inspire, connect and educate future generations of entrepreneurs and innovators.

## Pearson Test of English (PTE)

Pearson Test of English is an English language test for students wishing to enrol in English-speaking universities.

## Postgraduate courses

Students must normally have an undergraduate degree to begin studying any postgraduate course; this is sometimes known as graduate studies.

## Prerequisite

A topic that must be completed before a higher-level topic can be studied; it is the student's responsibility to ensure that topic prerequisites have been met.

## Pre-masters program

A qualifying program for students who do not meet the entry requirements for a postgraduate masters degree.

## Semester

The academic year is divided into two semesters – usually late February to mid June, and late July to November.

## Student Learning Centre (SLC)

The Student Learning Centre (SLC) is a multidisciplinary academic support service for Flinders University students.

## Test of English as a Foreign Language (TOEFL)

A standardised test to measure the English language ability of non-native speakers wishing to enrol in English-speaking universities.

## Topic

A subject that is studied as part of a degree program.

## Topic codes

Topic codes consist of a four-character alpha code followed by a four-digit code. These eight characters form the total topic code, eg. EDUC1120 Teaching and Educational Contexts. These should be quoted whenever you are making an enquiry about enrolling in a topic.

## Undergraduate degree

A first degree.

## Unit

The measure of weighting given to a topic as specified in the syllabus for that topic. Each topic is given a weighting in units, roughly proportional to its length. Most full-time students complete 36 units a year to gain the 108 units needed to qualify for their degree if they are undertaking a three-year bachelor degree.

## Work-Integrated Learning (WIL)

A program designed to give students the opportunity to link theory and practice with valuable workplace experience while studying.
